Nattie says

This entry into the series had a decent mystery, but I felt it moved too slow.

I didn't understand why Nancy wanted to get a separate dorm room from Bess. Supposedly she didn't want anyone to be able to connect that they were working the case together. It probably would have been a good idea if Bess didn't spend most of her time in Nancy's dorm room, or right out in public talking to Nancy every time you turned around. Geez!

Ashima says

I guess I've always loved to read mystery and other books which contain an element of intrigue. I vaguely remember starting off with Famous Five then went onto Nancy Drew and then Agatha Christie.

So when I stumbled upon Nancy Drew and an Agatha Christie at the library book sale I picked them up and read them back to back.

I'm not going to review this because I read it more out of a feeling of nostalgia than anything else :)

Lyara Lobo says

The first things that probably come to mind when you think of "The Nancy Drew files" are: corny, detectives, and the 1980's. "Tall Dark and Handsome Case #66" is just one of many books that Carolyn Keene has written. She has many series of these mystery books written about and for teens. This particular case is about a missing college student named Ava Woods who went missing after going on a mysterious blind date. Nancy and her detective partner/bff were called to solve the mystery and find out what happened to Ava!

I chose this particular book for many reasons. I have always been a fan of the mystery genre, which is one of the main reasons I chose this book. This isn't the first book I've read of the Nancy Drew Files, so I was already familiar with Carolyn Keene's work. When I read the summary of the story on the back of the book, I was really interested in finding out what happened to Ava. What teenage girl wouldn't want to read a story about a blind date gone seriously wrong?

Case 66 of the Nancy Drew Files was a really good book. I loved how Carolyn Keene would throw in surprising twists and turns that always left me on edge. I love reading mystery books because you never know what can happen, and they always leave you guessing. Another reason I liked this book is because I can kind of relate to Nancy and Bess in some ways because they too are both teenagers. Carolyn Keene is a very good writer.

I would certainly recommend this to my classmates! Maybe not too many boys, but certainly the girls. It's a fun read that's easy to understand and relate to. It always keeps you guessing and on edge and I guarantee you

will always be hooked while reading this book. For people who love crime solving, and predicting ahead of time, and solving mysteries The Nancy Drew files are for them! Especially Case #66

Dawn says

I couldn't figure out a couple things with this story.

Jerry says

Standard fare for this series...which isn't a bad thing.

Meredith says

ended up being a bit more predictable than the usual Case File mystery

Annika says

Definitely my favorite ND FILES case :D

Content: PG - Romantic themes/violence

W says

This one was... different. Right from the beginning, it wasn't like typical Nancy Drew stories. Nancy and Bess are on their way to college to investigate the disappearance of the daughter of some friends of her father, and while they're supposed to be posing as students and working undercover, Nancy uses her real name right off the bat. She and Bess get different dorms so people won't associate the two of them, but they meet up and talk in public all over campus, including the hall, the lounge, their dorm rooms, etc. Then there's the girl who's missing, Ava. Nancy constantly spends time with the girl's roommate, Betsy, in their room, with the door open. It's pretty much Nancy Drew at her dumbest.

It's a Files book, so there's some quick violence, and this is one of the books where someone doesn't make it. Nobody from the cast of characters is very likable, but Bess seems a bit more fun and on top of things in this story. There's some stop and go, and pointless planning that could've just been skipped--the girls are going to sit in on classes, then they just decide it's not necessary, Ava's parents won't involve the police and only want Nancy investigating, then they talk to the police and want Nancy to drop it, blah blah. Just kind of a weird story.

The book picks up quite a bit in the second half, so there's that. It's just a weird book. I read it in one night.

It's Nancy Drew. I mean, there's really not much to say.
