# From Reader Review The Dragon's Mage for online ebook

## Eva says

This book is set in the world of Honor Raconteur's Advent Mage novels. Jaunten is the first of four books in that series. You can easily read 'The Dragon's Mage' as a standalone, but I'd still recommend reading the other books first. They contain a lot of background information, and there are a lot of inside jokes you'll only understand if you've read the Advent Mage novels.

There's a good summary given above, so I'll just give you my thoughts on the story:

I really enjoyed this book. It's lighthearted and funny and exciting without much violence. While it's a suspenseful story with a lot of action, I didn't ever doubt that there'd be a happy end. Definitely more 'Harry Potter' than George R. R. Martin. That might not be to everyone's taste, but if you're not in the mood for constant blood and gore, then this book is pretty great.

What makes it slightly different from a lot of the current fantasy books is the lack of an 'evil overlord'.

There's no Voldemort or Sauron who commands legions of evil-hearted minions. The fate of the world doesn't rest in the hero's hands. He simply has to save his city from an arsonist. Or maybe not so simply – it takes quite some effort after all.

I don't really know a lot about children's reading levels, but I'd say that anyone ten or up can easily read and enjoy the story.

### Price is too much

Not worth the price, 2.99 better, kind of cheesy and stereotypical of fantasy books. More character development needed as well as more real life expressions, less 'busted buckets'.

---

## Jay Collins says

2.5 Stars, sadly not as good as the first books in this series. I really wanted to like this book but it is only okay, I did finish it but this series is getting less and less likable with every book :( This is too bad as I had high hopes for this series and it started out very good. This book is the weakest so far and is the story of a spin off character.

---

## Amanda Kern says

I was just surfing on Amazon when I noticed that Honor Raconteur had another book out. Again she out does herself. The only problem I had with this book was that it was a little short for my taste. Otherwise I

loved it. I laughed out loud especially at the epilogue. I loved how Garth still has not really changed and he not completely gone away.

What I really loved was Krys new familiar. I loved how Honor explained how Kaya chose Krys. I don't know what else to say. I just really liked this book. I hope to see more of the Advent Mage Cycle for there are still some unanswered questions from the first three books. I can not wait till next time. I hope you will enjoy this book as much as I did.

## **Douglas Cook says**

First sentences

Prologue

I really needed to be better behaved than this. After all, I was sitting in the main courtyard of the Academy, in full sight of anyone that happened to glance out a window. As a fully-trained, nineteen year old Magus, I was supposed to be setting an example for the younger students. Openly fidgeting wouldn't be much of an example.

Raconteur, Honor (2013-10-17). The Dragon's Mage (An Advent Mage Novel) (Kindle Locations 50-53). Raconteur House. Kindle Edition.

## **Barbara Douglas says**

Light but fun. My one question is: I thought Krys was going to teach, not study, at Strae Academy? So, that niggle aside, he's an enjoyable character to spend time with, Kaya is a delight, and generally this book is a great place to hide from the world for a while.

---

## **Valerie says**

I love the addition of an intelligent dragon! And someone with a different kind of magical life.

---

## **Suprio says**

3.5

---

## **Caleb Morris says**

I felt a little disappointed about this book compared to the others in series.  
It felt almost like everything happened too easily and quickly without any kind of development.  
I hope future novels are much better and the characters become less flat.

---

### **Teresa Carrigan says**

This book follows the Advent Mage series, but has a different main character. Highly enjoyable.

---

### **Michael Wood says**

#### **Great Independent "Advent Mage Novel**

Having finished her great four book epic on the development of the "Advent Mage" series, I am glad to see the author provide more novels set in that same, now familiar, world. Each novel provides a richer view of that world.

HIGHLY RECOMMENDED AS BOTH AN INDIVIDUAL BOOK AND AS A SERIES!

---

### **Ralph Trickey says**

No plot

Sadly, this book has no plot. Well, it sort of has a plot, the fire mage is chasing an arsonist. Fire mages go around putting out fires and destroying priceless artifacts. Sadly, there aren't even enough interactions with the dragon to give it enough cuteness to overcome how totally lame the story is.

There was enough to make a fairly good short story, stretching it out to a novel was a huge mistake.

Sadly, this series has been getting worse. Half of the last book was about planning a wedding.
