## **From Reader Review ?????? 10 [Enen no Shouboutai 10] for online ebook**

### **Jeremy Martin says**

This manga is soooooo goooooood. There is some cheesiness to it, and a plot that sometimes feels drawn out, but I am hooked all the timeeeeeee.

---

### **ReadingFrog says**

3.5 stars.

---

### **Evelyn says**

Alright, my brain is starting to hurt because I signed up for some awesome fire fights and got three science lessons instead. And high level science too. Sheldon Cooper level science.

But this volume was so good even if the explanations were a little confusing.

The only other complaint I have is that the edition I read had some misprinted pages so I had to go online to fill in the holes. GET YOUR ACT TOGETHER KODANSHA!
