At first I found this book rather strange, but then I figured out the usefulness of it. The recipes are great and very simple. Absolutely wonderful for new moms with young children. My daughter is currently preparing for her first child and I am giving it to her. She plans to use it as a bonding educational experience with her child as they color and prepare these recipes together. I may never have thought of such a creative idea if I had not won this off of the First Reads Giveaway. A must have for young moms or new housewives!

Really cute book with easy recipes. I won it through Goodreads & already know a little one to give it to that loves to cook with her mama.

I won Cook's Coloring Book: Simple Recipes for Beginners by Rachel Lewis from Goodreads. Cook's Coloring Book: Simple Recipes for Beginners is a wonderful tool for anyone just learning to cook as well as for intermediate cooks ready to try something new. It is especially a great resource for anyone teaching a child to cook.

The recipes are simplified, and accompanying each recipe are drawings of the ingredients and the finished product. This book will encourage children to become active with food preparation, especially as they can color in the ingredients as they use each and then color in the meal or dessert created.

Cook's Coloring Book is a fun, unique addition to any family or grandparent's recipe shelf.
