# **From Reader Review In Search of The Far Side for online ebook**

## **Charles says**

Superb, of course!

---

## **Kelly says**

Many I didn't understand, but still humorous.

---

## **David Caldwell says**

When I was working in any of the many bookstores where I was employed and I did not want (or have the time) to read my current book, I would grab one of these collections to read on my too short break. I slowly but surely worked my way through several series. These are great time killers and will usually improve your mood no matter how hectic the day. Laughter can be the best solution to dealing with the public.

This cover just makes me laugh. The carttons inside keep me laughing.

---

## **Molly says**

As always, Gary Larson delivers. In Search of the Far Side is funny, provocative, and insightful, like all of Larson's books. Unfortunately, as with most comics strips, it's either all or nothing, love it or hate it. If you like Larson, then you are guaranteed to love this book. If you don't care for Larson...why are you here?

---

## **Gabriel Wallis says**

The Far Side remains entertaining, as always. I've been reading The Far Side pretty much since I started reading at a young age. It always brings me a smile and a laugh. As an adult, I can understand things now that I couldn't as a child. Gary Larson, thanks for making me laugh all these years.

---

## **Conan Tigard says**

In Search of The Far Side is even funnier than the first two, The Far Side and Beyond The Far Side. The book is a fairly quick read since there are only 100 panels. This means that it is about one-third of a year of comic strips.

Gary Larson takes us to new heights in belly-jiggling laughter as he parodies human nature. How many

stupid things can a man do? Are animals really as dumb as they look, or do they actually do smart things when we are not looking? All of these answers can be found in this book.

Most will make you laugh . . . some will make you think . . . some you will just sit there, stare at the page and go...huh? But all are fun and overall you will feel a serene sense of satisfaction when you have completed your odyssey into humor.

Give Gary Larson an hour of your time, and he will bring a smile to your face and brighten your day. Hey . . . maybe I've gone overboard just a little here, but I really love Mr. Larson's work. In my mind, comic strip for comic strip, no one is funnier than Mr. Larson.

So, if you are looking for something cause your cheeks to hurt from smiling to much, pick up In Search of The Far Side. You won't regret it.

### **Kevin Keating says**

I love all these books! Never fails to make me guffaw!

---

### **jacky says**

Enjoyed reading this while watching TV. Gary Larson is always funny and I love how sometimes you have to look carefully to get the joke.

---

### **Theresa says**

Third in the collection of Gary Larson's very off-beat cartoons. I love em, but the more you read the more brain spins.

---

### **P.H. Wilson says**

Real rating: 3.7/10

The farside is the anti-humour of the comic world, most of the jokes are not jokes but statements with humorous pictures. It also sports a striking similarity to the New Yorker cartoons in the sense that people laugh at it even when they do not understand it, because in the end a cow looking cross is funny on such a base level that a flat joke gets treated with a higher regard.

---

### **Glen says**

More great Humour from gary Larson

---

### **Nathan Burgoine says**

More Larson humour, and as always, good for a solid chuckle or three, full of warped humour and sarcasm. I had all the books separately, and then, working at the bookstore, there was a leather-bound collection of all the comics, ever, and I caved. One by one, the individual books were released through bookcrossing. And then, when it was all done, I ended up giving the giant collection away.

Still, if you've read any Larson before, you know what you're in for. This is more of the (excellent) same.

---

### **Mike Jensen says**

Those of us who think we venerate THE FAR SIDE forget all the less stellar cartoons published between the really brilliant panels that are the object of our veneration. Any FAR SIDE collection sets us right.

---

### **Laurel Kathleen says**

Same as it ever was :)

---

### **Little Miss and the Legomeister says**

Not as funny as Garfield. \*\*\*

\*\*\*This is *his* review so I will let it stand, even if he is **very, very wrong**. And I will refrain from mentioning that he's eight and probably doesn't have the life experience to fully comprehend Larson's brilliance.
