Menacingly Autumn Summers

"Your problem is that your heart is too big, it leaves you vulnerable and makes you weak." He spoke in such certainty that it brought tears to my eyes, because it was the truth. I was vulnerable and delicate, I was weak and let my guard down too much. "You put your heart on your sleeve. You are oblivious to evil and peoples capabilities because you cannot imagine a person like that, you are blinded by your good nature."

"What about yours?" I asked hesitantly, trying to keep the shake out of my voice. He looked at me with confusion for a second so I continued, "What about your heart?" I questioned. He looked at me with his dark eyes, his stare like stone.

"I haven't got one."

Angela and Adriano are like fire and ice, they are complete opposites. But what happens when Angela gets thrown into Adriano's dangerous lifestyle? Can Adriano protect her from the evils he faces every day? Or does it become too much for the innocent Angela to cope with?

This book was really good. There was some parts that didn't set well with me I guess but overall it was good. The plot twists were in there, they were not supper dramatic (not complaining) however, their were some and those were the perfect amount. This book I would give like a 4.5 starts however you can't really give half starts so it is under four.

Anyways if you need a good Wattpad book to read, check this one out.

I've been reading this book and a few others on Wattpad for a few months now and I just finished Menacingly early this morning, IT WAS AMAZING! Everything went together perfectly, all the characters and the problems too. The ending was all tied together, no loose threads that I could find. Most books on Wattpad have grammar and spelling issues (I am not saying all but some) and that is perfectly fine because nothing is perfect but I am going to say that Menacingly had little to no issues and I highly recommend to those who love reading about the mafia!! :)

I absolutely loved this book. Before this, I didn't really liked romance, or books that had much of that, but I can tell you, that now, I am crazy about it (at least about books similar to this). It takes you through a roller coaster of emotions.

You hate what happens, but you love it so much.

I think that on one side you disagree with what Angela's decisions are, but on the other, you can't help but understand where everything is coming from. The way it's written lets you really connect with the characters (how could you not to, when you know exactly what they are thinking and feeling). It also show you some hard truths about life and it made it that much more real for me.

It's really easy to read; I wanted it to be a little longer, as I do with every book that I love.

This book looked promising at the start, and I went into it thinking that it would become one of my favorites. Unfortunately I found this book to be majorly disappointing. This book is one of the classic examples of, boy and girl fight and then make up and then fight & make up 50 more times. I didn't think the characters were meant for each other at all, and found myself getting rather frustrated while reading this. The story was okay, but at times was so disappointing. I felt like none of the characters really had depth to them, and any attempt at depth felt forced and uncomfortable. This book wasn't terrible, but definitely wasn't worth the read and half the time I just wanted it to be over.

I could not quit reading! This was one of the best books I have read in a while. It was the perfect combination of mystery, romance, and adventure, leaving you constantly wanting more. Everyone needs an Adriano in their life!
