Feels So Right

Carol Lynne

Feels So Right Carol Lynne

On his eighteenth birthday, Austin Green's father kicked him out of the house for his sexual preferences. Now, all grown up, Austin returns home to attend his sister's wedding. The evening of the rehearsal dinner, Austin meets the man of his dreams. Tony Rumalati looks to be the perfect man. There's just one problem. He's also his soon-to-be brother-in-law's father. Although Tony's been divorced for most of his son's life, he has yet to find Mr. Right. That may change when he steps into the elevator with Austin. Can these two men survive a weekend of lust, love and bigotry?

Shawn says

What a lame little story. I think, had it been longer and the characters more fleshed out, it could have been a good story. Unfortunately, it was filled with one too many cliched lines, a really awful nickname, and instant love. Yeah...it got two stars from me because I laughed so hard while I read it. Too bad this story wasn't meant to be funny.

Traci says

Sweet book about Austin and Tony. Austin is an architect who comes home for his sister's wedding. He has not been home since his homophobic dad kicked him out years ago. He has an instant connection (have to because book is short) with Tony, (groom's father) and it is a whirlwind romance after that. Sweet, sexy and steamy Lynne book.

Elaine says

Similar to a story I read recently. (I Do by Barbara Sheridan)

Again, the meeting to true love and soul mates is escapism rather than I consider a reality.

Jenny Wood says

I love Carol Lynne, I was obsessed with the cattle valley series and the campus cravings, and this one was much like it although not my fave.... insta-love and full of cheese.

Austin left home when he was 18, his father kicked him out and disowned him, I feel bad for him of course, his father treats him like crap when he comes back for his sister's wedding. Why in the world anyone in the family gives his dad that kind of power is beyond me. As a mother myself, no matter how timid I am or submissive or whatever, nobody would tell me I can't have a relationship with my kids and nobody better ever do anything to hurt them, purposefully or otherwise, I absolutely hated that his mom didn't really give a crap, even though Austin tried to make it seem like she did by calling by pay phone at times or sending him a couple care packages the last decade or so... what a piece of crap, and had I been his sister, I'd have told my dad not to come if he wasn't gonna accept Austin there! His dad liked to speak for the family saying he's no longer family to himself, his mother and sister, but his mother and sister DID consider him family so wtf.....I hated that aspect and I wish the dad would have got crap slapped and put in his place more than he was.

Another thing I didn't like, was the Bear nickname I understand his sister calling him that, it was cute, but Tony calling him that, like literally every other minute was annoying and kind of gross. If my husband called me a nickname only my brother called me, I'd think it was weird as hell! I mean, Austin didn't call Tony, Tony ever 3 seconds, why did he feel the need to call him Bear every time he said anything to him. That drove me crazy.... other than that, it was short and sweet and I'm glad it ended the way it did.

Donna says

OK... the sex scenes may have been a bit extensive... but, dang, I loved seeing Bear's dad get his due... the asshole! I liked the chemistry between Austin and Tony, I don't have a problem with insta-love and I liked the way these two just clicked! Who cares about "reality"... this is FICTION! *grin*

I loved how a story this short still managed to fit in a strong female character! Houston, Austin's sister, was just the best! And, Austin's mom was quite supportive for a woman that was so controlled by her over-controlling, asshole husband!

Overall, this was a nice "quickie"! :D

Shelby says

Too cheesy. Way too much sex for how short this was (like, maybe don't literally lead someone down the hallway of a hotel by their dick). And I think that if "cock" isn't in a paragraph, there is at least some reference made to one or the other of the MCs massive dicks. "Cock" is used 62 times, which is almost twice the page count.

Mandy*reads obsessively* says

Well these are called 'Quickies' and this one certainly fits that description.

Austin is back home after more than a decade because his little sister is getting married, his dad is an asshat and kicked him out at 18 and refused to let his mother and sister stay in contact.

Of course they did, all behind dear ol dad's back..wow, clever...and much better than say..telling dad to kiss her ass because they have the right to talk to her own son..*sigh*.

Anyway...Austin runs into a sexy fox and they are hard and hot for each other immediately. Now, it's probably just me, but feeling up a guy at the rehearsal dinner of YOUR SON's wedding, a guy you met 8 minutes ago..classy, people, classy.

Anywho, it's actually a fun quick read, IF you can deal with INSTANT love and I do mean instant, I kept expecting one to be a shifter or vampire since Austin is literally giving up his life and moving in less than 24 hours....but hey..they are called 'quickies' for a reason ...they have quite a few of them in this short.

Oh and why did Tony insist on calling Austin by a nickname his baby sister gave him? that's weird, and jeeze one more 'hon' from Austin and I was going to have to do something radical..like read an m/f book...

Daisiema says

Carol Lynne is one of my dirty little secrets. I really don't think she gets all of the credit she deserves sometimes. Sure she doesn't have the intensity of most books I enjoy reading... BUT, sometimes I just want to read a lighter-hearted story, with likable characters and a simple plotline. Her characters are always

likeable and sexy and I really enjoy reading her books.

Austin Green hasn't been home in eleven years. When he was eighteen he was practically disowned by his father for being a homosexual. Determined to make something of himself, he joined the military and is now a successful businessman. When he was invited to attend his little sister's wedding (she has always kept in contact with him...irregardless of their father's wishes) he is determined to face the possible wrath of his father's low opinion of him.

Deciding to keep his head up, he is on his way to the rehearsal dinner when he sees a sexy older man waiting by the elevator. Immediately attracted to him, Austin strikes up a conversation, and soon realizes that the sexy man is his soon to be brother in law's father. When they establish that they are both available and very attracted to one another, the sparks fly off the pages.

Tony Rumalati can't believe his good fortune. Meeting Austin is like a dream come true. He is everything Tony has ever wanted in partner. Sexy, smart and has a wicked sense of humor that Tony is very attracted to. As a successful man himself, Tony has everything he has ever wanted, but a partner that will share his life with him.

It is definitely love at first sight for Austin and Tony. I loved the May/December storylines...it is definitely one of my favorites. Tony immediately takes Austin under his wing, and looks out for his feelings and well-being throughout the novel. I liked how they took up for one another, weren't ashamed for their budding relationship and fit together like two peas in a pod.

Austin and Tony have their problems they must face before they can start their life together. Will they be able to overcome prejudice and some self doubts to find a life-long with each other?

If you are offended by explicit language and HOT Male/Male Sex this book is not for you.

Bookbee says

Ya know? I can handle an unrealistic plot if the book is well written. Fantasy stuff. This must have been a very early book; the writing was quite basic.

Candice says

Read on 11-26-13

2.5 Stars

I get that this was supposed to be a short story, but HOLY SHEEP!!!! There's fast and then there's "whoa, stop the public groping". Okay fine, I didn't mind the cheesey INSTA-love, but there were other things I did mind.

Like Tony being the one to solve Austin's daddy issues. Sorry, but Austin needed to step up and say a big "eff you" to Vernon.

Then there's Tony calling Austin "Bear". Yeah, no. Didn't work. That's a kid sister nickname. I kind of cringed whenever Tony used it.

I actually wouldn't mind more from this couple.

Alina says

Hot little story for those, like me, who has a ~~huge~~ kink for age-gap :) The cover's sexy too))

Amber says

Nice quick and easy book with tonnes of sex, what more could I ask for?

Claudia says

I just thought it had far too many sexy scenes and it was a bit rushed with the whole I have know you for a day and I love you. Quick and easy read.

Elisa Rolle says

The plot is pretty similar to I Do by Barbara Sheridan and Anne Cain, of the same series, Naughty Nuptials by Ellora's Cave.

Austin is the estranged son of a southern family. He has left at 18 years old cause his father could not stand the thought to have a gay son. Now many years later he is again at home for his sister's wedding and the first night he meets his soon-to-be brother in law's father, Tony. Tony is an handsome forty something years old man, openly gay for all his life that, during his college years, has has an accident with a best friend girl and the result is his son Neil. Now he is in very good relationship with his divorced wife and has no problem to admit his sexual interest in Austin.

Austin is surprised to see someone who has no problem to deal with his omosexuality in their province town and maybe he sees the opportunity the eventually returns home.

A brief tale of a flame passion: a rapid fire, a hot combustion and maybe not only ashes in the end. Fast and enjoyable, to read in one session.

Dominus~ says

It was the same as the first one of Carol Lynne so technically it should have the same rating. This kind of genre really ain't my thing, sadly. The only difference this is extremely hot like I really have to put something in between. Hahaha XD

Another problem that I encounter I can't exactly identify Tony from Austin, I don't know why. Also when I got to the part where Tony straddling Austin and he fell asleep, I can't imagine thinking that Austin should have been strangled with the weight, I mean Tony is of the age where he could possibly be Austin's father so he would have been bigger. Those were my only issues.
