### Out of this world

Wesley is the man. So funny, so down to weather. His witty banter had me laughing constantly. Virginia is the badest of the bad. She has something to prove to everyone and it's not how hot Wesley looks in a towel or how well he makes pancakes. Together they are a force to be reckoned with.

### More please!

Wesley finally get his story. Wesley sneaks in to the Stealth Guardian compound and the trouble begins. Wesley and Virginia are so perfect for each other. Can't wait for next book!

Wesley Montgomery is pulled into the Stealth Guardians world when one of the Council Of Nine, Virginia Robson discovers him on one of their secret compounds. Whether he is a friend, spy, or agent for Zoltan, he has no business being there and must be interrogated by the Council.

Virginia Robson is the newest member of the Council and intends to beef up the lax behavior she's noticed. A witch on one of their top secret compounds is the ultimate of stupidity and must be addressed. No matter Wesley is the hottest male she's ever encountered or that he has a death wish in trying to seduce her, the law is the law and heads will roll.

Just as misunderstandings are cleared up and Wesley, representing the the Sanguard Vampires, is proposing an alliance, the Council compound is attacked. Just who is responsible for the breach will have to wait as the demons are getting too close for comfort. It's a case of the enemy of my enemy is my friend as Wesley & Virginia pair up to deal with this new threat to the Stealth Warriors.

Appreciated this paranormal romantic action adventure story that included a bridge between the Sanguards & Stealth Warriors series. It hit all the bells and whistles that I love to read.

My biggest problem is the main character couple. Each of them is a unique character who have their own identity and set of morals. I loved them individually but I never felt they paired as a romantic couple. Call me silly but I need that zing, wow factor feeling to believe mates are mates. Not having that for this one totally drew me out of the story. There was just something off though I'm not sure if it's just a personal individual perception or not.

Overall an enjoyable story though I really wanted to love it more.

"Warrior Unraveled" by Tina Folsom. Book 3 in the Stealth Guardians series.

I really loved this book! Who doesn't love a crossover novel? This book takes Scanguards's resident witch and notorious flirt Wesley and pairs him with the Stealth Guardians no nonsense Council of Nine member Virginia.

Wesley is on a mission. He's discovered a new species...at least they're new to him and his vampire friends. They call themselves Stealth Guardians. Wesley is determined to talk to them and arrange an alliance between them. But when Wesley meets Virginia, it's lust at first sight for him. He can totally mix business with pleasure. And she happens to be on the Council of Nine, the governing body of the Stealth Guardians, exactly the people with whom he has to talk. When Wesley is accused of being a traitor and leading demons to the Stealth Guardian compound, he has to prove his innocence to Virginia because there may be something more than just lust between them.

Virginia doesn't trust Wesley. He's a smooth talking, handsome, flirty type of guy who thinks he can get anything he wants just by flashing his baby-blue eyes at her. Well it won't work. She's holding him prisoner until she can find out why he's really here and how he found out about the Stealth Guardians in the first place. She's following the rules to the letter. She can't deny her attraction to Wesley but that doesn't mean she has to do anything about it.

When the Council's compound is compromised by demons, Wesley and Virginia are thrown together in a world wide adventure. Fighting demons, escaping the Underworld, finding the real traitor and meeting vampires. Just another day in the life of a Stealth Guardian...not.

I really enjoyed this book. Wesley has been one of my favourite characters in the Scanguards series and I'm so happy he got his own book and a HEA with Virginia. Virginia is a new character in the Stealth Guardians world and I really enjoyed her no-nonsense attitude because it plays off Wesley's care free attitude perfectly. She's very strong and opinionated and Wesley is her match in every way. Their chemistry together is very hot and passionate. The overall story line in this book was excellent. Lots of action. Vivid descriptions. Great twists and turns to the plot.

I really loved this book. It's my favourite in the series...so far. I highly recommend it.

3 3/4 "My sweet Witch Wesley" Stars!!

I'm so happy Wesley has finally grown up and found his mate. This story was good with lots of Stealth Guardian action and then when the Scanguards Vampires come in to play, that was an almost automatic win for me.

I loved Wes as usual. He has grown into his witchy powers quite nicely and has also become quite the witty, hunky fellow ;-). Virginia was a good female lead. Her hard outer shell was covering up a seriously gooey center. But make no mistake, Virginia could kick butt when she needed to. I do wish there had been a tad bit more romance vs sex in the story, but this was insta-love at it's best- love it, like it, or hate it. I liked it...

What I didn't really like was Zoltan, "The Great one". That is a dumb name. I didn't like anything about the deamon parts of the story, but oh well, the Stealth Guardians have to fight somebody. Right? The daemons are their greatest enemies, and Zoltan was their most evil leader. Whatever about him...

Overall, I enjoyed this a lot. Mostly because of Wesley and the Scanguards guys. I'm looking forward to John's book later this year. Happy reading!!

Wesley from the Scanguards series infiltrates the Baltimore compound and meets his match in the council's newest member, Virginia Robsen. She is on a campaign to rid the Guardians of their weak disregard for the rules and Hamish's group are first on her list. The witch spy was just supposed to be an added bonus until his charm and good looks get under her skin.

Once Virginia got over her initial mistrust these two worked very well together. I like them together. This had lots of nice action and the love the new alliance.

Fave scenes: drawing the exit map, the invisible shower, the recycled rock idea and the B&W photo.

Wesley and Scanguards, what is not to love. A good blending of both series.

Wesley has grown up and is now a strong, capable witch in full control of his powers and comfortable in himself. His finding humour in all that is going on was endearing.

He finds his mate in Virginia, an ex stealth guardian but now a member on the council of nine.

Virginia is a bit hard to like due to her attitude. She is new to the council and wants to impress the others but goes about it in a harsh manner.

Great to have Scanguards be a part of this story.

Enjoyable story but not in love with the Demon plot line. When will Zolton get his?

#### **Great story**

This is Wesley and Virginia's story. Wesley has found his way into the stealth Guardian compound, he would like to forge an alliance between scanguards and the stealth Guardians. Virginia used to be an enforcer and now she is a council member. This story is a blend of the two, and you get to meet some of the old scanguard crew. Wesley Falls hard and fast and he has to convince Virginia that they can work together. This is a great addition to the series.

Excellent story! Wesley meets the stealth guardians and the action begins! He has met his match in Virginia. The guardians have a problem with demons. Virginia has a problem in the beginning with a witch. Read the book and learn about demons, love, and friends!

Really enjoyed seeing Wesley as the powerful witch I hoped he would become. The story have him a great mate who could standup to him but still be a loving partner. Can't wait to see what is next for both the Scansguard group and now the allies the Stealth Guardians. These are two great paranormal series that I would recommend.
