## Dragon Baby Milly Taiden

Lily Cruz doesn't want a wolf for a mate. She's totally not going to follow in her cousin's footsteps. With one failed marriage behind her, she isn't really interested in relationships period. But she would love to have babies. At almost forty, her biological clock is hammering over her head big time.

Thane Dreki won't get some random woman pregnant just to stay alive. He isn't interested in a relationship either. Having seen how a broken heart can destroy someone, the last thing he wants is to give any woman that power.

Thane might have to reconsider his stance when he meets Lily and a wild night of sex results in more than either of them bargained for. He'll do anything to protect his woman and their baby, including killing anyone who threatens their existence. But the biggest problem he faces isn't an enemy, it's getting Lily to give their love a chance.

## From Reader Review Dragon Baby for online ebook

### Bambi Fogleman says

WOW is all i can say Milly Taiden as always delivers a hot sexy super hot read with the perfect amount of sizzle to keep you captivated through out. I wait for each and every book she has to come out so I can lose myself in the amazing world she draws you into. With out a doubt this book is a must read!

“You have time, brother. I don’t.”

Saxon frowned, his beard hiding the tight set of his jaw. “What do you mean? You have time. Find someone. Bear a child.”

Thane pushed back the blond strands of hair falling over his forehead. “No. I don’t want a mate. I’ve seen what it does to people. Makes them weak. I won’t be one of those.”

Saxon growled and came forward. Fire lit in his eyes. “Are you fucking crazy? You’re going to die if you don’t.”

Thane met his hard gaze with his own. “Then I die.”

Lily worked at Night and Day Ink which she loved even though her biological clock was ticking and all the women were having babies but her. Add a annoying man that for some reason now thought she was only there to work for him and getting under her skin even though they had never met. She had a job and it wasn't being at his every whim.

Thane stayed out in his cabin most the time enjoying what little was left on his time on earth. For some reason the new hire got to him even though they hadn't met. She had a inner fire that he loved to spark. When lily has had enough and drives to his cabin to deliver his latest demands and tell him exactly what she thinks things get a whole lot hotter.....

The sound of the door crashing open made her whirl around to see what the hell happened. Holy mother of bad boys. There he stood, his body corded with muscles and tense as he took in a long breath and growled. The door landed on the ground, off its hinges.

“Thane?

Milly decided to bring back Dragon Baby and add to it. Usually I worry about the rehashing or reading over the same old story, but with this one you couldn't tell as the story flowed from beginning to end.

Thane and Lily a fast pace story the fate of a dragon as he turns a certain age, a six month period a young wife was the most miserable of her life. Both events leaving both the male and female with a bit of baggage.

You can see how love sync's, how emotions can make your life really good or really bad. Love, jealousy, heartbreak and sadness. Story well detailed and meshed with a bit of danger and some hot scenes. Overall a great Re-read for me. Enjoy

Yeah well someone should have told the fates how Lily and Thane felt, because they have a mind of their

own. Grab this great story just the right length and has both my favs dragons and tigers. Go along with Thane and Lily's adventure and see the outcome. Enjoy

Lily a divorced tigress, who as the saying goes once burned, twice shy. Thane is a dragon shifter she has the hots for. One snow bound weekend will change everything. And the past comes back to haunt them both. I must say that this is a definite re-read and hands down a favorite of mine!

\*I just finished rereading this, as it has been update & upgraded for a single release. This was previously released in an anthology.

This time around, I liked it much better!! New scenes, and a little bit extra stuff. I'm much happier with the release!!!!!!

10/14/16:since I'm always honest with my reviews, I'm just gonna say I'm am not in love with this latest release from Milly Taiden.

I love her, but this book did not do it for me. I am not sure what was missing, but it's not up to par as the rest of her work.

Still some hot scenes.

There was also a few spots where it just skipped over stuff.

Dragon Baby can be read as it's own full story complete with ending standalone or as book 5 in the Night and Day Ink series. There are some returning character's but they are brief and do not add to the current story. No cliffhanger everything seems wrapped up at the end of this story with a great HEA for two shifters that have had rough pasts. The pages light up in this steam shifter romance that also has a secondary plot. Keeps you reading and intrigued until the last page.

### **Carmski Pescod says**

I read to remove myself from normal life for a while, to be swept off in to new worlds & epic adventures. This story did that for me. I love shifters & I can imagine a world like this that I would love to live in. I loved this story of Thane & Lily, it would be wonderful if life was like this, it would be a hell of a lot of fun. Another great read by Milly Taiden.

### **Dmcl says**

Dragon Baby by Milly Taiden is a great addition to the Night and Day Ink series. Thane and Lily make a formidable couple as they struggle with their resistance to the mate bond which is a matter of life and death for the thousand year old dragon. They must also face the challenges that a murderous brother and a no good ex-husband bring to the table. Filled with action, romance and hot flash inducing steam, this novel is a must for all PNR lovers in general and Milly's fans in particular. A standalone complete with HEA, you will want to read the whole series to get the most enjoyment. Great fast moving fun!

I received a complimentary copy from the author in exchange for an honest review.

Dragon Baby by Milly Taiden.

3 out of 5 stars.

Lily Cruz is a tiger shifter. Most of her other cousins are mated to the Night men, but she's not interested in having another relationship with anyone, not after the disaster her last marriage turned out to be.

Thane Dreki is a dragon shifter and is reaching his one thousandth birthday very quickly. If a dragon hasn't procreated by then, they will die. The problem is that Thane doesn't want a mate or a family.

Not until he meets Lily. And then all bets are off with both of their inner animals.

All they have to do is fight their own feelings, Lily's ex-husband, and Thane's younger brother to be happy together.

I recommend this book to other paranormal story lovers.

### **The BookChick says**

Oh this story was just too sweet but oh so very, too. Dragon Baby was short and sweet but a perfect read when you don't have a lot of time. Milly Taiden definitely keeps her fans smiling with the humor, sass, and heat that she deploys into each one of her stories.

Dragon Heaven...

Ai, ai, ai, hijo de su madre, everytime Tigres Lily Cruz received an email from her boss Thane Dreki all she wants to do is claw his eye out, problem is, she wouldn't know him if he was standing in front of her because she has never seen him in the flesh.. He keeps tasking her with things a secretary would do and that is not her job at Night & Day Ink, she is there to purchase property for the company.

Dragon shifter Thane Dreki wants nothing to do with getting a mate, he will not let a woman have that control over him, not after what happened to his sister... He would rather die and go to dragon heaven and that's what will happen to him in 6 months if he doesn't mate or produce an heir before his thousandth birthday. Well he gets his wish the moment he sets eyes on Lily and she gets her claws into him, he dies of bliss and goes to heaven.

#### **Great characters and storyline**

Funny how there are a lot of coincidences in life. I often thought to myself it is a small world. This book shows how people intertwine with one another. A divorced tiger shifting woman with a horrid ex-husband meets a really old dragon shifter man who in no way wants a relationship, even if it costs him his life. The old dragon shifter is uber rich, and has two brothers. These 5 people are about to clash big time. And one small baby is right in the middle of it. Great story.

### **Lisa Boyd says**

I love this story!!! I have to be honest. I love all of the Night and Day stories. They are all full of Alpha yet caring men that really know how to take care of their independent women. While this story is part of the Night and Day collection, it can totally be read as a standalone. This is one of my favorite stories for a couple of reasons. It tells the story of two characters that have given up on love for both personal reasons, bad past relationships as well as a belief that its too late to find true love. I think this is extremely relatable to many of my friends. In the end true love conquers all. There's also an underlying action/intrigue within the story. Besides who doesn't love a dragon shifter? There's something for everyone. Highly recommend. It makes me want to read the Night and Day stories over again.

An awesome read.

### **Donna says**

Milly Taiden is my go to author when I want a short, hot, fun read and this story is no exception. As I was reading this I pictured in my head the fates just laughing their asses off at these two. She has been burnt but a bad marriage and he has seen what loving the wrong person can do to you. When these two meet it is all over but the screaming. A truly fun read.

### **Nikki McCarver says**

Every time I think I finally have my perfect alpha male from this extremely talented author, she writes another book. She tops all of the characteristics that I loved so much in the previous release, and then adds some more to the list. This book was fantastic..with its peppered moments of humor and incredible sex scenes. I mean all I'm going to say is...came through the door? Definitely one of my favorite parts. The love and devotion that he shows to her and the children really brought a tear to my eye. If only there were more

real men out there...just like this one. Hats off to you Mrs. Taiden for writing another great fantasy down on  
on paper!!! You rocked it!!
