Drew Graham says

Dinosaurs love their dogs, sure, but they must also love and take care of the cats in their lives.

There was something kind of funny about this entry in the How Do Dinosaurs series. It had some amusing wordplay and fun, colorful illustrations as per usual, but it also seemed occasionally kind of random in its rhymes and suggestions. Maybe it seems odd because taking care of cats requires much more specific instructions than going to bed or getting well soon.

(Also, this was the first of the books that I've noticed refer to the dinosaurs as she.) (Though I also just barely noticed that most of them refer to the dinosaurs as he.)

Diana Thomsen says

"...and changes the litter box just when she aughter." That line right there should make this book a keeper for ANY cat owner! lol Cute story, as expected, and a great addition to my unit about dinosaurs.

The illustration on each page are really great! It really shows interaction between the dinosaurs with their pets. Even toddlers who can not read will also love this book for its interesting pictures. While for the beginner readers, this book has simple words that will enrich their vocabulary, especially in terms of having pets.

There are totals 8 type of dinosaurs in this book so children could also learn about dinosaurs and their appearances. My eldest son (4,5 years old) really love this book and often to read the dinosaurs name over and over again since they are a little bit difficult to pronounce.

I think this series is really cute. I love how the dinosaurs misbehave and then we see them doing the sweet and right behavior at the end. In this book, the bad behavior wasn't quite as bad as some of the other books. The ideas about how to care for your cat were a little older for Natalie then I thought they would be, which was a little disappointing, but didn't hurt my overall impression of the book. Its really more for preschoolers through primary school kids who have been given a cat as a pet or responsibilities in caring for the family

pet. It will still make a good addition to Natalie's library letting her know how she is to treat the cats, but doing so in a fun way (with dinosaurs!).

Emily says

I don't think it's too soon to try to instill empathy and a kindness for animals.

Kris says

Ha! I like this one because it addresses not just being nice to animals, but not being a total jerk to animals. Also, it rhymes water and aughter, so bonus.

Lin says

My granddaughter liked it more than I did, so extra star for that.

Mister David says

Uses dinosaurs to teach us the proper way to care for our pet cat. Excellent!

Jonah says

We needed a book that not only expressed how you should take care of your cat but also how not to be a jerk to your cat. This book delivers. Little guys/gals need to see how to treat their fuzzy family members as how not to treat them.

Caitlinleah says

The rhyme is a little silly sometimes, but the dinos are adorable. I'm not a big fan of all the negativity in the first half. It seems a bit advanced for the board book crowd.

The Badger says

I love these dinosaur books. When I have "book-dates" with younger students for good behavior, I may possibly maybe sort of kind of lead them towards either the dinosaur books or the Skippy John Jones books.

Austin Wright says

Comical pictures with a rhyming story. Takes 30 seconds to read. Recommended for all children.

Dolly says

We've read a few of the books in the How Do
Dinosaurs..." series by Jane Yolen and Mark Teague, but our girls have outgrown these books, so I read them
at the library myself.

This is a fun book that explains, with a rhyming narrative, good and bad ways to care for a cat. The book is
entertaining and encourages children to be kind to animals.

March 2018 update: I saw this book at our local library while I was browsing in the children's section and
just had to read it again.

Bri Zabriskie says

I definitely relate best to dinosaur when learning rules of etiquette. :)
