## Edge of Nowhere Regina Carlisle

Edge of Nowhere Regina Carlisle Book 4 in the High Plains Shifters series. From the moment Cactus Mackey rescues Sara Farmer from outlaw wolves, he knows she belongs to him-and he's more than ready to mess up some sheets with the sassy female. But she has secrets and wants to run. Infuriating woman He might have to tie her to his bed but he's not about to give up until she belongs to him, body and soul. As danger chases her, Sara knows it's a huge mistake to fall head over heels for the sexy lycan cowboy from Wolf Creek Ranch. A single touch from this shockingly seductive man melts her like butter under the hot Texas sun, and has her yearning for impossible things. The man is big trouble to her heart and running may no longer be an option.

## From Reader Review Edge of Nowhere for online ebook

### April says

Oh my Sara and Cactus are a steamy hot combo!! I am really enjoying this series!!

---

### Fran Lee says

Hot shifter with loads of sex and great plot!

---

### Bec says

I really wanted to like this book but couldn't. It was basically the same as the last two. It's like she has just rewritten parts of the same story. Could have been such a good series!

---

### Miz Love says

Here we go again, for a rip-roaring, humdinger of a romance by Ms. Carlysle. Loving this series so far, and Edge of Nowhere delivered everything the previous three books did. A glorious hunky hero with flaws and sensitivity, and a spunky heroine who has a past she must come to terms with as well as learning new things about herself along the way.

Those horrible outlaw wolves had kidnapped Sara and her twin sister, and Cactus knew instinctually when he rescued her that they were destined to be mates. I loved the way he took care of her, how he wanted to help her accept her lycan self, to punish the kidnappers, help her help her sister—and how he understood her need to want to protect her sister—and also to keep her from harm at her father's hands. Well, let's just say I loved everything about the damn man because he was such a sensitive soul but at the same time Alpha and soooo...ooooh! Yes, Cactus was ooooh. Yummy, scrummy, and a whole heap of pwoar on top. Phewie!

I loved Sara's ability that came about when her lycan abilities started to manifest—you'll have to read what they are for yourself, but let's just say I wanna be Sara!—and I loved her sister's ability too. In fact, you may as well take it from me that I loved the whole darn book and enjoyed every bit of it. I can still see Cactus' pecs in my mind and Cactus and Sara's super-fast mating scene. Oh my. And I know I've said it before in previous reviews, but here it is again...

I love Regina Carlylse books, cos I'm a fan, man! Oh, and I advise that you read the whole series. They read fine as standalones, but to get the whole experience, I'd say it's so much better to read them all.

### Maida»-(^v^)-> says

I pretty much don't know what to say for this series besides that it is HOT! I am literally out of words to describe how in love I am with these books. THIS was no exception! I can't wait to read more books by Ms. Carlysle! ;)

### **PepperP0t says**

When the unmated women were abducted from their alpha couple, Joe and Quinn's mating celebration, Wolf Creek ranch hand Cactus Mackey was one of men determined to rescue them. Following a trail into Mexico Cactus finds he hasn't caught the rogues kidnapping random unmated females, he's caught a group rounding up gifted unmated female lycans.

Among the women just saved from rape, Cactus is locked onto his mate, Sara. She and her sister were bartered to the Hellfire pack when their father discovered gifts he didn't know they had. In itself, the story was extremely erotic and the ongoing thread following the kidnapping found a bit of resolution but deja vu was a huge issue for this reader during the outing. Accounting for some overlap is the read runs parallel to Rayne Poteet and Ringo Ramone's story. (P3pp3rp0t's review of Ringo's Ride)

Rating:3.25stars
