Great book for anyone needing to zap their Christian walk back into life, have lost their trust in The Lord or on the search for Christ. I really enjoyed it.

#### **Food-for-Thought**

Read over a large period of time whenever I had spare time on the go, so I lost a lot of the flow, but it had a lot of good food-for-thought.

### **Charlene says**

This book was informative at best. I didn't really care to much for it.

### **Katelyn Pauls says**

A good book about getting to know God better and learning how He relates to you.

### **Laurie says**

So many highlights and notes made while reading -- I took my time with this book, this reminder of who I am in Christ and to Christ. I will be keeping this close by to reread often.

I loved the promise of the title.

What I got, sadly, was a brief glimpse of the promised content - and some chapters were more..... the author's inclusion of some Bible studies on how a Christian should live. They were related, but not totally on topic.

The first part and most of the wrap-up on the chapters brought out the premise, but the chapters had a lot of Calvinistic messages. There was also some dissonance as to the participation of a person's will in the process.

If reading this as a new Christian, the biographical lessons from the Old and New Testament may be helpful - but as a person who has been a Christian for a number of years, these biographical lessons were not new or revealing the awe-inspiring messages as she portrays them.
