Good solid text, but the pastel colors of the plants that surround each picture is distracting and hides the intent of the pictures to much, and the last two page spread is just this wildlife, making for a stilted ending as you move to the last page.

I really enjoyed the illustrations in this book.

I loved the illustrations in this. Especially the floral backgrounds. While reading the book, however, I kept thinking that I was reading Llama Llama instead. A cute story about playing hide-and-seek with friends while also enjoying time running about by yourself and exploring.

Bunny searches high and low for his friends during a game of hide and seek, but in his haste he misses all of their hiding places.

Adorable bunny/animal illustrations. Bunny and his friends play a game of hide-and-seek - Bunny is REALLY bad at this (he has more enthusiasm for hopping than he does expertise in seeking). Just when he's starting to feel bad about not having found anyone, all the other animals jump out and surprise him with a PEEK-A-BOO! Cute.

The watercolor plant-life is my favorite part of the illustrations of this book. Bunny and friends play hide-and-seek with an end in peek-a-boo and have lots of fun doing it. This is a very cute interactive book for all kiddos to enjoy. Peek-a-boo Bunny is absolutely beautiful to the eyes.

Thanks to HC for providing an ARC for review.

The illustrations remind me of *Guess How Much I Love You*.

Bunny and his friends are playing their favorite game, Hide-and-Seek! Bunny gets to seek first and all of his friends hide. He counts to ten. Then he bounces and rushes around, moving way too fast to notice the others hiding. As Bunny races from one page to the next, another friend is revealed in their hiding place on each page, making it a real game of hide-and-seek for the reader. Eventually, Bunny does slow down, but he still can't find the hidden animals. Bunny sits down under a tree, saddened by not finding any of his friends. But don't worry, they can find him!

A jolly picture book where the game is made real for the reader, Surplice infuses her book with humor but also with a gentleness toward Bunny too. The story itself is simple and linear, offering space for the illustrations to carry the full story for the reader.

The illustrations are lovely. They offer collages of cut paper grasses and flowers in a rainbow of colors that pop against the pastel backgrounds. Bunny and his friends all pop out as well with their firm lines dark against the flowing colors of the forest.

A sparkling spring pick, this book is great for preschoolers and toddlers. I could see it making a great board book too. Appropriate for ages 1-4.

This is a great book to use to incorporate the idea of play into the lives of young children. The rhyming scheme in this book and the I-spy aspects make it fun and engaging to small children while also helping them learn.

This would be good as a lapsit. You can use for story time but I think you'd get better interaction if it was one on one. Very cute story. Rabbit and friends play hide and seek but Rabbit can't find anyone, mole on the other had sees everyone but cant get Bunny's attention.

Bunny and the other forest animals love to play games. And one game that Bunny especially likes playing is hide and seek. Bunny closes his eyes and counts. But he can't see any of his friends. Of course readers can spot them (especially mole that tends to be on almost every page) and will enjoy the idea that they can see what Bunny can't. The text is simple (and reminds me of one of my favorite toddler books *Overboard!* by Sarah Weeks). But the repetition of "Bunny, Bunny..." every page makes the text comforting for the little ones that tend to cling to familiar things. This is a perfect book to read to a toddler when snuggling right before bedtime.

Gorgeous background in this book (trees, forest, flowers). Small children (toddlers) will like the familiar game of peek-a-book, children 3-5 will enjoy searching for animals and looking closely at pages.

### **Reed Shepherd says**

Sweet illustrations elevate a rather simple story of friends at play.

I love this picture book. Cute rhyme and rhythm scheme. Bunny is playing hide and seek with all his friends, but he has a hard time finding them, despite mole's help. Lovely colourful pictures, with hiding animal friends in each. Good for asking questions. Not too much text, and a happy ending. This will be great for bunny storytime! 2+

At first I thought this was just another hide and seek book with nothing special about. Boy, was I wrong! Bunny has a hard time because s/he can't find any of the friends hiding. But the kids reading the book will be able to find them hidden in the pages, so they get to play too!
