If you loved the series of the Vampire Academy I recommend you read this too.

The first story: **The Turn and the Flame** is told from the perspective of Tasha Ozer and is my favorite story because it really showed how she became the person she was and we see how Christian parents changed. It was heartbreaking!

The second story is a part of the diary of Lissa. It was fine but it good have been better.

The third story **The meeting** was told of the first time Dimitri and Rose met from the perspective of Dimitri: one word: PERFECT! I want more^^

The fourth story **Hello, my name is Rose Hathaway** shows us a little more about the life at the academy and their traditions. It was a fun extra!

Hikayelerden **The Meeting**'i bir süre önce okumuştum, k?sa bir hikaye oldu?u için ikinciye de okudum fakat ilk seferden pek farklı olmad?. E?er Vampir Akademisi'ni har?l har?l okudu?um dönem okumu? olsayd?m o hikayeyi, kesinlikle çok severdim, ama ?u an pek bir ?ey ifade etmiyor bana.

The Turn and the Flame de, Christian'? bir zamanlar ne kadar sevdi?imi hat?rlad???m için biraz ilginçti, ama aynı zamanda Tasha'y? seriden zerre hat?rlamad???m için de pek etkileyici olmad?. Christian'?n ya?ad??? o travmay? görmek aç?s?ndan ba?ar?lıyd? ama bilmiyorum, Tasha'n?n hikayesi bence pek bir ?ey katmad?. E?er birinci ?ah?stan olmasayd? belki daha çok severdim.

From the Journal of Vasilisa Dragomir maalesef sadece s?k?c?yd?.

?çlerinden en sevdi?im **Hello My Name Is Rose Hathaway**, bana bir zamanlar neden "har?l har?l" Vampir Akademisi okudu?umu hat?rlatt?. Rose ve Dimitri aras?ndaki ili?kiyi bunca y?ldan sonra tekrar okumak güzeldi. Kald? ki zaman?nda ben daha çok *#TeamAdrian*'d?m ama bu ikiliyi okumak, çok uzun süredir görmedi?im bir arkada??mla kar??la?mak gibiydi ve içimi ?s?tt?. Ayr?ca hikaye bence e?lenceliydi, özellikle de di?erlerine k?yasla.

Vampire Academy is the best series ever!!! I have really enjoyed jumping back into this fascinating world. These short stories have been wonderful and I am so happy I decided to read them. I just can't get enough of this series, I will take whatever I can get!!

The Turn and the Flame (Tasha's POV)

★★★★

Throughout the VA series, the stain on the Ozer family name is mentioned quite a bit. It was really great getting an inside look at their dark past. The past that has plagued the Ozer's for many many years. It all started when Tasha's brother Lucas and his wife Moira, Christian's parents turned Strigoi (by choice). They came back to take little Christian, but his aunt, Tasha wasn't gonna let that happen no matter what! It was really interesting finally getting a look into their past. Tasha was even a fighter way back then, with her own mind and strong views. I also loved seeing Christian as a little boy. He was brave and adorable and I like how even then he was moody lol. I also like the little bit of romance that was tossed in, it was sweet and enjoyable. One more thing that was awesome is the fact that Dimitri was in the story. It was cool seeing how and when Tasha's and Dimitri officially met!

From the Journal of Vasilisa Dragomir (Lissa's private thoughts)

★★★

Eh... It was okay. Nothing too special really, but it was nice getting a look inside of Lissa's head back in the early days when her and Rose were on the run. To see how dark her moods got and how deep her depression would run, at its darkest point, to where she'd actually cut herself. I liked seeing how Rose and Lissa managed to elude the Guardians for so long. How they'd take bus after bus and moved to different states whenever potentially bad things may result in being recognized or over suspicious noises, if anything didn't feel right, Rose wouldn't take a chance and they'd be on the move again... That is of course until The Meeting. ???

The Meeting (Dimitri's POV)

★★★★

"Me? I didn't believe in hopeless."

- Dimitri Belikov

"She might be unarmed, but Rose Hathaway was in possession of many weapons."

W-what?? Really? That's all we get? That was the biggest damn tease EVER!!! It's Dimitri's POV for crying out loud and all we get is 3 measly pages! B-b-but its Dimitri and I love him (whines)!!! That was just not enough, I want, no I need MORE. Okay... okay fine, it was really cute while it lasted and I loved getting to see his first impression of Rose. He called her a wild girl in his head *sighhh!

Rose and Dimitri are my favorite fictional couple and they go together like pb&j.
(Rose + Dimitri = Always & Forever)

Hello, My name is Rose Hathaway (Rose's POV)

★★★

Every year at St. Vladimir's Academy they throw carnivals for the lower and upper campuses to celebrate a Moroi saint. On that same day the Kids, Moroi and Dhampir alike play The St. Varvara's Day high-stakes scavenger hunt. It's a tradition - an unofficial one that is! There is a list of certain things you must acquire and each one is worth different points, the only thing is you have to steal and do a lot of breaking and entering's. So you'd better not get caught lol!! Don't worry everything gets returned and whoever wins get a lot of different prizes. It was cool seeing Rose, Mason and Eddie being a team. I sure have missed Mason :(Rose of course was a total badass! It was also pretty cool seeing Dimitri bend the rules and help Rose. They work so well together but we already knew that didn't we?

Just had several short stories. Again I love just seeing easy-going times between Rose and Dimitri.

Vampire Academy: The Untold Stories is a short story collection from the Vampire Academy series by Richelle Mead.

I absolutely love this series and really enjoyed jumping back into this world. These stories extra stories were such a joy to read! I really missed Rose and Dimitri, and I hope Richelle Mead writes more about them and the countless other lovable characters from Vampire Academy and Bloodlines.

I really enjoyed these stories! The favourite being, of course, '*Hello My Name is....Rose Hathaway*'
It was such fun -- made me laugh, smile, and all things good. Ugh, I love Rose.

This is worth getting just to read that story, which is about 50 pages.

I have the 10th Anniversary Addition of Vampire Academy, which contains all these stories as bonus content and it is so worth it!

Astrid says

Loved this! Had so much fun reentering into this universe, and the short stories had me addicted once again.

Manal says

Whenever I miss Rose, I'll re-read " Hello! My Name is Rose Hathaway". It takes place in the early days when she was still a high school student and life was less complicated.. It shows the funny, tomboyish part of her personality and her friendship with Eddie and Mason.

Diana says

I'd forgotten how much I love Rose and Dimitri.

Keana Aedrielle Ang says

I truly enjoyed reading these untold stories from Vampire Academy. This consists of 4 different stories from different perspectives. I actually skipped "The Meeting" because I've already read that one. But here are my thoughts on the other 3:

The Turn and the Flame

- This was such an emotional story because we got to see Christian and even Tasha's past with the Oзера family. I couldn't even fathom what they felt when they heard the news that Christian's parents have been turned to strigoi when before that happens they gave sweet messages to them. I know that Tasha has good intentions even before because she has shown how to stand up with her opinions about moroi battling strigoi and also her unconditional love to Christian. We also get to see that before Dimitri, Tasha had a love interest on another dhampir. And his death truly breaks her heart. And because of this, his love for Dimitri in the Vampire Academy series holds that he would do anything for this love. Sadly, killing the queen and framing Rose were not the right thing to do. Also, what I love about this story was how we've seen that even though Christian was young and innocent, he encapsulated strength and bravery. Seeing his parents in that state fighting them was very crucial. And it was cute to see that Dimitri already had an interaction before with Christian.

From the Journal of Vasilisa Dragomir

- In the beginning of Vampire Academy, I was really confused with what was happening. Everything was chaos because Rose and Lissa were hiding. In these journal entries, it gives depth to what they have been through. Lissa has expressed on what she was feeling especially when the spirit was consuming her even though she didn't know then that it was spirit that affects her emotion. I really enjoyed the parts where they adapt on human's schedules and daily activities. At least they felt enjoyment and comfort with those 3 places that they've been in. I've also felt the struggle of Lissa with consuming Rose's blood because even though she felt guilty about it, she knew that it was what she needed to survive. Rose and Lissa's friendship are truly amazing. I think that this scenario alone defines that Rose is a remarkable guardian.

Hello, My Name Is Rose Hathaway

- I think this one is my favorite and I wish that it could've been part of the original series. This scavenger hunt is amazingly fun. Richelle Mead is such a creative author to come up with this game. And it definitely grasps the dhampirs because it shows how they could do impossible things. But since the Moroi were also doing this and of course theft was involved, this hunt was secret to the academy. This story also makes me

missed Mason. This happened before his tragic death. He was such a good person and I hoped that he could've more scenes in the series. Also, the chemistry between Rose and Dimitri was super high in this one. If you know me, in the last book of the vampire academy series, I am kind of rooting for Adrian. But this story shown that they are truly right for each other. We all know that Dimitri always follow the rules and such a reserved person but when it comes to Rose, he would break those rules for her. It's very sweet actually.

Okay, I didn't expect my review for this to be so long since I didn't actually made one for the other books. But this means that I will really miss the Vampire Academy and the Bloodlines series. It's definitely worth it to read these books. I hope that I can go back to this series and love it once more. Maybe in the future? Soon please. I wish Richelle Mead would write more about this world. I am looking forward for more of her works in the future and I hope I will love those books too.

It was great reading more of the VA world. I loved all of these, especially the good old scene told from the love interest pov. It was also interesting reading about Tasha and Christian's parents when they turned Strigoi. I just think the pieces from Lissa's journal weren't really interesting but it was a great additional read nonetheless!

The Turn and the Flame - Rating 4/5

There was lots to like about this short story. The stain on the Oзера name is something that is mentioned quite often in the Vampire Academy series and it was interesting to learn more about Christian's parents and how they turned. And to see Christian as a young boy. It's funny that even at a young age Christian was a bit moody.

Even as a young woman Tasha was impressive. I completely approved of her speaking up about her beliefs. I always thought that those beliefs came after her brother and sister in law turned so it was cool to learn that her viewpoint started before that.

The little bit of romance in the story was surprising and enjoyable. I also loved that Dimitri was in the story. It sowed the seeds for the future between him and Tasha.

This was a wonderful addition to the Vampire Academy world and I truly appreciate Mead writing it for her fans.

Being a huge Vampire Academy fan, I was very eager to read the 4 stories! And I am happy to report that

they didn't disappoint!

I especially loved the last one, between the fun of the scavenger-hunt, the friendship between Lissa and Rose and the cutest partnership between Rose and Dimitri!!

This reminded me why I love this series so much!!!

A set of stories from the VA world. Warning I mention spoilers from both the Vampire academy and bloodlines series here so be warned.

The turn of the flame : A story about a young Tasha Ozer and how she became the strong, independent revolutionary we see in the VA series (before her totally uncalled for character assassination), how her brother and his wife (Christian's parents) turned strigoi and were killed. An interesting story it paints the picture of a young woman who never felt like she quite "fit" or could be what everyone expected her to be and by the time she decides to throw caution to the wind and do the things she was always too afraid to it's because she has lost so much that she really has nothing left to lose. It's a poignant "what could have been" chapter in her life and the missed opportunities and hesitation when it came to her pursuing a relationship with an old-flame whom she truly loved obviously weighed heavy on her and have ramifications (albeit stupid one's in my opinion) in the VA series.

My main complaint is what I saw in the other two series and it's Mead's obsession with having ALL the characters have "shared" backstories, it's a cheap and super-lame plot device and also makes her world seem incredibly small and superficial; like the moroi-dhampir are supposed to be an entire worldwide secret society of vampires with a whole human MIB-type government spook situation existing to hide them from humans and yet EVERYONE goes to school with everyone, everyone's parents knew each other through contrived coincidences and they all end up running the moroi world...from Pennsylvania....

A prime example of this is (view spoiler) and we see this again in the Tasha story.

I always assumed that Tasha met Dimitri when she was already a karate-chopping badass but it turns out she met him at court when her family died because he just so HAPPENED to be there visiting from Russia the day before she left for good and also Rose's mother who is established to be a Scottish woman whose charge travels extensively somehow has time to personally lead the hunt. Heck why didn't they just make it so that Rhea Dragomir was best pals with Christian's mom and Lissa's Dad and Abe are poker buddies with Sydney the alchemists dad the EVERYONE could have some sort of shared backstory. I genuinely liked the story because Tasha was my favourite before her nonsensical character derailment but we didn't need the inclusion of Dimitri and a Hathaway to make it interesting.

The meeting : The story of the night Lissa and Rose were caught and taken back to the academy from Dimitri's POV : This one was just so unbelievably stupid and cringy. Like Dimitri a fully-fledged adult guardian lusting after a teenaged brat he just met. I think I finally see what Rose and Dimitri have in common now though; they both love talking about how awesome Rose is. The BEST part has to be when the guardians are all wondering aloud how two teenaged girls; one weak and pathetic the other dumb as soup managed to evade them for so long, suggesting they may have had help. Dimitri gets one look at Rose, just a look, she hasn't done anything yet and is basically "She is defiantly working alone. I can see that now. OMG she is the goddess of ass-kicking reborn, it's amazing she hasn't evaded a MILLION guardians. I can tell all of this from her....stance...." no joke, seriously...uuuuggghhhh....also Dimitri is just as boring in his own head as he is in the rest of these books

From the Journal of Vasilisa Dragomir

Lissa's diary entry: I have conflicted thoughts about this one. As someone who lost a parent young her grief defiantly hit a nerve. Those depths of misery, the feelings of the walls closing in and just wanting to...escape... and even the self-harm just to convince yourself you can still FEEL, not healthy for sure but I 100% get where she's coming from and so would anyone who has been to that dark place. But she's just so effing passive, there's no fight in Lissa, she just wants to be coddled and taken care of and despite her weak character everything seems to come easy for her and she seems to recover faaar too quickly. In less than three years she goes from teenaged orphan to uber-queen, super speshal princess in charge of her whole civilisation! And that shit just annoys me, her dead parents were used as nothing more than a plot device in the end, a convenient excuse for her and Rose to "rebel" and for her to not have her parents "meddling" when she goes on crazy adventures with her delinquent friends.

Hello my name is Rose Hathaway: Rose is coerced by Lissa (who wants the prize as a gift for her boyfriend) into competing in the St Vladamirs annual scavenger hunt arranged by the students which involves stealing contraband. It involves Rose and Co running around the school gathering items and trying to evade teachers and co-competitors alike, naturally they win. Told from Roses' point of view so naturally we can expect to be TOLD a few things

a) How awesome Rose is

b) Dimitri is just the hottest guy like EVER. OMG even all the teachers and the school principal are throwing themselves at him

c) Did Rose mention she's a Guardian? They have like super-speshul guardian training that makes them so much better at everything than everyone else, they can "scour" rooms for clues, use their heightened "guardian spidey senses" to evade traps and I dunno somersault through windows parkour style

Honestly it was fun I still find the Dimitri-Rose relationship to be unbelievably creepy. It's not the age difference that bothers me, it's that he was her TEACHER when they first consummated their relationship. It actually makes my skin crawl to think about it, guy should be arrested or at the very least blackballed from every being around minors again.
