In this book something terrible happens at the end of vacation Sophie loses her rabbit named Felix. Sad because Sophie and Felix are inseparable. But when schools starts, she finally gets a letter for Sophie arrives from London a letter from Felix!

A great recourse to use in the classroom when talking about different recourses and how to use different documents to use.

I would give this book 10 stars if I could.

This is another one of my childhood favorites. Felix is a beloved stuffed rabbit that gets left behind at an airport on accident. He travels the world and sends his owner letters and drawings (as well as pictures) of the places he's been such as Paris, Cairo and Rome.

I loved this book as a child because the stuffed rabbit travelled to places that I've never been to. The letter seemed so authentic because it used a different font than the book itself. The picture of Felix in front of the Eiffel Tower in Paris is my favorite part of the book. As a part of an ELL endorsement, I would have different translations of this book in my classroom.

This is one of my FAVORITE books of all time. This book is very interactive for students with the pull out letters as Felix travels all around the world. I think that this book teaches students the importance and fun of traveling around the world and documenting your journey so that you can remember it in the future which is why it could be used for all different age students.

**My Review:** Munchkin received this book as a gift from a friend overseas. It was her favorite when she was a child though the setting was a little different in German format I guess. Munchkin is finally old enough to sit down to read this book. It did take us 2 sittings over 2 days to read this book because it is rather long. I love the format of this book with actual envelopes and letters you can pull out and read. Some of the envelopes also included little pictures relevant to the place Felix was visiting. Our copy was a used one so the items in the final suitcase were missing but the rest of the letters were there. Munchkin did enjoy the idea of the book but it might take him until he is older to understand the geography and history in the story.

Delightful book for children to teach them about world travel and the magic of writing letters as a means of sharing their experiences. I am an avid letter-writer so the title appealed to me. The book is interactive in that you can open flaps of the envelopes to retrieve and read a letter from Felix to his owner, which describes the cities he is visiting. It's precious!

I will be sending this book on to a young reader who is also a traveler.

### **Tasha Johnson says**

The perfect book for introducing letter writing. The idea of creating a note to someone that contains important information is brought out several times in this interactive picture book. Real letters can be pulled out of the book and examined. Children will love finding out where Felix is and stay engaged the whole time to see if he gets home.

So ein süßes kleines Buch für Kinder. Die Geschichte ist herzallerliebste und wird alle Kinder erfreuen. Man fiebert richtig mit Sophie mit, ob sie ihren Felix wiederbekommt und natürlich will man auch wissen, wo Felix als nächstes hinkommt. Die Aufmachung mit "echten" Briefen ist super gelungen und mal echt was besonderes.

Habe das Buch für das Kind einer Freundin beschafft und wollte es natürlich auch mal lesen. Echt niedlich.

This is a story about a stuffed bunny named Felix who gets on the wrong plane and is traveling the world trying to get home. He sends his owner letters and pictures of where he has been, and they contain information about each place as well. This would be a great introduction when talking about how to write letters or when starting a unit on geography. You can visibly hold the letters when you are reading the book and it is a really engaging book for students.

I absolutely loved this cute book when I was about 6 years old. This is the first book in a children series about Felix the rabbit who goes missing at an airport and travels around the world. The letters Felix writes to his dear Sophie from all over the planet are even put in some envelopes, which stick with the back to the pages and can be opened. Sometimes there is also a picture or a little map in them and there is a lot of information about the countries Felix is visiting. The illustrations are well drawn and the type is big enough. Such an adorable book for children.
