Intimate Seduction Brenda Jackson

When a man finds a beautiful woman asleep in his bed...

...he has only one choice. To seduce her with a night of lovemaking she'll never forget. Trouble is, Donovan Steele's sultry new housekeeper is just as determined *not* to become the legendary playboy's latest conquest.

Trading the Ivy League for down South, Natalie Ford is helping out with her ailing aunt's housecleaning service. But she finds that this powerful, potent man of Steele ignites a different kind of chemistry--one that defies every law of attraction the science professor ever learned.

Natalie knows she has to come clean to Donovan about who she really is...especially when he starts believing she's out to sabotage his family business. Will she lose her chance to love the real man behind the seductive legend?

Very good read. I knew it would be with Brenda Jackson's name on it.

Diehard Playboy Donovan Steele wasn't ready for the likes of Natalie Ford. He found out the hard way that he was smitten with her from the time he found her fast asleep in his bed...a bed that he never invited any of his conquests to share. Little did he know that she would not only peek his curiosity, she would also steal his heart and end his womanizing ways. An awesome love story that lures you in from start to finish.

Mrs. Jackson gives us another Steele Hit! I must admit considering the "playa" that Donovan Steele has been portrayed as throughout this series...I DEFINITELY thought there would be more drama...perhaps some of his other women NOT taking to kindly to ONE woman occupying all his attention and time...and making big TROUBLE for him...but SURPRISINGLY the only DRAMA was caused by Donovan, himself...lol...the romance as usual is on point...another quick and ENGAGING read...and I can't wait to meet ALL the Bachelors in Demand...and also the Steele's of Phoenix and their circle friends...bring it on, Mrs. Jackson!

Donovan was worth the wait in this one. Too hot to handle is just what he was in his pursuit in Natalie. He was downright scandalous in what he did and said to get her to fall into his bed. Loved it and couldn't stop reading just what he would do next. Just SEXY!!

Yum. These Steele boys sure do know how to treat a lady. Felt like I was visiting friends with Donovan and Natalie since I knew about them in Uri's story. It was great seeing how they met. The key to any relationship is TRUST. Without that, there is no relationship. Great read

I found this book very enjoyable. I love this author's writing style. Very romantic descriptions. I liked the way she created Donovan's character to be sure of himself but at the same time showing vulnerability when it came down to Natalie. Would suggest this to anyone who wants some nice easy, get away from the everyday world reading.

This book has such a high average rating that I thought I'd like it a lot better, but I didn't. It was both slow moving and ridiculous. Ridiculous in that I just ended up getting annoyed.

- 1) I don't care how hot, if I found my cleaning person (if I had one) sleeping in my bed while they were suppose to be working I would fire them and ask for a refund on that shift. Then I'd clean myself because you can't trust anyone these days.
- 2) If I had a PhD, I wouldn't be purposefully hiding it from people. Sure I might not rub it in your face, but if I was on sabbatical to help out my aunt and someone directly asked me what I was doing I would say!
- 3) Why do the women always have such little experience, YET are told they are naturals when they meet 'the one'? Wouldn't there be some awkward, hesitant sex before they get lost in passion? My life leads me to believe that there would be!

So I'm not going to be reading any Brenda Jackson for awhile. This book wasn't bad bad bad, it was Ok, low level good you could say. But it just didn't suit me.

I just love anything Mrs. Jackson write. I have been reading every book she ever wrote for the past 5 years. I came across one of her westmorelands novel and have been reading every single book she ever wrote. s

This book book was awesome. I love the Steele family. They are close net and when they love they love hard. Morgan and Natalie has this building chemistry at first sight of seeing one another. I like to think such a thing as love at first sight still exists.

Joana says

No início, um homem completamente mulherengo mas que vai ganhando maturidade assim que perde a mulher que ama pela segunda vez. Concordo com Channing quando acha que a declaração de Zane não passa apenas de um desejo e não amor, mas ao longo da história, a luta pela seu verdadeiro amor mostrará que realmente os dois se amam de verdade. Foi uma história engraçada, com bons pormenores, mas uma tradução menos eficaz em algumas partes, contudo o leitor consegue perceber a ideia transcrita.

Pretty good book. Natalie is in Charlotte to help out her aunt who broke her ankle. Fortunately it is summer break so she can take the time away from her job as a chemistry professor. When she meets Donovan the attraction between them is immediate and explosive. She doesn't intend to become another notch in his bedpost, and he won't give up until she gives in.

I liked Natalie. She is a brilliant woman who has earned the respect of her peers. She takes a break for the summer to help out her aunt. When she meets Donovan she lets him think that she's just a house cleaner. She had a problem in the past with a man who was so intimidated by her intelligence that he could only cope by putting her down. He did a real number on her self confidence, especially when it came to intimacy. At first she had no intention of giving in to Donovan's seduction attempts, but then decided to take advantage of their attraction for her own pleasure. I loved seeing the way that her confidence grew. I also enjoyed seeing her do things that brought her out of her academic shell. While I understood her need to keep her profession quiet, she waited a little too long to tell Donovan. Fortunately it all worked out for her.

Donovan was quite the footloose bachelor. He worked hard but he liked to play even harder. When he met Natalie he felt an strength of attraction he had never felt before. He was determined to have her, and when he did it was like nothing else before. I loved the way that he couldn't get her off his mind, even getting distracted at work. He also took her to family gatherings, something he'd never done before. He made a real idiot out of himself when he found her notebook and I loved watching him have to grovel.

At first, I was annoyed with Donovan's arrogant behavior. Not every woman appreciates an Alpha male coming on so strong. He was just about to cross the "pursuer" line into stalker territory! Natalie had self esteem issues due to Karl and other assorted creeps implying that Natalie may be an expert in chemistry but she was failing at romance. So I understood why she kept her credentials secret from Donovan. Natalie wanted to see how he would treat her if he only thought she was a housekeeper. I loved how Natalie stepped in to help her injured aunt. She was extremely grateful for how her aunt took care of her when Natalie's

mother abandoned her. Absolutely hilarious when Donovan discovers what Natalie really does for a living!

I loved Donovan's story. Mrs. Jackson stayed true to the Forged of Steel force. Donovan and Natalie's chemistry jumped off the pages. Donovan was hot and sexy just like his brothers and Natalie was the perfect woman to bring him to his knees. The only thing I didn't like is as usual Kimmani Press only allows its authors around 250 pages to develop a lasting romance between their Hero and Heroine, but being true to her title as the "Queen of Romance" Mrs. Jackson delivers an explosive page turner. I loved it.

Connie says

It was a decent book. I'm glad that I read it so that I could read about all of the Steele brothers, but sometimes I think that Ms. Jackson has too many other characters that she is trying to introduce for other books. To try to keep up with all of the family members can be a little cumbersome at times even though it is nice to know who they are when you read another book in the series.
