## **Shadow Leader** Tara K. Harper

Linked by an unbreakable telepathic bond, Dion and her wolf, Gray Hishn, were an unbeatable team. Together they could scout a trail better than any single human, and their unique healing talent had saved the lives of their companions during their desperate flight through the frozen mountains to warn their people of impending war.

Now enemy agents scoured the countryside looking for the group that included a young healer and her wolf. And suddenly the very strengths that Dion's friends had come to rely on could mean the downfall of them all...

## From Reader Review Shadow Leader for online ebook

### Dwer says

An okay book, can't say why I have mixed feelings. The first in the series I enjoyed more, but even it won't be a favorite. They seem well written, and a reasonable story, but I just don't have my attention captured.

---

### Ree says

Great book. As the story continues, the reader gets to dig deeper into the characters. Will recommend to others.

---

### Carol says

I liked these books a good deal, having already found Elfquest appealing (wolf bonding is a common theme for both series).

---

### Brent Moffitt says

Action packed. Hard to put down.

---

### Hacen says

Actual Rating: 3.5

---

### Dana Tri says

This was just a fun adventure story and I really enjoyed the main character and her wolf.

---

### Andrea Baker says

line is amazing and the details are so wonderful you feel like you actually there!  
They were such great stories when I was a young girl that I reread them as an adult!
