London Miller

White Rabbit: The Rise London Miller

As an investigative journalist, Karina Ashworth's job involves delving into New York's black market of criminals and mischief where sin is almost too tempting to ignore.

When she crosses paths with a man whose smile is a little too cunning—and his power a little too vast—she learns very quickly that dancing with the devil is far more enjoyable than she had ever imagined.

But Uilleam Runehart is not at all what he seems, and as a notorious fixer with a thirst for power, he'll do anything to obtain his title.

Ruthless.

Sinful.

Seductive.

How much would *you* pay to be a king?

Alina says

Interesting, will give more in depth review based on book 2

Ari Reavis says

I really enjoyed this book. Trying to unravel the mystery that was The Kingmaker and His Queen. Uilleam was a man on a mission, and I loved trying to figure out his endgame and the lengths he would go to to get what he wanted, and one of the things he wanted most... Karina. He didn't stop until he got her and I was beyond excited each time he suddenly appeared in her life.

Karina was strong and had a mystery of her own going on, not to mention being an extremely good journalist. She spoke her mind and stood up to Uilleam, which only served to make him even more attracted to her.

Their scenes were electric, their moments filled with mischievous smiles (mostly Uilleam on this one) and sexual tension.

There was action, lots of scheming, and lots of romance. I definitely want to go back and read the others book to see what part Uilleam and Karina played in them. I can't wait for the next book.

Little Steamy Reads says

White Rabbit is a hit title, because during reading this book you feel like you've actually fallen into a rabbit hole. London Miller can create such an amazing background for her stories that you land in a different time-space. Something beautiful!

Welcome to the criminal world in which the game of power is being played. In a world shrouded in mystery and danger. It's said that love can be found in the strangest places. Uilleam and Karina found their right here.

Uilleam, the notorious Fixer is a figure known among criminals. Legend has it that at the right price he's able to get rid of all your problems. You just have to pick his interest. However, the man has more ambitions and wants to climb higher on the criminal ladder. Unfortunately, with his next "job" Uilleam finds a small obstacle in the form of a beautiful Karina, who is determined that the person responsible for the crime will suffer the consequences ...

Karina is a journalist and apparently leads a normal life. When a new topic is assigned to her, the woman begins to draw her own theories and thus finds the secret of the mysterious Fixer. Only is she ready to dance with the devil?

Captivating. That's what the story described in this book is. The plot is simply addictive and the characters

are fascinating. I adore Uilleam. The man is cold, composed and calculating, as well as set to his goal and persistent in his efforts. Karina, in turn, is a hard and extremely bold woman. Despite the awareness that the situation is very dangerous, it doesn't cease in her activities. And the chemistry between these two ...whoa! Although the feelings developed here slowly, through ¾ of the book I felt surrounded by the heat of these two.

White Rabbit: The Rise is definitely an addictive read. It's lightly written, the plot is all-consuming and the author's style makes the pages turn themselves. The whole book is perfectly polished, there are no unnecessary dramas. I hope very much that the author will take pity on me and I will not have to wait long for the continuation of this story. I feel completely unsatisfied! I need more!

*ARC received for an honest review.

A Klue says

From personal experience, I know just how mind blowing it is to be taken completely off guard by something you don't expect, such as a white rabbit appearing out of nowhere. You see, once upon a time I looked out my kitchen window to see just that in my backyard. After blinking and shaking my head several times, it was still there, folks. Now I was tasked with the tricky job of catching the big guy, so he could be returned safely to his wayward home. Not to worry though. It all ended well. Turns out he belonged to a nearby neighbor. I'll never forget how crazy it felt though to go door to door asking people if they had lost their white rabbit. Yeah, some of them likely thought I had lost my mind.

To say I was at a loss for words when that happened would be an understatement. Once again, I'm finding myself caught off guard trying to pen my thoughts to paper on White Rabbit - The Rise by London Miller. It started off unexpectedly like a detective/murder mystery type read, but the reader actually knows upfront what has happened. You end up watching Karina and Uilleam, the main couple, circle around each, all while ultimately falling head over heels in love.

There are twists, turns, and several secrets tied up in this storyline, my fellow romance book loving friends. That doesn't even include the hints of underlying subplots and interesting sub-characters that are likely to be further revealed as this series continues to unfold in future books. Just know this main couple both have very complex pasts and backgrounds that are very likely to collide and possibly even crash and burn temporarily.

So venture if you dare down this complicated, criminal rabbit hole with Karina and Uilleam, as they are sure to have to deal with more than one devil to secure their future and happiness.

Title: White Rabbit - The Rise, Series: The Kingmaker Saga (Book 1), Author: London Miller, Pages: 389, to be continued ending, some very steamy scenes after 60%, criminal backdrop, both have complicated pasts, past child abuse, great subcharacters, intricate plot put into motion, virgin heroine, no OW drama, one OM seems interested in her, no cheating, romance safe.

(I voluntarily read and reviewed an advanced reader copy of this book. All thoughts and opinions are my own. I was not given any payment or compensation for this review. There is no affiliation or relationship between this reviewer and the author/publisher/PR firm.)

Julia says

This was fantastic! A diamond in the ruff. Excellent character development and world building.

You know whats really refreshing? When an author creates a hero that is an alpha but isnt a domineering asshole. When he exudes sexual confidence every time he enters a scene but doesnt come off as a manwhore. When he's clearly an anti hero but still treats the heroine with massive amounts of respect. THAT is what I want to read.

The heroine was just as fantastic (even if she was a virgin.) She was cunning and smart and could hold her ground against the hero. How many books have you read where the heroine is duped over and over again by the H and made to look like an idiot? Stutters and blushes all over the place until shes a puddle of estrogen. Not this h- she was exactly what I look for in strong female characters. She had a strong, subtle grace to her character that seems like its hard for other authors to pull off.

Recommend to all who want a solid safe read.

Safety:

Slight OM drama.

No OW drama (in fact, you dont hear about his sexual past at all. Its not even mentioned in passing.)

No cheating. No other people after they meet.

No pushing away from the h. The h initially pushes him away but shes making him work for it.

Heroine is a virgin.

Bethany-Kris says

This is by far--BY FAR--London's best work. Ever. When she brings out all her skills to play at the same time, what you get is White Rabbit. I feel like she has been waiting to write this series for so long, to go back and show everything, that it just fell onto the page like a movie playing out.

This series is standalone. You can go into it knowing nothing--having never read a previous book of London's, and I think that's exactly what any new reader to her works should do. Start here, see the talent and the skill of a craft too many lack working on the page, and fall in love.

Fall in love with a man who was given his name by a woman who simply wanted to find out who she truly was without the influence of others. Find out how they fell in love ... this book was amazing.

You're not ready.

Jessica Denny says

5 Brilliant Blazing Stars!!!!

London Miller is the Queen of intrigue. Kit has been dethroned as my favorite! Uilleam is truly the King! This book has been my most anticipated read of 2018. While it can be read as a stand alone, to truly get the experience of Ms. Miller's writing, Den of Mercenaries should be read first. In that series, you get glimpses of Uilleam and Karina's story. This book was everything! From the dedication page "For Uilleam, Your time is here." gave me all the feels that this book was going to be unlike any Ms. Miller has written. Goosebumps!

Karina Ashworth is an investigative journalist working on a story of an apparent suicide. During her research she stumbles upon Uilleam's name and the cat and mouse game begins. I loved that Skorpion was in this book. It just felt right and almost nostalgic. Orion was an intriguing character that I was fascinated with. Gah! It's so hard not to give spoilers! I savored this book. I wanted to stay up all night and read, but I paced myself so I could continue to enjoy this story. I need the second book STAT! This is London Miller's best work yet.

Eve Recinella (Between The Bookends) says

GAAAH...this book was all kinds of **AWESOME**. I've been dying to know more about the Kingmaker (Uilleam Runehart) and Karina (Belladonna) every time they popped up in one of this author's other books. So to say I had high expectations would be an understatement. However, expectations seem to be getting the better of me lately, with several books falling short in that regard. Let me just say that wasn't the case here **AT ALL**. The writing was fantastic. The pace was pretty much perfect. The plot was super engaging and intricate.

This was quite a slow burn, but this couple's on page chemistry was **OFF THE CHARTS**. And once we do get to the sex scenes, they were **HOT**. There is a good cast of secondary characters (Orion being my favorite). I wouldn't say that this was a particularly angsty book, but if you know the history between these two then you know what is coming and it made my heart hurt to think about that (sniff). Both the main characters were extremely likable, well developed, and intriguing. Last, this one ends on a cliffhanger (with four more books to come). So do be aware of that.

SIDE NOTE: I want to give Miz Miller an extra shoutout because I greatly admire an author that can write a book(s), a **FANTASTIC** book(s) with little to no other women drama. There was not a **SINGLE** mention of the heroes past sex life in this book. No over the top crazy other women throwing themselves at him. No other women causing ridiculous drama. And most of the books I have read by this author have been like this. It is refreshing, to say the least. So I'm giving you a standing ovation London Miller (lol).

BleuBelle says

Beautiful story, beautifully written.

Totally safe book. Hero isn't a manwhore. There's no mention of any other women/relationships at all. He doesn't even look at another women. He doesn't need women to "relieve his stress" or to have as "arm-candy". He doesn't even have a secretary. It's just him and he only sees and wants the Heroine.

No cheating, no separations (only a physical one for 2 weeks), no push and pull. Hero isn't domineering, doesn't force or tells Heroine what to do. He's a bit jealous, but that's totally ok in my book. Possessive in the most sexy way.

There's a bit of drama at the end, and I feared for the worst. But thankfully the author didn't need to go that way. Hero doesn't leave the Heroine because of a "misunderstanding" or because of "hurt feelings". No he waits for her, demanding answers and then he sees for himself, that he was in the wrong and even apologizes and everything is resolved. No unnecessary drama.

And I loved that the Heroine didn't have a overzealous BFF who tells her to go out and get laid already, because that's the solution of all the problems.

Now I'm awaiting (not so patiently) the next book in this series.

?Julia ~ The Romance Rebels ? says

4 Kingdom Come Stars

London Miller strikes again with this sexy and intrigue rollercoaster romance that will make you're heart WEEP! The Rise is just the beginning of going down the rabbit hole of Uilleam and Karina's epic story.

So many secrets and betrayal at it's finest hour. The slow burn oozed chemistry that left me wanting more. These two have history, one that left both their hearts broken and beyond repair. With Rise: we see the whole truth.... the beginning of the end.

Uilleam is the kingmaker, a man who is both feared and desired by many. He is judge and executioner. No one is safe.... and one night will change everything.

GAH can't wait for book 2!

Butthisbook says

This was my first London Miller book, and after finishing White Rabbit, I sat there wondering why I haven't read this author's work before. I really enjoyed this author's writing, it was refreshing and plan to start her other series soon.

I will say though that the first half of the story took me a little while to get into. It had a bit of a slow start for me, but once I hit that 50% mark I was completely hooked. I couldn't get enough of Uilleam & Karina.

Another thing I noticed was that I kept feeling like I was missing something, as if I should have gone into this story already knowing who Uilleam & Karina were. Since this as my first London Miller book, I quickly found out that these two characters were introduced in another series. So, I'm thinking maybe this was the reason why I felt like this. I probably should have read the other series to have me properly invested in White

Rabbit. Idk if I'm making any sense right now lol but just know that I enjoyed this book and plan on reading all of London Miller's series. I also can't wait for book two of The Kingmaker Trilogy.

Gonewiththeromance says

White Rabbit: The Rise is one of my best reads of this year. I honestly don't know how London is doing that kind of magic. Anytime I pick a book by her, I feel like it's a 3D movie for my vivid imagination and my participation is crucial. Her writing style is flawless, her stories and characters overwhelm me ALL THE TIME.

I haven't read all London's books, but her collaboration with Bethany-Kris felt me speechless. The Season of Betrayal is one of my all time favorite mafia trilogy. Then I moved quickly to Acquainted and again it was a piece of perfection. I managed to finish Volkov Bratva and she announced The White Rabbit and I was practically screaming with excitement. As you may assume, I went completely blind with Uilleam's story. Let's start with two simple names: Kingmaker and Belladonna. Who in the right mind won't be intrigued by these two names?! This whole book was brilliant start to the awesome series, I enjoyed both characters way to much, their interactions, dialogues, slow-burning mutual attraction, all these elements together created the unforgettable experience. London is that kind of author who always keep you on edge but at the same time gives you well developed answers, clearly explains this or that decisions. Although, this particular story left with a vast amount of unanswered questions and theories about what's coming next. The anticipation level for the next book is already killing me.

My applauses to London. I love that creative mind of yours.

Greta says

ARC provided in exchange of an honest review

Questa é l'ultima volta per me che chiedo un ARC. Perché alla fine non va mai bene.

White Rabbit The Rise era partito benissimo, adoravo l'atmosfera e i due protagonisti, Uilleam e Karina, ma poi é andato tutto scemando.

Innanzitutto, ci presentano Uilleam come il peggior criminale che ci sia, un noto "Fixer", da cui é meglio stare lontani perché oh mio dio, é pericoloso e blabla, ma invece non l'ho trovato per niente così, di Karina si innamora praticamente subito, e lei idem, nonostante sia l'uomo su cui sta investigando e che dovrebbe portare alla giustizia.

Era abbastanza lungo per essere il primo libro e secondo me tante pagine potevano essere tagliate con l'editing perché sinceramente me ne frega poco di vedere questi due a grattarsi la pancia a Parigi mentre lui pensa ad un piano per liberarsi di un noto boss per prendere il suo posto.

Ho adorato Acquainted e non vedo l'ora di leggere i libri degli altri personaggi conosciuti in quel libro, ma la serie Kingmaker non credo proprio di avere la forza di continuarla, un vero peccato.

Genre: Romance

Standalone or part of a series? Libro 1 della serie 'The Kingmaker'

Rating: 3 stars

Nikki says

This book was so worth the wait. Everything about it was what I wanted. I was biting my teeth waiting for the bomb we all know that is going to go off. I know book 2 will have a boatload of angst and I am so excited. I missed London's writing so much and am happy to read anything by her.
