Marius Madison Stevens

Rachel thought she could make a name for herself in the medical field working with the hybrids of Luna Lodge. She never expected to be trapped between the deadly plans of the Horatius Group and the paranoia of the Luna Lodge hybrids. Even though they now distrust her and want her gone, she can't leave while her closest friend is at death's door.

Marius is tired of the disrespect of the other hybrids and the distracting Rachel. While he can't deny his strong attraction to the doctor, her sharp personality makes her hard to deal with. Though he knows she wants to help the hybrids, he isn't sure if the emotional armor she wears makes her a good fit. At the same time, he doesn't want her to leave and to miss his one chance at a true mate.

When hybrids start falling ill under mysterious circumstances, Rachel and Marius will be forced to work together and face both their own passions and a deadly new threat to Luna Lodge.

Obnoxious woman!

I enjoyed the first 3 of these books however this one fell short for me, Rachel the lead woman in this book was obnoxious and just not likeable it was a chore to read because of her character, I will continue to read the other books in this series as I've enjoyed this author's books before, might have been just me but she rubbed me up the wrong way from her character appearing.

So many things didn't make sense

The plot to this book was good, but the execution had a lot to be desired. The chemistry was off and on. The accusations and paranoia was not looked at as unusual until the end and I still don't understand why Rachel had to meet with the Reverend to save everyone. Ok read.

Another winner

The Luna Lodge is my absolutely favorite series Me. Stevens write. I am always looking forward when she has a new book coming out from this series. Love Susan Bliler, Laurann Dohner, Lora Leigh, and now, Madison Steven breed/hybrid books. I hope this series goes on forever. lol. Looking forward to Apollo, Jenna, Rem and Paige's HE A. If you have read the first three Luna books then you know Rachel is an independent strong willed, really stubborn Herione and dedicated doctor who feels she only has one friend. She will do anything to save that friend even put up with distrust. Markus is a true alpha male who loves/hates Rachel, and also feels that his brothers look down on him. I enjoyed seeing him show them that he is a warrior too not just a computer guru. I also loved seeing him realize what Rachel meant to him. Think Rem maybe a bit of a matchmaker. The hybrids have more than one enemy and the storyline is intriguing to say the least. I know it's unrealistic to want another book immediately but what can I say they are just that good. Keep them coming Me. Stevens and I. Will keep buying.

Ok I loved this book I honestly didn't think I would as in the previous books Rachel and Marcus where my least favourite people I wanted to read about but to carry on with the story I had to read about them and was I stupid to almost miss out it was very good I enjoyed the whole story it just gets better with each book

Rochelle says

This is the fourth book in the series and I really enjoyed it. It was a really emotional story for me because poor Rachel had to put up with a lot and she took it like a trooper but I would have loved to have seen more fight in her, where she perhaps left and they went to look for her with their tails between their legs including Marius. However I did actually love their story and I will most definitely lately continue reading future books in the 'Luna Lodge' series!

Connie says

Well worth the wait! Storyline was definitely a winner even if it did seem like everybody was against Rachel for the majority of the book. Loved that Marius stood by his woman despite circumstantial evidence. Loved Rachel and Marius as a couple. They were sweet, emotional and steamy romantic despite all the conflict going on around them. They both prove their worthiness not only in their eyes but in everyone else's also. Would recommend. So can't wait for more in this series.

Great twists

I love all the Luna books and this one introduced some great new characters. this book was well written and definitely worth the wait. The trials the characters went through and forces that tried to keep the mains from getting together kept me on edge. I love it when a books can keep me interested the whole time, and this author hasn't let me down yet.

Theresa Giometti says

Awesome!

This series of books is absolutely wonderful. It has everything I look for, strong men and women, a mystery that makes them vulnerable, and the fact that love and trust can make everything right in the end. I love these men and their honor, pride, and suspicious hearts. Their women are strong and smart and they love fiercely. I can't wait for the next one.

Monica says

I'll be honest this wasn't really like all the other books. This to be honest was a bit of a let down. There were moments I dug it and others made me wonder WTH. I really liked Rachel...her methods are a bit weird but she is a doctor and a scientist so that's to be expected. What I didn't count on was the animosity towards her from everyone. When the heck did that happen? I know things were a bit off in book 3 but to make her hated? Not cool! Her friends even abandoned her. Who does that? I mean the only friend she really had was Hannah and she was basically laid out fighting for her life and Lucien trusted her to save Hannah. I didn't see one other friend supporting Rachel and that pissed me off! Ram was good to her but he was kinda in the same boat a prisoner so to speak. Justus was ok but he really never talked to anyone and he was a prisoner too. Marius was bunking with her to "watch" her. So...prisoner. I didn't really feel any romance between these two. Lust yes but romance? Um no. He had the same feelings basically that the guys had. He didn't fully trust her either or understand her. He took up for her a few times but then in essence abandoned her sorta until he got his rocks off with her. I also think it's hard for anyone to have any kinds of feelings well genuine ones when she is hated wherever she goes. I think this book was very rushed. Not sure why but it was. Lots of things made no sense compared to how the other books flowed. I don't hate the series because of it but I am disappointed with this book. I was expecting a lot out of it. :(I hope the other books are done better. I mean Lucius was excellent and then it's like Marius got the short end of the stick or something. I have high hopes for the next book so hopefully I am not disappointed like I was here.

Blue Rose says

What's up doc?

Rachel had a hard time of it, as all the Vestals seem to do, but she never lost her smarts. Marius was frustratingly frustrated, but I think his timing wasn't too bad.

Donna says

Good series!

Nancy Altherr says

Terrible editing misspelled words misspelled names in one instance on one line the nurses name was spelled Paige the next line was spelled Page. This is throughout the whole book. Plot in this hard to follow, the love scenes terrible, abrupt ending whole book felt rushed. I would recommend this writer get beta readers to read through and recommend corrections as well as a real editor and not depend on spell check. Out of the four

books in the series I think this one is the worse.

Sonia says

Marius is good with numbers that the other hybrids forget that he was trained to fight just like they were. Rachel is resident dr. but it seems the whole group is against her thinking she is a traitor. Marius and Rachel getting together is hard work but they make it .
