**The Power of Birthdays, Stars & Numbers: The Complete Personology Reference Guide** Saffi Crawford , Geraldine Sullivan

The most complete, comprehensive birthday forecast available--synthesizing the secrets of astrology, numerology, and fixed stars!

In this delightfully addictive, wholly accessible book, two skilled astrologers guide you toward greater psychological insight, self-awareness, and a keen understanding of your unique position in the universe. Packed with an extraordinary wealth of knowledge and clear, easy-to-interpret graphs and charts, The Power of Birthdays, Stars and Numbers provides:

„ BIRTHDAY FORECASTS--366 profiles--one for each day of the year--reveal your positive and negative personality traits, career strengths, tips on love and relationships, your secret self, your best days for romance and friendship, potential fatal attractions, famous people who share your birthday, and much more!

## **INCLUDING!**

„ FIXED STARS--Though astrologers have used fixed stars for centuries, now the general public can reap the rewards of this classic method for enlightenment. The stars that line the heavens radiate great power, depending on your date of birth. You'll learn your primary fixed star plus those that influence your astrological chart.

„ NUMEROLOGICAL PROFILES--Discover the importance of the nine basic numbers, and learn how to calculate your holistic number (which reveals your life purpose) and your personal year number (which sheds light on what specific lessons a particular year has in store for you).

Travel beyond the twelve signs of the zodiac and tap into The Power of Birthdays, Stars and Numbers. You hold centuries of wisdom in your hands.

## From Reader Review The Power of Birthdays, Stars & Numbers: The Complete Personology Reference Guide for online ebook

### Raiveran Rabbit says

Excellent and insightful with mathematical (or as close as you can get) descriptions. A caveat, though: ignore the ratings of "true love" in the bottom right-hand corner of the page. They are always chaotically wrong. There is no absolutes one way or the other, love or hate.

---

### Kamai says

Good book for what it is. It not a sit down and read book, more of a reference book

---

### Lodane says

The 1-5 Star Review is the total of what I have to say about this book, *specifically*.

**Caveat:** This review is historical/archival in nature. 'Date read' is speculative.

This book is one of many books I have read about the occult/paganism/witchcraft. This was the readily available faith in my household as a child. Additionally, I worked for a company in this field, 2015-2016, and had to read an ocean of this stuff to do my job.

Like televangelists, and snake-oil salesman, these publishers prey on the vulnerable. The authors are mentally ill: suffering from 'magical thinking' and delusions. Worst of all, most of them can't write worth a damn.

Llewellyn Worldwide is the absolute worst on both counts. I wouldn't even trust their overpriced CALENDARS to be accurate.

These books are also big offenders on the the 'cultural appropriation' front. In fact, they're in the running for worst case ever. So-called 'eclectic witches' steal aspects of other religions and mythology. They make it clear that they don't understand them, or feel the need to, before shitting in someone else's bed. The publishers/authors then profit off this, leaving the reader less smart and more broke.

The living Venn diagram of demographics for these books would look like this:  
She's a white, American woman. She dropped out of college to attend massage/cosmetology school. Growing up, her strict parents took her to church every Sunday. She kissed a girl 10 years ago, and likes Katy Perry. To quote Holden from Chasing Amy, "Over- or underweight [people] who don't get laid - they're our bread and butter."

Though a copypasta of it, these books never tell you about hermeticism. They don't prime you to understand hermeticism. Hermeticism, by the way, is also total bullshit. It is, at least, historic -- and seminal in almost all spooky fiction involving rituals or alchemy.

If I give one of these books anything above 2 stars, it's a decent example of this type of book. It might have a redeeming feature, like reference material for fictional world-building. Having worked in this field, including sales of these exact books, I can tell you... the fix is in, they know it, don't buy this stuff.

### **Titan says**

This book has been in my family as long as I can remember, and at a time when I'm most craving insight into my own flaws and better qualities, this really came in handy. I don't believe everything astrology has to offer to a T, but I don't ignore all that it has to offer, either. I've really been searching for good astrology books like this and have yet to come across any quite as comprehensive.

Bonus: If nothing else, this can serve as a comprehensive character profile for us writers out there. ;]

### **McKenzie says**

I love this reference book! It is just something fun to take a look at when you are bored or are goofing around with friends. It is a great coffee table book because it is entertainment in itself! I've had this one rotating around my coffee and end tables for years!

---

### **Lynda Evans says**

Interestingly unique comparison of the characteristics you supposedly hold by the day and month you're born.... not sure of how true the book is, but makes for a captivating read for anyone lovestruck, as the book also informs you of which birthdays you're best compatible with and vice versa!

---

### **Margret says**

I got this book for my birthday. It's a fun, informative, and entertaining book. A great gift and I loved it!

---

### **Amanda says**

Pretty accurate. The thing I like about this book is that the authors included the compatible birthdates for each birthday which is based on another system obtained from astrology. These birthdates are pretty darn accurate which is spooky.

---

### **Jess says**

I borrowed this book from a friend a long time ago and am longing to get my own copy. Each page is

meticulous and full of information. A very fun and informative read.

---

### **Muffy Kroha says**

A must have!!!!!! Another crucial component in the library of the armchair astrologer

---

### **Libby says**

This is the best book ever.

---

### **Bri Malan says**

This one is of course just for fun!!! Just to see if your personality matches up with what your birthday says about you. Its just fun to find things like that that match up....ohhhhhh, are ya scared? LOL

---

### **Allison ? says**

I love this book so much. It's one of my top favorite astrological references. This book contains a lengthy chapter on each single day of the year. You go to your birth date (Mine is November 14th) and this chapter is devoted to your planetary aspects. You will find:

- General introduction
- Sun sign, decanate, degree, mode and element.
- Fixed stars and primary stars containing other planetary aspects
- Your Secret Self
- Primary Star's Influence
- Work & Vocation
- Numerology
- Love & Relationships

And, my FAVORITE thing about this book: Each day contains a list of compatibility dates that you can compare your friends and family to. Titled 'Your Special Someone' it then lists other birth dates under Love & Friendship, Beneficial, Fatal Attraction, Challenging and Soul Mates.

Whether you put stock into astrology or not, this is a super interesting read that could give you insight to yourself and loved ones.

---

### **P says**

It was a generalized version than a book of specific nature it boasts itself as. Nevertheless amusing to read

about the predictions that were anything but when kept on a scale of judging every other day in relation to my own birthdate where none of the qualities fit me or maybe I'm an exception to the rule. According to Vedic Astrology , stars or otherwise lunar mansions are associated with the moon's position at the date, place and time of our birth and not the sun. And the attributes of the lunar mansion seem a better fit than the solar based fixations. And a lot of things about me sounded false and checking with the birthdates of people I knew, except for a couple, everyone else exhibited characteristics completely contradictory to their decanate. So it feels like a lucky fluke generalized version most horoscope readings follow.

Maybe I have read too much astrology articles so my expectations is high but the content while ordering on inaccurate wasn't even stimulating or intriguing. But things about Life Path number and personal year were good.

---

**Tangela says**

a great reference!
