## **Harley Quinn's Greatest Hits** Paul Dini (Writer) , Scott Snyder (Writer)

Love makes you do crazy things. And Suicide Squad member Harley Quinn is madly in love.

After springing her psychotic killer boyfriend, the Joker, from Arkham Asylum, former psychiatrist Harleen Quinzel put on a clown costume and said sayonara to sanity. Now Harley brings her own unique brand of psychosis and revelry to whatever she does, whether it's causing mayhem alongside her beloved Mistah J., saving the world as the nuttiest member of the Suicide Squad, or relaxing with her gal pals Poison Ivy and Catwoman. With her deranged mix of fear and fun, she knows how to leave a crowd in stitches!

HARLEY QUINN'S GREATEST HITS collects eight of the lovesick lunatic's best stories from such talented writers and artists as Paul Dini, Bruce Timm, Jim Lee, Jeph Loeb, Amanda Conner, Jimmy Palmiotti, Scott Snyder and more.

Collects BATMAN ADVENTURES #12, BATMAN #613, COUNTDOWN #10, GOTHAM CITY SIRENS #7, SUICIDE SQUAD #1, BATMAN #13, HARLEY QUINN #21 and HARLEY QUINN AND SUICIDE SQUAD APRIL FOOL'S SPECIAL #1.

"Abby read ANOTHER Harley Quinn comic? When will it stop? Will it ever?"

In response: NO.

### **Paul says**

my favourite piece was the jim Lee illustrated story

greatest hits checklist

girl band- check

power ballad- check

punk inspired chaos- check

I am absolutely obsessed with Harley Quinn! This book is definitely for anyone who loves comic book or is a fan of Harley. My favorite was the ones involving Suicide Squad.

That was an interesting mix of Harley stories, for sure. I'm not sure it convinced me to read more of her stories, though. I mean, I've got a volume or two more to go, but this wouldn't have convinced me to pick them up.

I think the issue for me is that it felt like there were a couple of different versions of Harley in this book and that's weird to me.

I liked most of the versions, but it wasn't an easy narrative to follow.

You would think that a book entitled "Greatest Hits" would include the character's best appearances in the DC world. Alas, this collection is a baffling collection of stories that don't fit together well, nor do they give a comprehensive view of the character. Well... to be honest, this was obviously put together to lure in fans of Suicide Squad the movie and perhaps it does suggest something about that character... But it's a horrible selection of Harley comics that focuses on how she is sexy and "crazy". It doesn't include the original Mad

Love comic, or any of the poignant scenes over the years like that moment between Black Canary and Harley when she reveals she was pregnant. It features a strange choice of comic from her new, headline series, that is quite different compared to the series usual offerings. No mention of her Gang of Harleys or new Coney Island address. It doesn't touch the fact that she's rejected the Joker. Definitely a book to skip.

I love Harley Quinn, so reading her 'Greatest Hits' was just a brilliant insight into her life. For example, meeting her family, getting to know her best friend: poison ivy, viewing parts of her and 'The Jokers' story and parts of the suicide squad. This was a very fun read.

it's Harley of course I loved it. not my favourite stories personally but still HARLEY!!! ?

### **Liam says**

This was a pretty good collection of Harley stories! Some of them did feel a little out of place and didn't make much sense because they kind of required some context to what happened before that issue... but they were all enjoyable! My favourite thing was probably the variety of different artwork and I literally love the cover so much!

### **Jesse Nicholas says**

Loved this one. Harley Quinn is my favorite "villain" and it was nice to see more of her origins and greatest hits. Definitely worth the read if you are a Harley Quinn fan, or want to learn more about her!

I don't know what I was expecting from this graphic novel but it sort left me meh. I can't believe these are "eight of the lovesick lunatic's best stories ". Normally I would say I like this one or that one but none really stand out. Maybe the Gotham City Sirens one... I like when the bad guy is attempting to reform. I like the Batgirl one but I feel it was because I enjoy the Batman animated series. But none of them really hit any emotional notes expect I am not going to buy Suicide Squad books because that is messed up.

Comics are just not my thing

### **Allison says**

This was a fun collection of comics. It served its purpose in introducing Harley Quinn to me, a relatively new fan. I enjoyed seeing the different art styles and portrayals of Harley and I also liked seeing characters that I know from elsewhere interacting with her. While I liked reading this, I just don't think comics are for me, and I have known that for a while, so I'm not surprised that I didn't fall in love with this. I like having it on my shelves, though.

### **Jessica (novelcravings) says**

I have been on a kick of trying graphic novels and I had a good feeling about this one. However, I found the stories confusing and the story hard to follow. I simply don't know enough about Harley Quinn or DC Comics to be able to enjoy a collection of greatest hits.

---

### **Alicia Balliett says**

I really did enjoy reading all the comics. However, I feel like some of them could have been replaced with better works of Ms. Quinn. But that's not my reasoning for giving it four stars instead of five. I feel like the cover is kind of misleading.

Let me explain. :)

The cover states that there is a issue involving the Suicide Squad and Of course there is but not in the way I thought. Killer Croc, Captain Boomerang and Katana are only on ONE PAGE. Judging by the cover I expected to see them a little bit more.

I mean...maybe where it says "Featuring the Suicide Squad" they meant other Suicide Squad members. Like King Shark and whatever the other two members names were. And if that is the case then they should have had them on the cover.

Dear oh dear...whoever termed this HQ's greatest hits seriously needs a slap! These are not HQ's best stories, not by a long shot!

I am bitterly disappointed with this volume involving one of my favourite DC characters and I think this is the reason I have given Amanda Conner's New 52 series a wide berth. I simply don't like what she has done with the character.

I hate the way she talks (all slangy, etc.), I'm not too keen on her "makeover" and I just find the stories pretty boring. They're not funny like they used to be. Harley Quinn's original charm doesn't come through and the

whole volume leaves a lot to be desired.

I did quite like the opening couple of stories which focussed on the original HQ and her kick-ass gal pals Poison Ivy and Catwoman but the later stories left me feeling cold.

I don't think I'll be investing in any more of Conner's work, not after this taster. HQ just isn't the same.
