Sometimes you have to break the rules to discover the truth.

In this follow up to LEGACY OF TRIL: SOULBOUND, Kaya has learned that she is Soulbound to Darius, the Barron she secretly trained with at Shadow Academy. But he's been sent away, leaving Kaya with questions about how he could be Soulbound to her and another Healer. Determined to find answers and prove herself worthy of fighting in the war against King Darrek and the Graplars, Kaya sneaks away, encountering a mysterious Barron named Gage in her travels.

But Darius has shocking information about Gage--information that changes everything Kaya thought she knew about what it means to be Bound.

Update as of 10/26: YES YES YES YES YES YES YES!!!!!!

Disregard previous entry, because IT IS FINALLY HAPPENING!!!! Soulbroken was picked up by Harper Teen (God bless them!) and will be coming out Fall 2015!

I know... I did just say 2015.

\*Sigh\* Such a long time to wait. But wait I must, because I am SO excited to see how the story continues!!!

Previous Entry: I am so upset right now. I literally just found out that Soulbroken will not be released. Like ever. I died a little bit inside.

That's not to say that I am angry at the author or the publisher, because I'm not. Not at all! I still think Heather Brewer deserves mad props for Soulbound and all her other books. I'm not bitter or vowing not to ever read another one of her books ever again, because that would just be dumb. I would miss out on a lot of great books that way. I'm just really sad that a really great book will never see the light of day.

So, I understand that things happen and sometimes everything doesn't work out the way it was planned. Sometimes books that you have been waiting on for forever and a day don't get published. I get it. But I am still very very upset. And just really sad. :( I just had to get that out.

**Virginia says**

Uhhhh....fall 2015 has been long gone!?? Where you at though!?

---

**Katherine says**

Welp, I guess this is going back on my "To-read" shelf. I'd taken it off after Heather Brewer announced a couple years ago the sequel wasn't going to happen, but I guess she just wanted to toy with her minions' hearts for a little while.

I honestly don't know how much I will be able to invest in this book emotionally as the fact that it was cancelled then picked back up a couple years later shows a certain lack of confidence in the series from the original publisher's POV. However, I LOVED the first one, so I will definitely give Soulbroken a try.

I guess you could say I'm cautiously excited.

**EDIT 25/10/13: It's happening, IT'S HAPPENING! Harper Teen bought it and it will be released Fall 2015 in e-book format. You can see the announcement here:**

**EDIT 27/09/13: Heather has just released a new video explaining more about the situation:**  
<http://www.youtube.com/watch?v=lUGMcX...>

I kinda want to cry- Heather has just announced that this book will NOT be released:  
<http://www.youtube.com/watch?v=8tUn7A...>

The first book in this series was, without a doubt, one of the best books that I read last year and this was one

of my most highly anticipated of this year.

I think that it would a bit easier of a pill to swallow if the previous had had a sort of standalone-vibe to it, but it didn't in the slightest.

I hope that Heather or the publisher will at least provide us with some sort of closure- perhaps in the form of a short story.

### **G!nger says**

Soulbroken has literally left my soul broken. To say i loved Soulbound is an understatement, it took me weeks to get over that book because i became so emotionally attached to it-it was that good! I dont think i can ever read it again because im just too damn obsessed with it, its like my potter obsession. the fact that the series will never be finished ... it makes me feel so desolate and heartbroken. I just hope that one day Brewer will be able to bring it back, whether it be next year or ten years, ill still be faithfully waiting!!!
