## **Suit Yourself Susan Mac Nicol**

Scarred both physically and emotionally after a motorcycle accident, twenty-five year old ex fashion model and porn star Oliver Brown is about to be stripped bare by flamboyant twink Leslie Scott—and they'll rebuild love from the bottom up.

### **BARING THE BEAST**

Twenty-five year old Oliver Brown is addicted. Two years ago, he was at the height of his career as “Nikki Star,” fashion model, porn actor, partier without peer. Then came the accident. Hiding his scars, both emotional and physical, he’s gone into hiding. But fine clothing is some solace. A new suit by Debussy? Better even than a ride on his motorcycle Hulk or all the things he used to give and take on camera. Enter Leslie Scott, the flamboyant, dark-haired, heel-and-tiny-short-wearing twink sent to deliver Oliver’s newest fix. A firecracker, Leslie is dapper, generous, in touch with his feminine side but all man, and as gorgeous as any garment ever made. He makes Oliver dream of ending his reclusion, of recapturing a future forever denied him. But for that to happen, Leslie would have to strip him to the bone. Only then will they rebuild life from the bottom up.

### Rachael Orman says

4.5 Stars

I absolutely adored this book. In fact this could quite possibly be my favorite book in this series. I didn't really look forward to Leslie's book to be honest. I just thought he was so over the top and dramatic sometimes, but this played out really, really well to me. I really like the way Oliver paired up with him and the couple they made.

Leslie while still over the top was toned down by how withdrawn Oliver was and the way they both ended up being exactly what the other one needed totally worked for me. Although I would've liked to see Oliver come out of his shell a bit more, I think the book itself was perfect as it had to be taken in small steps after what he'd been through.... doesn't mean I wouldn't want more from him though.

I loved that we got little bits of the men from previous books as well and they came to back Leslie when needed as he was there for both of them.

I did find there were quite a few typos, but being that I got an early copy, those very well could be fixed by the time the book is published and I didn't mark down for it.

I was given this in return for an honest review by Inked Rainbow Reads.

### Aerin says

3.5 stars

This was Leslie's story, which I couldn't wait to read! Leslie lived up to his diva status and then some, but he's not annoying in the least. He's the king of ramblings and the queen of stilettos; the result? A character that I adored and who made me smile constantly.

There are enough great reviews for this book, but here's my two cents: while the idea was great, it was also very predictable. As soon as Leslie invited Oliver at that fashion show and Oliver decided to go, I knew exactly what was going to happen. I really hoped to be wrong, because once a book becomes predictable, it also becomes boring, and who wants to read a boring book? Unfortunately, I wasn't wrong, and the events that took place after that retched show were predictable as well.

I still enjoyed this book a lot, and there lots of hot sex in it; plus the chemistry between Leslie and Oliver is pretty hot as well.

\*\*\*\*\*

\*\*\*\*\*

OMG, cover lust!!!! Leslie, that's so Leslie! I'm hyperventilating right now, I need this! ME WANTS IT NOW!!!!!!

---

### **Tina says**

4,5 stars.

The third and best story of the Men of London series. I liked the previous books and I looooved this one. Flamboyant, heel-and-tiny-short-wearing Lesley is a real firecracker. Loved him to bits. Highly recommended!

---

### **Maria York says**

I loved this book! It's a sexy M/M read about a man who used to be a star until one night and one man changed everything! It changed him physically and emotional to the point of depression! Then he meets a man that changes everything again but he goes through an emotional roller coaster along the way! A great sexy and exciting read!

---

### **Isa Jones (Jo&Isalovebooks Blog) says**

OMG Susan Mac Nicol another book in the series and another 5 star result!

Leslie story is... well is full of Leslie LOL, is charming, sweet, funny, camp, romantic, sexy, its everything I was expecting it to be and more.

It was a beautiful book, after Sight and Sinners we were all left expectantly waiting to hear Leslie's. We have fallen in love with him since the fist book in the Men Of London Series. We knew that inspire of being such a cute and quirky character he also had a very sensitive side to himself and that whomever fall for him was in for a multicolour ride!.

The story begins when Leslie is asked to deliver a suit to a prominent client from the company he works for, Debussy. What we don't expect is him being greeted by ex-porn star and total sex God Nicky Starr, however he goes by his real name now and is carrying a hell of a lot of bagage. What happens once Leslie sets foot inside Oliver's house sets in motion of a multitude of funny yet heartfelt encounters. You see Nicky (AKA Oliver Brown), has been terribly hurt, in more ways than one, and the psychological and physical scars he is carrying have been a hinder for him to properly form ties with anyone. However he wasn't expecting Leslie Scott to knock at his door, wearing an uncomfortable thong and a killer smile. His life will never be the same. We also are joined by previous characters Eddie, Gideon, Travis and Draven from the last books, well Leslie needed his friends too!!

I totally adored this book. It had so much charm, it had so many LOL moments but also had romance and very very steamy encounters.

Well done Susan Mac Nicol for another enjoyable read.

5 massive CAMP stars.

---

### **Judy says**

Leslie

In the first two books in the series we met this corset and heel wearing beautiful man. He's like a mama bear with his friends, has a huge heart and a kick ass wardrobe!

**"beauty, grace, and a warm-hearted beautiful soul."**

He also has a hilarious sense of humor and is a bit of a nervous talker!

His antics had me continuously laughing out loud.

The only thing irritating him about his outfit was his thong. It just wan't behaving properly, riding up his backside and into his crack. Leslie didn't mind fingers and tongues doing that, but an errant piece of fabric was simply a no-no.

It was nice to see Leslie get his happily ever after. After both his best friends and housemates were paired off and out of their shared flat, Leslie was left all alone longing for that special person of his own.

Oliver

Oliver has a sad story. He was quite the celebrity in his prime. Popular, unbelievably handsome, a social butterfly and a bit of a suit whore!

Unfortunately after some unforeseen events, he's become quite the recluse. Now he's hiding, feeling unworthy and definitely unlovable.

Looking for love and that special someone to see the person he is inside is hard when you're trapped behind closed doors..

This was a sweet, funny and at times sad story.

Leslie and Oliver shared an instant attraction but I like how they take things easy and form a friendship before jumping off into 'more'.

I loved the banter and funny one liners I've come to expect with Susan's books.

I really enjoyed Leslie's kinky side. I am an m/m lover, but have to say that I don't usually read about feminine men who wear women's clothing. So leave it to Susan Mac Nicol to change that!

I must say...

Leslie masturbating in bed wearing nothing but heels  
was one hell of a turn on, I kid you not!

And I also appreciated their struggles with trust and acceptance. Their relationship wasn't all unicorns and rainbows. It was real, with real insecurities and heartache.

**"Well, I'm not everybody. So don't taint me with the brush that other arseholes use."**

I really enjoyed Leslie and Oliver's story, as well as catching up a bit with the previous couples Gideon/Eddie and Taylor/Draven.

Bring on the next Men of London!!! I'm ready!

### **Ele says**

#### **\*3.5 stars for Leslie, and Leslie alone\***

Before anything else, I'll just point out that, according to the dedication, the guy on the cover is a friend of the author's who posed just for this book in his own corset and high heels. I think this is super cool!

I've been very excited for this, because Leslie was a very interesting character in the previous books of the series and I wanted him to get his own story. And as far as Leslie is concerned, the author did not disappoint. **Witty, smart, gorgeous and funny as hell, he wears his heart on his sleeve and walks in high heels like he was born in them** (oh yes, if you don't like crossdressing don't read this). He is a diva and acts like one, but at the same time a sweetheart, a great lover and an amazing friend.

Now, Oliver...I did not like him. I never warmed up to him, start to finish, he was not worthy of Leslie and to be honest I would prefer Leslie to end up with Frankie, another character in the book, who wanted him. My biggest problems with Oliver:

**\*He is an ex porn star. Porn stars and gay for pay generally is not my favourite theme but I don't dismiss books because of it often. The problem here is that Oliver was actually nostalgic of his past, he would talk wistfully of his porn days and misses the "career" he left behind. Dude! You were a porn star, not an oscar winning actor! The guy would even jerk off to his own movies!No....just no.**

**\*Oliver was living isolated because of an accident ( for which he was 100% to blame) that left him scarred. Bullshit. I think he was just vain. Leslie and other characters from the book admitted that he was exaggerating, the scar was not that bad.**

**\*He was a complete asshole to Leslie towards the end, using the most common and shittiest excuse out there : "you deserve better".**

TBH I'm kinda disappointed but there are some pretty interesting secondary characters in the book and if the author decides to give them a story, I would read it.

---

### **Lucy says**

4.5

Leslie really is a firecracker. He's a fashion marvel, snarky, funny and perfectly manicured, buffed, Jimmy Choo'd and shined. I absolutely adored his character. He's been done wrong by his cheating ex, Simon, but he doesn't let that hamper his enjoyment of life. And don't underestimate him. He's no "slim twink who can't say boo to a ghost." He's a bit of a snob, too, but that just keeps him from being too perfect.

Leslie works at DeBussy's, a fashion house run by the marvelous Laverne, and he's all about it. When he is asked to deliver a suit to a client with the "boring" name of Oliver Brown, he's not really thrilled but since he gets a new spec suit and shoes out of the deal, he's on it. Mr. Brown, it turns out, is a recluse with a suit addiction. He lives in a beautifully decorated house that he rarely leaves since an accident that scarred his face. The fact that Leslie recognizes him as Nicky Starr, porn star, is unfortunate. Oliver is no longer that person. Leslie, being Leslie, keeps sticking his foot in it, too. "It's just a bit of a shock. I mean, you were so beautiful..." It goes from bad to worse after that and Oliver is left wondering why he bothered.

Honestly, I can't think of a thing I'd change about Leslie, even with his foot-in-mouth moment. Because he cares about people. He tries to make amends with Oliver and he works the, gasp, fashion show back stage. The whole scene there made me laugh, particularly his reaction to a vagina.

I loved the interactions between Oliver and Leslie. Leslie can be sort of over the top and Oliver is more calm. Except when he's talking about web design and then he turns into an adorable geek. Oliver is so conscious of his facial scar, it's a bit heart breaking. Leslie convincing him to go to dinner and just have a friend is such a good start. As Oliver shares his story with Leslie, and Leslie starts to fall for Oliver, the connection between the two is wonderful. Leslie is the only man to get Oliver to go out but Oliver is the only man to make Leslie snort.

Of course, Oliver's ex has to make an appearance and throw his brand of cruelty in the mix. My how I hate Gregori. Oliver's misguided efforts to make things good for Leslie made me want to shake him. But with that little self esteem, I got what he was thinking. There have to be some twists and turns on the road, I suppose, in order to really appreciate what you've got.

When Leslie decides to take on the idiot making Oliver unhappy, I wanted to clap. Go get him, Leslie. I liked getting to revisit Eddie and Gideon, as well as Taylor and Draven. I absolutely loved the positive sweetness of the ending. Highly recommended!

---

### **Cathy Brockman says**

I have been waiting for Leslie's story since the first book in this series. I wasn't disappointed at all.

Leslie is sent to deliver a suit to a man that rarely gets out but is one of their biggest clients. He is pleasantly shocked to find this man Oliver Brown is actually his favorite porn star that retired a few years back and seemed to have disappeared after a motorbike accident.

Oliver is shocked when Leslie appears with his suit and bursts into his life. When Leslie is so persistent that they try to be friends he finally breaks down and invites him to coffee. But Oliver is afraid that it will end the same as it always does, either he will be applied by the scars or he will want more than Oliver can give. This story was fun beautiful and sexy as hell. Leslie is a very flamboyant, in your face, different character. Oliver is so laid back and broken. There is the usual angst you get from Susan Mac Nichols, but in this book it isn't as dark. Leslie helps to keep it more uplifting. There are several twists and turns, a little drama and loads of hot man-sex. There is lots of namedropping of new characters so I am hoping there will be more in this series.

If you like a chipper, outgoing man that loves heels and corsets, broken men, a sweet romance, ex porn-stars and hot mansex this is definitely for you....You don't have to read the other books in this series first, but it would help you know who the other characters are.

### **Valerie Degeorge says**

Absolutely Amazing  
#mustread  
#oneclick  
#SuitYourself  
#MenOfLondon3

Suit Yourself is book #3 in the Men Of London Series by Susan Mac Nicol.

Everytime I read a book from Susan I say it's my fav and then Boom she hits me with another masterpiece.

This is Leslie Scott's story , we are introduced to him in books 1&2, he is such a sparkling, feisty and loyal guy.

Leslie works in the fashion industry, which is ideal for him being he loves to dress in high fashion, heels, stockings and just about everything sexy (including corsets and thongs) which ,will have you laughing when you get to that part which plays a major part in the meeting of Oliver Brown aka ex porn star Nicky Starr.

Leslie was summoned to deliver a suit to one of his company's best clients who no one has actually met face to face. Well .. Let's say when this meeting takes place Leslie's uncomfortable Thong will have you in stitches.

Oliver Brown is a very damaged soul both mentally and physically due to an accident a few years back and abuse from an ex who mentally broke him. He has become a recluse more or less only socializing with a very close few.

Leslie and Oliver had such great chemistry from the start but being hurt and hidden Oliver was very reluctant to show any interest. Leslie had no idea who Oliver was but knew that he looked familiar, that is until Leslie spotted the Tramp Stamp Tattoo then all his senses went full force ahead. Oliver (ex porn star Nicky Starr) was Leslie's absolute obsession.

Things begin to work out between the two and their relationship is off the charts Hot I fell in love with these too so much I actually felt everything they were going through as if I was there with them. Leslie was breaking down the walls that Oliver had built up until Oliver's ex strikes and has him doubting he is good enough to please Leslie.

I won't lie you will shed a few tears but Susan being brilliant as always will not disappoint.

In this book we see a side of Leslie that we have not seen previously all he wants is to have what his friends have in their relationships and I fell in love with him so much more in this story.

Leslie wears his heart on his sleeve, and when he loves he loves hard, which also means he hurts hard too. With the help and support of his best friends, Eddie and Taylor and their partners who we meet in the first two

books Leslie tries to get his life back.

Circumstances happen and Oliver knows he has to win back his feisty lover so we get a ton of Hot Steamy sex and let me tell you you will need a cold shower.

This Book can be read as a stand alone but I highly recommend reading Love You Senseless #1, and Sight and Sinners #2, so you get a better insight of Leslie and his friends Eddie and Taylor. I can't recommend this book enough if I could, I'd rate it so much higher than 5 stars.

Susan you out did yourself once again with this amazing and brilliant story and I'm so looking forward to reading the next books in the series .

"This time we are doing this in the bedroom," Leslie muttered as he propelled him toward his room. " I want a soft bed, mood lighting and ambience for this session."

Oliver snorted in laughter as Leslie pushed him inside and into the bed. "I'm ok with that. My couch and that damn kitchen counter have never seen so much action."

I'm fine,so sorry, my bad. Please don't be too mad with me. I forgot 'cos I was BBDIMBF xoxoxo

My Review ~

Since the very first book in this series, I've been waiting for Leslie's story. I mean come on you KNEW he had to have one hell of a story to match that wildly fantastic personality.

Suit Yourself definitely did not disappoint in anyway. Leslie was absolutely fabulous in his own book. And Oliver was deliciously sexy even when he didn't think so. Their first meeting was so awkward it was sweet and then Leslie figures out who Oliver is and gets all fanboy-ish. The dynamic between Leslie and Oliver is pretty powerful, and Leslie does his damnedest to prove to Oliver that he's still beautiful. Of course Oliver doesn't necessarily see that, he's so very self conscious thanks to an asshole of an ex who decided he needed to tear Oliver down.

Unlike the other two books in the series there isn't a suspense element running through the story. This is all straight relationship between Oliver and Leslie, and also with Leslie and Taylor and Eddie, and also Leslie's boss Laverne. Which overall worked best for Leslie and Oliver's personalities.

While their road to a relationship wasn't particularly smooth, it created enough tension to move the story at a steady pace. As I've become very accustomed to from this author, Suit Yourself is well written, with strong, very 'vocal' characters, with a good storyline. I've absolutely loved all of the books in the Men of London series so far, and I can't wait to read more in this world. I'd even love to see a novella revisiting the three roommates and their new partners at some point. I'm not ready to give up Eddie, Taylor, and Leslie, just yet.

As this is a series, it's a good idea to read them in order because the books tie into each other. They could be read alone but you'll miss the roommates interacting with each other in the previous books. I can't recommend this series enough and hope you all give it a try!

---

♦\*Arianna♦\* says

**3 Stars!!**

Leslie, character we met before in the two previous books in the series, is a proud flamboyant twink that works at a local fashion house providing exclusive man and women's suits. He loves his job, his loves his life and he loves his friends and he secretly wants what his two best friends have – love. He wants to be in a serious relationship more than anything, to care for someone and someone to care for him. He knows he's a little high maintenance, but he can only hope. One day when he is sent by his boss to deliver a suit to an important client, he's more than shocked when he discovers the client is his favorite porn star, Oliver Brown, who retired a few years ago. Leslie doesn't know many details about Oliver's retirement, but he's dying to know what happened with him and what did he do all these years. Oliver is damaged. Years ago he was involved in a motorcycle accident that scarred him. He has fears and insecurities and he feels staying isolated it's for the best. He's a bit of a hermit, having occasional 'dates' with discreet escorts from an agency.

Leslie is attracted to Oliver, but he can say the other man is not looking for a relationship, so all he wants is for them to become friends. He is insistent and eventually Oliver agrees to go out with him as friends. As the story progresses, Oliver starts to want more and to realize that Leslie really cares for him and he doesn't see him as a monster. But he's not completely convinced by this fact, so when someone tries to hurt him emotionally, Oliver feels too insecure to continue his relationship with Leslie.

*"Suit Yourself"* was a pretty light, easy to read novel with two likeable characters, a lovely romance and an enjoyable plot. Leslie was a great character from the beginning. I loved his personality and I have to say he's my favorite character in the series. He's a kind man and a great friend, he's good at his job and he knows what he wants from a relationship. He's gorgeous and smart, funny and witty, loyal and caring. Oliver was likeable as well and I really sympathize with him. He's a little damaged, but with Leslie's help he eventually realizes he deserves to be happy and to have a significant other. I liked the fact there's no insta-love or insta-lust, even if both men are attracted with each other. I enjoyed how their relationship progressed and also how Leslie tries to be there for Oliver when he needs someone to talk to. There's a little amount of angst and drama, but nothing too heavy. It was great to meet again the other characters from the previous books in the series and to see them all interact with each other.

Overall, a good read!

---

### **Debbie says**

Independent Reviewer fro Arcaheolibrarian I Dig Good Books, I received this book direct from the author in exchange for my review.

Leslie was Eddie and Taylor's house mate. Buyer for a major fashion house, Leslie is sent to deliver a suit to one Mr Oliver Brown. Leslie knows he has seen him before, but its not until he gets a glimpse of the man's tramp stamp that recognition dawns. Oliver Brown, AKA Nikki Starr, porn star, is in hiding after a horrific accident broke him, inside and out. Leslie is a breathe of much needed fresh air, a star shining so bright that Oliver can't help but fall under his glow. But when a vicious ex undermines Oliver's new found confidence, Oliver retreats and pushes Leslie away.

Leslie just wants someone like Eddie and Taylor have, he is tired of being the fifth wheel. While to intial attraction Leslie has to Oliver is instant, (the man was star in many of Leslie's fantasies, for God's sake!) once they get to know each other and be friends first, its whats on the insdie that Leslie loves. And when Leslie loves, he loves hard and fast. And I loved falling with him. Oliver is damaged, both physically and emotionally and the ex's parting words linger in his brain 2 full years after they were uttered- he is a monster and no one will ever love him. And that is true, but only for as long as Oliver won't let anyone in, won't let anyone love him. Leslie shines his way in, and Oliver is caught, hook line and sinker.

I'm loving this series, I really am! Eddie, Gideon, Taylor, and Draven all play a part here, and for that I am eternally grateful! I love we get to catch up with them as well as delving into the fashion and porn world.

A few more to come, I have been reliably informed, and I look forward to reading them as they arrive.

I enjoyed this more than Love You Senseless but not as much as Sights and Sinners, so splitting the difference and you get

4.75 stars!

\*\*Same worded review appears on Godreads, Amazon.com and Amazon.co.uk\*\*

### **Debra says**

**Coverlust! It would have sold me even if I didn't usually read Susan MacNicol.**

---

### **V says**

What a terrific sequel.

I adore Leslie, I'm so glad he was exactly the same as he was in the preview books, "a big flamboyant diva with a huge heart".

If this is the end of the series? because all 3 books were great, if the author decided to write more sequels, I wouldn't mind at all.

This is my favorite ..so far

---
