Jeffrey says

Deep in this Series.

Warren says

Interesting

So you write a story, cut some of it to shorten the book, then put out what you cut as a short story. Well, it was well crafted but reminds me of my days dealing with the budget in the Pentagon.

Tony Hisgett says

Too much technical detail, virtually the whole story was just about laser numbers, how many alien mother ships could get past a jump fortress, how many tons a battleship weighs etc.

I was hoping for a story about Kris battling with the Admirals and finding ways to subvert them, but what we got wasn't really worth reading.

Summer says

Kris Longknife... 'nuff said.

Seriously, if you have read the series then do so. If you. Have read it, then you know. If you don't like science fiction, or books about strong female characters with male characters who are also strong and neither sees the other as a liability... then maybe you should read something else. For anyone else, short story, novella, full sized novel... if it's Kris Longknife, read it! Oh, and if Mike Shepherd wrote anything else... then read that, too! Go! Read!

Nortien says

I dislike paying to be a proof reader.
