Ponder, if you will ...

Where do you find fascinating explanations
for a multitude of mysteries?

Why do pianos have 88 keys?

How does the hole get in the needle of a syringe?

Why is peanut butter sticky?

Pop culture guru **David Feldman** demystifies these questions and much more in **Do Elephants Jump?** One of the Imponderables® series -- the unchallenged source of answers to civilization's everyday mysteries -- and charmingly illustrated by Kassie Schwan, this book provides you with small mysteries that puzzle and amaze us.

Mary JL says

I enjoy trivia/popular culture/information books. This entry is one of the Imponderables series of books by David Feldman.

I have read several of them. They are quick, humorous light reads--but you do get a lot of information.

Recommended for lovers of quizzes, trivia and popular culture.

Sandra says

Imponderables? Guess I am just not curious enough about most things. But it was a quick, skim thru sort of book and did have some interesting tid bits. Apparently this guy has done other similar books. And it was interesting to read why Donkey Kong was named, when there are no donkeys in the game!

Jim says

This is a very good book. I enjoyed reading it, and will read more of the Imponderable series and will recommend it to family and friends and everyone else. It has something of interest for all ages. I am looking forward to the next Imponderable .

Madhu N says

In between several mysteries, picked up this book as a light read. It did not disappoint me. Lots of information. Will you really use it anytime soon...probably not...but so is several things we do in school. Have read another book in this series too and definite recommend for a trivia lover or any curious person.

Clare says

Have you ever wondered about such things as: Why do our noses run when it's cold?, Why do fish take the bait more right before and during a rain?, Why is he called the Lone Ranger when Tonto was always by his side? (I was surprised to find out the story behind this one) If thoughts like these cross your mind at times, then David Feldman is your go-to guy. With the help of those knowledgeable in many different fields, Mr. Feldman does his best to find a concise answer. The results can sometimes be amusing, and sometimes the experts disagree, but the explanations are always informative.

Susan says

THIS ONE HAS THE INDEX. There are ten "Imponderables" books. I enjoyed thumbing through the odd questions/answers (eg "Why did Pilgrim's hats have buckles" answer: they did not...artistic license.)...but enjoyed the index even more. For example, you'd have to go to page 68 of volume 11 to find out why the phrase "run amok" is used. Or volume 4, page 102 will tell you "Blueprints, color of". Reasonable fun.

Lisa says

My kids and I love to read this myth-busting, useless knowledge, and curious trivia book.

Daniel says

Saya suka banget sama pertanyaan-pertanyaan trivia yang ada di sini :> Buku yang saya baca waktu masih SD dan masih terkenang sampai sekarang :)

? Briansgirl (Book Sale Queen)? says

Perhaps I've read too many of these now but it was up to his usual standards. I didn't however like the very large final chapter where he answered letters because he didn't specify which imponderables he was talking about other than in the text while reading so they all blurred together.

Alex Seals says

This Imponderables book is a lot newer and actually incorporates the internet. There are links in the book so that you can see what things look like, etc.

Dave says

Sometimes I find myself thinking, "What could go wrong with pointless information?".

Donna says

It was a fun read!

Indah Threer Lestari says

1176th - 2011

Cheryl says

As always with one of these books, some of the questions and answers were more interesting than others. Some of the answers were way too lengthy and some of them were fascinating.
