## Undeniable Proof B.J. Daniels

SECRETS KEPT CAN ONLY BE TROUBLE...

Though Cape Diablo had a reputation for being cursed, Willa St. Clare--the only eyewitness to a murder investigation--found the remote island the perfect place to disappear. Only, she never realized she was being followed....

A case of mistaken identity put undercover cop Landry Jones and Willa at cross-purposes. And though a mysterious entity on the island wanted to make sure Willa remained deadly silent, her only hope for survival rested on Landry's too-broad shoulders. But as the danger around them escalated, was their undeniable attraction the greatest risk of all?

## Undeniable Proof Details

## From Reader Review Undeniable Proof for online ebook

### **Jewell Moreno says**

my first book by Ms. Daniels. I love romantic suspense. This one was great fun, and I liked how they story wasn't overwhelmed by the romance. The characters were fun, and I also liked how the island was haunted, it added to the story.

### **Twyla says**

I was rather expecting more from this one; since others from the same brand I have enjoyed. I finished it yesterday and I don't even remember what it was about.

Oh wait. Undercover cops and a mole.

The death of Henri was rather unexpected, but I guess everyone needs a - what are those guys called on STar Trek who are there solely for the purpose of being killed? - One of those.

I was hoping they'd reveal the mystery of the missing family, but I guess that was too much plot to expect. The good thing is these "light reading" books (read as trashy romance) only cost me a quarter :)

### **Jennifer says**

I really didn't like this book. First of all, the two main characters, Willa and Landry, meet and spend all of five minutes together before she witnesses him killing someone. They both go into hiding, with Landry trying to track Willa down in order to clear his name. They don't have any contact with each other again until halfway through the book when he kidnaps her in order to convince her he killed the person in self defense. Within an hour she is trusting him and agreeing to help him clear his name. To top it all off, at the end of the book two people are murdered and the killer drowns in the pool. After all of this, and with the bodies still laying around, Willa and Landry decide to take a shower together and go to bed before they head for the boat to get off the island. Could it get any more absurd than that? I realize that Harlequin novels can lean toward the ridiculous and invoke some eye rolling, but this one takes the cake.
