## **Every Part of You: Takes Me** Megan Hart

Together, they were on fire. Apart, they're miserable. Can Simone and Elliott find their way back to each other?

Bereft after Elliott leaves her, Simone is urged to find solace in a non-emotional connection with a stranger that leaves her body fulfilled but her heart still empty. When Elliott learns she's been with someone else, jealousy prompts him to make a move on her, but passion is no longer enough. He needs to open up to Simone, who's not sure she can accept even his sincerest apology. A final run-in with his father convinces Elliott he has to make amends with Simone, no matter what it takes.

## From Reader Review Every Part of You: Takes Me for online ebook

### Geri Reads says

The constant back and forth finally got to me. It came to a point where Simone and Elliot just became too stubborn, too unlikable that frankly, I didn't care if they get their HEA or not.

Sad to say, this series ended on a disappointing note for me.

*ARC was provided by the publisher via NetGalley in exchange for an honest review.*

### Jay says

I read all 5 parts of this series in the same day, so I'm reviewing the whole series as one thing, as I didn't pay too much attention to each individual book. I do know that I was extremely happy to have the next one to continue straight onto at the end of each part as they always tend to leave you hanging for more each time...

I really enjoyed this one! it was quick, a bit of fun, hot & sexy, and also quite refreshing from the almost standard hot, rich, BDSM Dominant, male lead character. Yes, Elliot was pretty much that guy, but he wasn't. Rich - yes, hot - yes, BDSM master - absolutely terrified of it & what his preferences in the bedroom make him as a man - a monster who beats women.

The BDSM goddess in this story is Simone. The straight-up, tell it like it is, not afraid to ask for what she wants, pleasure/pain seeker. She too, like Elliot, despises the BDSM lifestyle of doms & subs, masters & slaves. Yes, she's tried it, but her outspoken, take no bullshit personality does not make for a good submissive, but she can take anything dished out to her, especially if that involves a good spanking or even a caning.

These two are a match made in heaven. Able to truly fulfil their fantasies together, & feed their desires to their hearts content. That is, until Simone's openness & Elliott's fears come face to face in a way that very nearly destroys them both.

Simone will not chase after a man. She doesn't need to. But when Elliott runs, she's very tempted to hightail it after him.

Sometimes the best thing that ever happened to you will cost you the highest price. & sometimes the greatest risks reap the highest rewards. But are Elliot & Simone prepared to risk it all for the chance of a scorching hot spankily ever after?

---

### Linda says

Simone, is still heartbroken over Elliot's cruel dismal of her, she is just moving hrough her days in a haze with no drive or desire other than to avoid Elliot, so sh can heal and try to move on. Her s Aiden is worried wboutt her and sends his sub to collect her and bring her to club Leather a bdsm club ( this kind if pissed me

of, he should do come himself) .

Once at the club Simone's penchant for voyeurism kicks in but leads her to experimenting as a dominant which oddly enough however inadvertently sets her on a path to trying to move on. She runs into Elliot the next day in the elevator and while not speaking to him she makes him aware she has moved on, exposing her thighs by slowly lifting her skirt so he can see the love bite marks someone else has left on her.

Stupid, stupid Elliot has come to the realization before this that he too loves Simone and he blew it, but he wants another chance. Can he convince Simone, come clean with her and let her inside? Will she give him the time of day?

Good ending to the series but it did feel a bit rushed to me.

**La Mala** ✋ says

Toda la serie copia el estilo post-Fifty Shades .... algo que canso antes de que empezara .

¿que paso , Megan Hart ? Antes eras chevere ...

---

**???'s Xamante de los spoilersX** says

Decepcionante. Entiendo que todo se va a tratar de una forma más superficial por ser tan corto pero la protagonista se la pasa 20 páginas acostándose con un tipo que no es el protagonista (Elliot) y las últimas 15 Elliot supera sus dramas del pasado, ¡en un día resuelve lo que le llevó más de 20 años superar!, están juntos y fin. HEA.

¡ESO ES CUALQUIERA!.

PD: Me quedé con ganas de leer sobre Aidan y Corrina.

---

**~ Cariad ~** says

**4.5 brilliant ending stars!**

Loved it! No messy around just two people dealing with love in a really human way.  
We all fuck up, forgiveness and honesty won the day.

Just what I needed :)

---

## The Book Junkie Reads . . . says

The final installment brings it all to a close. Pain for the sake of pure pleasure has Simone on a high unlike any other and provides Elliott with a new freedom unlike any before.

Each part of the series is made better if you have the next part that comes with it. Reading separately leaves a gap that make things not blend well together.

Thks NetGalley. This read was provided for an honest review.

## Phe says

**2 Stars - Every Part of You: Takes Me** is the final installment in a five part erotic serial by Megan Hart.

Bereft in her pain and grief after Elliott so callously rejects her, Simone runs off to Aiden out of despair and anger, and he gives her the pain she needs so she can stop feeling all of those things. He'd give it to her again, if she asked him to, and though she wasn't ashamed or regretful about what she'd done, she doesn't want to repeat it either. After all, it wasn't the first time she'd given her heart to someone, or the first time she'd been hurt. And she refuses to let this break her, no matter how broken she feels.

*"He had been her sun, the star she circled endlessly. Helpless against the gravity she'd been unable to fight. She'd flown too close and melted her wings made of wax. She'd fallen. Maybe she'd never been meant to fly."*

When Simone is urged to find solace in a non-emotional connection with a stranger, she quickly learns that though her body is left fulfilled, her heart is still empty. (view spoiler)

When Elliott learns Simone has been with someone else (view spoiler), he wants to find whoever it was and make them wish they'd never touched her. Mostly, though, he wants to get on his knees and beg her to look at him the way she used to. Unsure if Simone could ever accept his most sincerest apology, Elliott knows he needs to open up to her. And a run-in with his estranged father finally convinces him he has to make amends with her, no matter what it takes.

*"He wanted to say he was sorry. He wanted to say he wanted to try again. He wanted to tell her about his dad, and Molly, and the woman who'd birthed him but who'd never been much of a mother. He wanted to tell her about why he didn't want to let her in. He wanted to ask her what he should do about his father, who'd said he wanted to see him. Most of all, he wanted to tell her about the list and her place on it."*

Most of Megan Hart's erotic stories are edgy, containing flawed characters and dysfunctional relationships, which I expect when I pick up one of her books. Her stories are intelligent, well-written and brutally honest,

balancing the fine line between sweet and heartbreaking. But, overall, I found the final installment of this erotic serial truly disappointing. There was simply *way* too much angst and desperation with so little payoff. While I enjoyed Simone, the confident, witty, strong-willed female protagonist, throughout the first three installments, by the end of this train-wreck I would have been content leaving her to wallow in her own misery. On the flip side, I grew to adore Elliott, the somewhat OCD male protagonist whose neurosis was frustrating at times. And though I recognize his actions, or emotional reactions, as it were, were very hurtful, in the end, Simone didn't deserve him.

*Content:* graphic language, explicit sex, voyeurism, oral, biting, pinching, impact and edge play.

*Other installments in this erotic serial include:*

---

### **Exina says**

Heartbroken, driven by despair, anger and grief, but **determined to forget and get over Elliott**, Simone escapes in a non-emotional connection with a stranger that leaves her body fulfilled but her heart still empty.

*“I love him, and I hate him, and all I can think about is how I don’t know how I’m going to spend the rest of my life without him in it.”*

When **Elliott** learns she’s been with someone else, jealousy prompts him to make a move on her, but passion is no longer enough. **He needs to open up to Simone, but he is still unable to find the words.**

*He loved her.*

*Oh, fuck, he loved her, and knowing it was like a great, crashing wave of grief and relief and shame all at the same time. He loved her, and he hadn’t been able to tell her, even though she’d given him everything he’d ever wanted in another person, and things he’d never known to ask for but knew he could never again live without.*

Finally he confesses his feelings and fears, Simone forgives him, **so they could live kinkily ever after.**

It’s a nice ending, although **a little rushed**, and not everything is settled. **I’m sure their relationship will never be easy to maintain.**

*Every Part of You* is **an emotional and steamy story, with all of its ups and downs, real characters, real feelings, anguish and love.**

*We all have our faults and our flaws and our quirks. But don’t you know, honey, I’ll take every part of you?”*

### **Bobbi Romans says**

Perfect ending to a wonderful angst driven story. Loved it.

The tension, the sadness...the red hot desire from both.

Bravo!

### **Rose says**

Quick review for a quick read. To be honest, I'm not enamored with the ending to this respective series. It was mega rushed. As from the previous installment, Elliot and Simone have their respective issues and possibly just came across the dealbreaker point of their relationship. This particular part has them resolving some parts of their issues, but it really felt pressed for time instead of natural. I thought there was a bit too much ruminating on the BDSM measure that Simone undertakes to make herself forget about Elliot's betrayal, and less time with them dealing with their respective situations and each other. You would think the latter would be more important, but the focus felt slightly off in this part. I did like that Elliot had his respective confrontation of his internal and external demons, but it was really hard for me to follow Simone for anything in this narrative, for some reason.

The steamy scenes had fire, and it was especially steamy with one of the subs (Nick) having some potential, but I'll admit I think some of the time could've been better spent in the narrative for development and that's what disappointed me.

At the very least, this serial novel has a definitive conclusion, I just wish the execution could've drawn me in more. Hart's written better than this in some of her short stories as well as novels, so while I'm disappointed in this, I'm hoping my next read from her is better.

Overall score: 2/5 stars

Note: I received this as an ARC from NetGalley, from the publisher St. Martin's Press.

**Heartache is one of the hardest types of pain out there**, because it never gives you a break and you may never recover from it. **It's a tormentor with the sharpest blade and aren't we all familiar with that particular blade?** That's how Simone feels after Elliot broke her heart. Months have passed and she gives her best to try and forget him, but every time she fails miserably. And he doesn't even seem to care. Ugh! Damn you Elliot! Your cold demeanor made me imagine several right hand-left hand slaps headed your way, but you did kind of redeem yourself in the ending even if you took your time. Jerk!

But back to the really good parts, meaning sex parts, because this last installment, considering that department, was **the hottest** of them all thanks to **one visit to the BDSM sex club including two Dominatrix and a guy submissive**. I'm not into the bdsm scene, but even I must admit that that was hot and that's all I'm saying.

All in all, I'm happy with the way this story ended. I still think it would have been better if M. Hart published only the whole book, and not like this in 5 short parts, because its hard to rate 30 pages, especially if you don't have all of them near and that's why I recommend anyone who wants to read this to buy the whole book. It was a collection of **fun, way-too-hot & emotional** parts with **no bigger drama mixed with a little bdsm**. Not one of my favorite M.Hart books, but quite enjoyable.

### **Zee1 says**

\*\*Slightly spoilery\*\*

Sex clubs, Simone experiments with giving pain instead of receiving it in an effort to heal her crushed heart, she punished Elliot with showing her glimpses of bruises left by another's hands, this part was intense, full of anger and heart break and bitterness.

Elliot is proof that one is never to old for daddy issues, especially when your father is a good for nothing, selfish asshole. My heart went out to Elliot, and I wanted desperately for him to get some sort of closure.

The ending was kind of perfect. He apologizes, repeatedly. They lay it all out there, and they make it work. It all ends where it started... in Elliot's office...only this time Simone is in it.

### **NiteReader says**

Overall, I enjoyed the whole story.  
This last novella was a tad weak but I liked it anyway! :)
