### Claire says

My major problem with this issue is the coherency; it doesn't have the same cohesive plot that the previous run had, and for me that lowers the quality of it as a whole. There's too many little bitty pages, with no real explanation for why they're there; the Dee pages in this issue in particular annoyed me. Good as character development, maybe - except not really, because the pages don't tell you anything about Dee that we didn't already know, and were kind of overkill (in a bad way). This probably contributed to the feeling of incompleteness; with those pages turned over to ensemble plot, the issue might have felt more cohesive and enabled more of the plot to be explored.

I'm still struggling with the art as well; it's too clean, too nice and pretty for the Queens. New artist, new style, I know. But I'm still not keen.

### Dimitris says

Oh well. It was good. Lots of nice moments and stuff. But, I still can't get over the change of the artist/artwork style. I just can't. I miss the old looks on the Queens.

Not that I have any problem with it. Nope. It's pretty and great and everything, it's just isn't the Queens I got to know. I was never bothered by a change of the artist, unless the artwork REALLY sucked or something. This is not the case here, I was just so used to the first arc, and I loved Roc Unchurch's art SO damn much, that I still can't say goodbye to that artwork.

Oh well, I still like the series and I'm definitely NOT putting it down.

### Cailey says

Rat Queens, please don't lose that special magic I love. This issue was marginally better than the last, but still not quite there. I realize we're building to something, but you haven't hooked me yet. About the art: we need consistency! Does Betty have dreds or not? This is driving me crazy!

I'm hoping for better next time. Hopefully the storyline will progress more to keep me intrigued.

### Alexandra Calaway says

This was somehow better than I had expected and I expected perfection.

**Sierra says**

The girls all seem to be hiding things. Oooh.

---

**Priya says**

Everybody's got something to hide. Curious as to what happens to the girls in the next issue.

**Househippo says**

RAT QUEENS FOREVER!!!!!!

---

**Jennifer Stoy says**

3.5 stars. I want to know what is going on with Betty and Hannah and all the things.

---

**Tar Buendía says**

Creo que de momento es el que menos me ha gustado. El argumento no me decía nada y no tan gracioso como de costumbre.

Sea como sea es entretenido y las Rat Queens son geniales.

---

**Ria says**

Dramatic! I think the long gaps between releases have damaged my enjoyment, it takes me a bit of time to get into the story. Still, enjoyable and filthy as always.

**Holly Letson says**

I just hope this series gets better.

3.5 Stars, buy it

Self Purchase, Comixology

This definitely wasn't my favorite Rat Queens issue. We do find out that most of the girls have a secret they are hiding from the others. A mysterious person/creature is after Hannah. The girls have to flee and are collapsing in the snow and there the issue ends. This definitely was not a fantastic issue. There was one or two funny moments, but for the most part this was pretty unexciting to me. However, because I love this comic so much, I'm still going to recommend buying the issue. I'm just hoping the next issue is a bit better.

Description (Comixology): Along the deadly mountain trail leading to Mage University, Hannah stumbles across an old friend from an old life. The mysterious figure knows a secret past that Hannah wants no one else to ever know about.

**R J K Lee says**

Another fantastic issue with the hilarity, action and depth of character I've come to expect from the series. Secrets build up the tension within the party and they get in over their heads, which is always fun for the reader.

**Look, universe bending scholars of the arcane don't have time to be creative with naming lame shit, alright? Took them years to come up with 'Mage University' for fuck's sake.**
