## Unauthorized Affair Lisa Ladew

When Jen Mansko finds her soon-to-be fiancé in bed with another woman, she decides to make a new life for herself. She finds herself in a new city with a new job as a cop, something she never could have imagined in her former life. After landing her dream job, she now finds two men vying for her attention. One a cop, the other a criminal. She has to make a choice, before all choices are ripped from her.

**18+. Swearing and sexual content.** This is a spin-off of the *Edge of the Heat* eeries. The characters from the *Edge of the Heat* will weave lightly in and out of the *Unauthorized* series.

# From Reader Review Unauthorized Affair for online ebook

## Darcie says

Oh my I have no idea where to even begin!! I loved this book from the beginning. I will admit I was a bit torn for the first half of it because I was really beginning to love Coleton and Hunter was doing his part of staying distant. I loved how Hunter and Jen came together though and the best part was it was believable. Ivy and Ryker were great supporting characters but the epilogue nearly made me scream! I need the next book right now and it better give me some answers to Ivy's heartbreak. Give me more please!!!

---

## Pam says

Can we all take a second to just praise this cover, *HOT DAMN!*

*plus it's a FREEBIE right now: <http://www.amazon.com/dp/B00PHV4KM6>*

---

## Liana says

**5 star suspense, but 2.5 star romance**

Only a few things keeping this from being 5 star romantic suspense. One, the love story isn't too developed. There are storyline reasons for this, but honestly, it left me rooting for and feeling bad for the other guy. There was some good chemistry there and it seemed like the heroine actually connected with him. Two, because this takes place in the Edge of Heat universe, characters from there are referenced here, but the way their stories are referenced isn't completely friendly to readers who haven't read that series.

---

## Lindelicious says

I liked Jen, I liked the fact that she didn't give up on love just because she was badly hurt by her ex-boyfriend. There's no love triangle was insinuated in the blurb. The romance between Hunter and Jen wasn't well developed. I felt that Hunter and Jen weren't interacting enough for the chemistry between them to grow to such proportions. I find the suspense was too simplistic. A crime boss who's been so difficult to incriminate, the investigation and arrest was too basic.

### **Marilyn says**

I received an ARC in exchange for an honest review. This is a great beginning to Lisa Ladew's new series! We are introduced to Jen, a woman who went from being insecure due to being cheated on by her boyfriend, to transforming into a self-assured and confident undercover agent. What I loved about this story is that it had so much action, paired perfectly with the budding relationship between Jen and Hunter. Can't wait for more of this series!

---

### **Lynde Shaw says**

Meh. This book was kind of all over the place. Very little romance, which is fine. But when the romance did happen it was between the two people who seem to have spent the least amount of "screen time" together. How they went from barely knowing each other to being in love when they've had about 2 personal conversations was unrealistic and unbelievable. And I'll suspend my belief for a lot of things because I know these are works of fiction and come from an author's imagination. I'm even mostly ok with insta-love. But this one just bounced around so much between the two guys. It wasn't terrible. The go get em attitude Jen suddenly developed was pushing the boundary, but it was made to work. But this one wasn't good enough to make me want to read anymore in the series. If you want a quick, easy to read book that is free, then try this one out. But if not, you'll be ok without it.

### **Mandy Saial says**

I was excited to read this series after liking the synopsis , but sadly couldn't really get into it . I thought the characters were lacking a little and for me I needed more suspense /action .

---

### **♥Lynn ♥ says**

I enjoyed the potential this book had more than the story itself. I enjoyed all the characters. Enjoyed the plot. However I felt the romance between Hunter and Jen didn't have the chemistry or development it should/could of had. After the first chapter, I thought for sure Jen was going to whine her way through this book. I loved how she picked herself up and changed her life. The romance just wasn't there for me.

## **Donna says**

WOW!!!! What a fabulous story. Unauthorized Affair is an amazing start to Lisa Ladew's new "Unauthorized Series". Jen and Hunter's story steals your heart from the very beginning. When Jen discovers heartbreaking news, she decides to change her life completely, only to end up in more danger than she ever imagined. When Hunter meets Jen, he sees her as sweet, innocent and beautiful only to quickly realize that she is strong and smart too. They make the best of their situation, until Hunter is forced to make a decision that will change their lives forever. I've read all of Lisa's books and this one is right up there with all the rest- thrilling suspense, sexy hot romance, and characters that quickly make you feel part of the family. Lisa also likes to bring back other characters from her other series, keeping you updated on the lives (this does not take away from the original plot line or make you feel as though you have no idea what is going on; however, it does make you want to read those stories also "Edge of Heat"). Once I started reading, I could not put it down. Can't wait for book 2 coming out in late November/early December (2014). You won't be disappointed.

## **Deborah says**

Fabulous read.

Jen Mansko's life completely changes one day, something is nagging at her, something bad is going to happen she just knows it but she's no idea what it is and then she arrives home and finds her fiancé in bed with another woman, as if this wasn't bad enough he clears out her apartment and bank account, needing a complete change she gives up her apartment, her job and goes to visit her brother where she makes a huge career change and decides she wants to be a cop.

With help from her brother Jerry and his girlfriend Sara she trains and prepares so when it's time for the tests she sails through, so much so that she's picked up to work undercover. Jen finds herself very attracted to her boss Hunter but since he's her boss she knows nothing can come from it but then she also finds herself attracted to someone else but she doesn't know which side of the law this person stands on.

This is a fabulous read and the first book I've read by this author I literally couldn't put it down, the characters are great and not just the main couple but all the supporting ones as well and the story kept me reading and yes it had a cliffhanger but it wasn't a surprise since I'd checked I can't wait to read the next one 'Unauthorized Deception' and if it's anywhere near as good as this one I'll go on and read her 'Edge of the Heat' series.

## **? Garima ? says**

Generally, I stay away from any novel which shows bare male chest on cover, but I was looking for cop thriller and after reading blurb I decided to give it a try.

To let you know frankly, I picked this up because-

I got deal for this one through bookbub.com as part of my daily alert and I was feeling bit rebellious-

I don't know how choosing for this book counts as rebellious but 'Unauthorized' is all I can read in the title.

So I got 4 of these (I guess that is complete 'Unauthorized series') at 0.0\$ from Amazon so nothing to lose. However I almost stopped reading it as soon as I realized Jen has pink hair –

I took some deep breaths at this point and kept reading it and it turned out to be a pleasant surprise, the story is fast paced and both out protagonists don't waste much time and goes ahead with uncovering the mystery surrounding mafia lord Fiore.

I really like Jen and Hunter's characters – little bit of reminder of Will Robie and Jessica Reel from Will Robie series by David Baldacci. Now let me tell you something, you cannot compare David B.'s writing style here as it is much more rich and subtle but I guess Lisa did good job writing fast paced short story.

Of course, I skipped last chapter and skimmed through it (for obvious reasons) and of course, the story doesn't end here and literally jumps into next one -  
Unauthorized Deception (from Ivy and Ryker POVs)

Will I read it - Sure got curious what happened to Ryker? But I am known to drop series as soon as I got little bit irritated with it so no promises :)

---

### **Heather says**

Just finished the first book in this new series, and can't wait for book two! What a great cliff hanger for Ivy and Ryker! Book one featured a little bit of everything, action, suspense and romance. Great book and looking forward to more from this author.

---

### **Sarita says**

This promises to be another great series for Lisa. While it was a tad slow in the beginning, you are being introduced to new characters and situations. At first, although Jen was sweet, I had a hard time deciding whether I liked her or not. She had just caught her boyfriend cheating on her and days later, she's mesmerized by someone else. Everyone told her the boyfriend was bad news and she missed every signal. But then her innocence and naïveté was kind of what endeared me to her. Coming from a family of law enforcement officers, I was skeptical of how she would work out in her new career but I liked the story and the characters. I truly loved how the secondary characters were developed as I know we will see them in the future. It is also good to see old friends from the Edge of Heat series. All in all, I loved the book and look

forward to the next one.

\*As an advanced reader, I received this book free in return for an honest review.
