Mary Ann Woods says

Excellent!

This book was so good. Two Christian sisters who decided to let the Lord make the decision when marriage was right for both of them. What a true testimony of love from each of them.

Tammy Cable says

I deeply disagreed with her interpretation of scripture and felt the basis of her story was lacking because of it.

Gabrielle says

The love story between Esther and Ian is a slow, strong, beautiful one. Esther's father believes that the oldest daughter should be married first that his is strong belief., but the problem is his young daughter Rachel is already engaged and Esther believes she will be single for the rest of her life. Long story short, and without giving away everything works out in the end as long as you trust god and put your faith in his hands.
