### **Levi says**

in Vol. 3 the peater 4 virus is back and has taken over saati and has her in his control. its a race to see if toenii and hitoshi can save her and bring her back to her sences before she hurts someone or her self

### **Karl Kindt says**

The original concept is funny and entertaining in this series, but it quickly tanks in this volume. I will not finish reading this series. I can handle silly fun, but this is just dumb. Sgt. Frog is silly and smart, by contrast.

### **Sianeka says**

Volume 3 of Ken Akamatsu's romantic comedy series. More of the same, this time around with Saati developing more human emotions (there is an episode with a cute puppy). This volume introduces us to rival programmer Billy G, the creater of the Peter 4 virus. There are also adventures at a ski resort, and Saati and Hitoshi actually get some alone time in a hotel!

If you enjoyed the previous two volumes, this book will keep your appetite satisfied for the continuing adventures of the A.I. Love You clan.
