It's hair today, gone tomorrow, when Marla Shore's rival salon owner is murdered in this "charming series" set in South Florida (*Library Journal*).

For a beautician, Carolyn Sutton sure loves to split hairs. The owner of Hairstyle Heaven has never stopped giving Marla hell for leaving and opening her own salon. She even relocated near Marla's shop to cut in on her business. But the competition just went from fierce to deadly—when Marla finds Carolyn with her neck broken and a hank of hair missing.

Things get even weirder when Carolyn's trusted psychic takes over the salon and tells Marla that Carolyn's spirit wants her to solve the murder. Marla's search for the homicidal hair-puller takes her from smoky bingo parlors to a spooky town run by spiritualists to sultry Delray Beach. But she doesn't need a crystal ball to tell her to watch her back—before the killer once again decides to take a little off the top.

New York Times–bestselling author P.J. Parrish raves, “Cohen has penned another follicle-raising frolic with a wry twist of romance.” Readers of all hair colors will have more fun with this rollicking Bad Hair Day Mystery.

This book was ok. Although I did find myself losing interest frequently, I think I read two other books since I started this one. I did guess the murderer early on. But kept reading to see if I was right.

Another win for Nancy J Cohen!! So this might be my favorite yet. It took me a long time to read due to, well, life getting in the way and not wanting the story to end. Again she took me to another interesting place in FL. This time it was Cassadaga. This mystery takes Marla to 'The Phychic Capital of the World' after a spiritualist makes a somber prediction. As a tropical storm bears down on Ft Lauderdale Marla must figure out the mystery to keep herself and her loved ones safe before the storm hits and someone else close to her becomes another victim.

This was another new and enjoyable cozy series I tried out with a hint of an interfaith romance/relationship, a hurricane and plenty of suspense and danger.

April Huck says

I thought it was obvious who the killer was less than 1/4 of the way through the book. One character makes such an alarming statement, there was no mystery at all. Moving on to another book.

Dawn Leitheuser says

Great mystery! What a hoot! So many shady characters.

Ramona says

Fast fun read and I did not figure out the who the murderer was until the very end. LOVE that. I also like the fact that I know the area of South Florida where the story takes place very well so I can actually picture where the characters are! I will be reading the others in this series. :)

Awesome AwesoW Read

I can't believe how much I have become hooked on these mysteries. I've been reading one after the other since I discovered the Bad Hair Day Mysteries. This one was the best so far. Mystery with some romance thrown in. I would call it enjoyable, intriguing, and definitely keeps my attention. On to the next.

This little mystery about a hairdresser who obviously read Nancy Drew novels as a kid keeps you guessing. You should be guessing in a mystery, right? It keeps you guessing because there are a lot of characters/would-be suspects. With so much going on, the reader never can logically piece together the killer's identity. When the killer is revealed in the final few pages of the book, it feels completely out of left field and the author has to rush to provide a quick backstory for the killer and link the killer to the central victim. I liked this book as a get-to-know-the-people-in-the-neighborhood type book but the mystery revealed is a puzzling afterthought. I haven't read the other books in the series but might check them out to find out more of the hairdresser Marla's adventures in life and love. I won't be reading them as great mysteries.

A mystery that is light and easy reading.
