Diets, Odie, and Camping...

Luke says

It's funny, but not hilarious.

Dale Rosso says

great laughs.

Nate says

Funny collection that was on par with other Garfields and even better than some. The camping storyline was fantastic

Ben says

Another fun quick comic book read. Garfield is a bit on the lower end of the spectrum of the old newspaper strips that I enjoyed (always liked Calvin and Hobbes, Peanuts, BC, Far Side, Pearls before Swines, Dilbert, the old married couple, Foxtrot, Mutts, and Zits) but it's still enjoyable quick read. Garfield was always one of Grammy's favorite comic strips though (she named her last cat Garfield too).

Pablo says

really funny with lots of food

Conan Tigard says

Garfield Hangs Out is another fairly funny collection of Garfield comic strips. Jim Davis finally does something that I have been waiting for for a long, long time. No, I'm not talking about adding another main character or making Odie talk, both of which I think would breathe a little life into this comic strip. I'm talking about a storyline that is longer than just a week. The Great Day for a Camping Trip lasted for an

entire month in the newspapers. That means 27 comic strips in a row (three are Sunday strips) about one storyline. Thank you, Mr. Davis . . . that was wonderful.

As for the rest of the book, the comic strips are on par for what Jim Davis has been putting out lately. There were about five or six strips that I had to choose from to display above. None of them made me laugh out loud, which is what I want when I read a Garfield book. I really enjoy the ones where Garfield and Odie are pitted against each other. Now, all Jim Davis needs to do is have Odie think in a thought bubble, like Garfield, and I would be really happy.

Overall, *Garfield Hangs Out* is another entertaining collection of Garfield comic strips. I was very happy to find the extra-long storyline about the camping trip. I plan on reading more Garfield books and will be looking for more of the longer storylines.

Rebecca (everyday reader) says

I love the fat cat!!

The Badger says

I was addicted to these as a kid. I drove my parents insane following them around demanding, "Read this one!" I'm sure that my Dad regretted owning a bookstore. As an adult, I foster cats, and every foster kitten has a picture taken in a box labeled "to: Abu Dhabi." None of my two personal cats are obese, but one is especially adept at tossing chihuahuas off furniture using only one paw...

Abby says

Awesome!(really,it's awesome!)

John Anderson says

I think that Garfield is a five star book and very very very funny. It is also pleasing to see Garfield kick Odie off of the table and on the other hand Jon is a weird twit.

Bunny says

When I was about 13, I demolished a bunch of old Garfield books, and essentially wallpapered my bedroom with the comics that made me laugh the most.

I'm 31, and I still have to fight the impulse.

Kest Schwartzman says

Why do I do this to myself?

Honestly, not quite as bad as I remembered. Still terrible, mind, but just slightly less so.

retrieverfever says

Great comic
