## Arynn's Chosen Mate: Bad Alpha Dads Elle Boon

They say blood is thicker than water, but a bond that's chosen is stronger than steel. Nothing and nobody can sever those that are forged between ones chosen family.

They say love hurts. For a shifter who thinks he's lost it all, it's more than just a saying, it's a reality. When Arynn is finally reunited with his daughter and finds the one woman created just for him, he swears love does hurt, but it's a feeling he would give his life to experience.

Family is supposed to love and cherish one another. Sheila never had that growing up. When she became a mother of not just her own child, but her twin sister's as well, she vows to love them more than she'd ever experienced.

When you find love that's worth fighting for, you grab it and hold on tight. Families don't always have to be blood, sometimes ones that are chosen are even more special as they are forged in love, instead of duty.

Can Arynn and Sheila along with their two girls finally find peace as a family, or will the darkness from their past destroy the goodness they're creating?

Warning: Contains a sexy hero who feels EVERYTHING and a heroine who loves him even more. Lots of growly men, a crazy Fey Queen and her woliars. Oh and HELLBOY. #DONTLOOKDOWN

### **Yvonne Daniels says**

Arynn's Chosen Mate: Bad Alpha Dads Iron Wolves MC Book 8

by Elle Boon

???????????

Excuse me while I pour out my feelings for a minute, I absolutely love the world of Iron Wolves that Elle Boon has created and every single one of her characters is so captivating, exciting and fantastic. OMG! She can put in so much humor and blazing hot scenes into each book with warmth and romance plus she still manages to insert the magical elements with satisfying human conflicts. The Iron Wolves MC Book 8 is a phenomenal read, but Elle has written a world-building story that is more Fantastic its so awesome I think it should be found in Paranormal and Fantasy genre her books fits both. This series is awesome for both Fantasy and Paranormal readers that likes to put a toe into the mystery pool, but I would urge any reader to give this series a try. Reading these books will make you feel like a great coming home to good friends and family and I am always excited about every visit Elle can give us. All the characters are wonderful, exciting and lovable, what I enjoy about them is that their best trait is that you can relate to them so easily. Readers can understand what Arynn is feeling about Sheila actions that makes them so believable with the ring truth. I enjoy the relationship that Sheila has with her daughters and how each one has their own individual strengths. I am happy to see the development between Arynn and his daughters and I enjoyed learning more about Arynn powers as well. Sheila also come into her powers, but I like that she also receives some much-needed knowledge and understanding as well about her mother and twin sister. Their mate bond is finally free but I understand how emotional this can be , but they are still strong at the end. Now on to my most favorite fey Jenna. She is still a bad\*ss Fey now her babies are sure to make for an exciting story to tell. Now I really really enjoyed the mythological aspects of this book and appreciated the depth that it brought to Iron Wolves MC magical community. The twist with Arynn and Sheila is incorporated so well and I liked the way the story brings the relationship between Jenna and her mates into the story. There is drama, mystery and suspense. But the laughter and tension is still high until the end and I enjoyed every moment as their relationship unfolds. I enjoyed Lula and I know she is going to become a force to be reckoned with and I cannot wait to watch her get there. I don't know how many more books Elle is going to write in this series, but I'm so keeping my fingers crossed that we end up getting a lot more in this series. But I will end this review with this Elle Boon Books have brought more laughter and joy into my life. I realize that this Fantasy but I will encourage you that if you need some Laughter and fun to take your mind off things that you can't control, pick this book Arynn's Chosen Mate: Bad Alpha Dads, Iron Wolves MC Book 8 for few hours of laughter and joy to escape even if for a little while. As the saying goes a Laugh or two a day will give you a long and happy life. Thanks to Elle Boon for bringing such LAUGHTER AND JOY INTO MY LIFE with a book. This is a phenomenal read and I highly recommend it!

### **Ana says**

Three For The Price of One!

OMG there is never a dull moment with the Iron Wolves!

Arynn's Omega powers never let him in on what would turn out to be the most memorable night of his life,

not because of the female in his arms, but what came out of it all. What had always escaped his grasp was now 12 years later at arms length and he would not let it get away this time. He would spend his life making up for the lost years as a father and mate. Fate has a funny way of working as Arynn soon finds out.

Crazy Queen Fae Jenna, her mates and Lula the pink dragon come together to help the Iron Wolves in their fight against the evil that would tear Arynn's family apart. I love the quirkiness of all these wild and crazy characters.

### **Marie Brown (Marie's Tempting Reads) says**

Marie's Tempting Reads ARC Review:

After finishing Arynn's Chosen Mate, I had to take some time to process everything. Not because it was bad. Heck it was FAAAAAR from bad. It was MIND BENDINGLY EXCELLENT! I had to process it because I never in a million years, thought in anyway, shape, or form, that this book would outshine EVERY OTHER BOOK Elle Boon has written so far. Really I didn't expect it but that is EXACTLY what happened with this story!

I wasn't prepared for Arynn's very delicious Dom side. He was INTENSE....IN THE BEST WAY IMAGINABLE! He was commanding, protective, heart swooping sexy and I could FEEL my panties getting damp from his dominant ways. But he was also wonderfully caring, sweet, fun, a excellent protector and he really made for one amazing father. Sheila is a really great heroine. She is smart, so sweet, beautiful, spirited and is up for ANYTHING Arynn wants to give her. Their romance made my belly swoop and my heart sigh add in the HIGH OCTANE, WILD AND CRAZY ACTION and BRILLIANTLY FUN BANTER, AND MIND BLOWING TWISTS and we get a story that really did blow me away. I. FREAKING. LOVED. EVERY. MINUTE. OF. THIS. BOOK.

Arynn's Chosen Mate gets MAJORLY KICK-BUTT, THREW ME A HECK OF A CURVE-BALL FIVE SHOOTING STARS!

---

### **Mona Livsey says**

#### **Another Winner for the Iron Wolves MC**

Absolutely love the plethora of characters in Elle Boons books, the amazing Fey Queen with her Wolpires, Creed aka Hellboy, the amazing Iron Wolf himself, Jenna's amazing Dragons and of course the MC's very own Wolves. Now we add to the family again as Arynn finds his true mate and adds to his family with not only his blood daughter, but a heart daughter as well.

This read was fantastic, I finished it in one sitting, I could not put it down!! The action and humor found within this read was an absolute hoot! If you are looking for your next amazing read, you need to get this one! Well Done!?

## **Megan says**

\*\*\*ARC provided in exchange for an honest review- Megan/Scandalous Book Blog\*\*\*  
?????

So I've spent the weekend binge reading everything Iron Wolves/ Elle Boon and now am so in love with this book world that she's created. Seriously, have I been living under a rock? I guess so..Anyways, I digress...Arynn's Chosen Mate and this entire series is SO good! Wolves, Fey, Wolfpires, Dragons & all the alpha super natural goodness. Gah! ?

I can honestly say Arynn's Chosen Mate is my favorite book so far in this series. Arynn felt that he has lost everything..the chance for a mate and most importantly a relationship with his daughter so when his daughter's aunt Sheila reaches out to him for help; he jumps at the chance. Not realizing the dark forces that had been set into motion pushing him to him walk away from his daughter and his true mate all those years ago. Sheila has never felt like she's belonged; she is guarded but after everything she's been through she is still so strong. She has raised not one but two daughters on her own, put plans in place to protect her family and thought she was prepared but what she wasn't prepared for was Arynn and their connection. Can these two overcome their pasts, conquer the darkness and finally have the family that they both truly deserve? Read Arynn's Chosen Mate & find out! ?

---

## **Carolyn Brown says**

### **I just love Arynn....**

When the Omega feels all emotions it's hard to trust your own as being true. When a one night stand leads to years of heartache and loneliness there is not much you trust or believe about yourself anymore. One phone call changes all that. What Arynn finds is so much more than he could ever hope for, let alone feel he deserves, life will never be the same. Of course the Iron Wolves have Dark Fae, demons, and who knows what else to face to help Arynn with his happy ever after.

Dragons, Hellboy, Wolves, Fae, Vampires. Elle gives us them all and definitely does not disappoint. Can't wait for book 9

---

## **Guilty Pleasures Book Reviews says**

I love that Elle Boon brings us stories that are fun, interesting and sexy even when there are serious matters going on. She has characters that will make you laugh out loud, put a smile on your face and just let you enjoy the story. Arynn's Chosen Mate was a little bit different but it was truly enchanting and mesmerizing.

Arynn knew he met his Mate but was totally confused as to why his wolf would not claim her, wanted nothing to do with her. He knew he had a responsibility and it killed him that he was forced to walk away.

But, 12 years later, with one phone call, everything became crystal clear. He knew there was something wrong. Now it's time to fix things, erase the past, the people that caused this much pain and suffering and, finally claim his Mate.

Sheila was an amazing woman. Living a life of lies, of felling "less than", with a mother who was pure evil, a sister that manipulated everything and everyone she comes in contact with, she survived and raised two amazing girls, Rebel and Romie. One a shifter, one a fae. One who has no idea what is going on with her body and the other who feels like she may not belong. As the evil starts coming for them and the truth comes out about everything, the last thing that Sheila was looking for happens. But, she knows this is right, she feels it. Now it's time to stand at his side and fight for the family that she loves.

Wow, everyone is back including Jenna and her Wolpires, all the Iron Wolves and Don't Look Down Creed. Yep, I renamed him. And, now our little Lulu is even getting involved with everyone. Gotta love a dragon that goes against her mother and the Queen of the Fae and does her own thing. But, like usual, everything turned out just fine if not a little singed. And, I loved that the saying "Ashes to Ashes and Dust to Dust" became the absolute truth for Susan the bitch. But, what I absolutely loved, adored and worshiped about this story was Arynn ... he was the sweetest, loving, caring man that I have read in a long time. How he took his own daughter into his life but Sheila's daughter as well and made sure she knew she was loved, cared for and part of the family even though she wasn't a shifter or of his blood ... just stole my heart away. He was just unbelievable.

So, Elle Boon, thank you so much for giving me Arynn and a beautiful love story. Thank you for giving us light and funny, sexy and serious, touching and loving stories. Looking forward to more.

### **Spunky N Sassy says**

Spunky N Sassy Rating: 5.0

~~~~~Julie's ????? Review~~~~~

This book was phenomenal. The storyline has all parts that a great books needs. Arynn has a daughter but he can't have anything to do with her. All that changes when Sheila calls needing him. She has raised his daughter because her disorder wouldn't. The chemistry between these two is awesome and the love he has for her and the girls shows exactly the kind of man is he. Sheila doesn't know what to think but she is grateful that he is willing to keep them safe. Excellent writing. This series is a must read.

---

### **Margie says**

Something wasn't quite right that night many years ago. Arynn's wolf reacted to the beautiful blonde who entered the club arm in arm with another blonde. Why was Arynn's wolf sensing a mate? The sexy blonde made eye contact with Arynn and then made her way through the crowded club towards him. Almost in an instant they were hooking up in his truck. Immediately after the hook up the sense of a mate faded. Six weeks later the phone call came. The beautiful blonde named Sarah was pregnant with Arynn's daughter.

Fast forward twelve years later and Arynn gets another phone call. This time the call is from Sarah's sister,

Sheila, who claims Arynn's daughter Rebel and her own Romie as her daughters. This call is her S.O.S. to Arynn. Upon arriving at Sheila's house the action begins. Evil is lurking and Jenna, the Fey Queen and her two wolfpire mates rush to the rescue.

Elle Boon's well-thought-out plot races across the pages as action and surprises sprint to the very end of her tale. Familiar characters from earlier Iron Wolf stories make numerous appearances. Alpha wolf, Kellen, is a major player as he first welcomes new pack members Sheila, Rebel and Romie to his pack and then throughout as he protects his new pack members. Fey Queen Jenna also appears throughout the story along with other familiar characters from the Fey World. It's great fun to have these characters together again. We even get to see HELLBOY again! Sizzlin' hot! #DONTLOOKDOWN I'm sure Elle Boon's readers will greatly enjoy seeing them all again and watching them lovin' & fightin' along the way.

Arynn's Chosen Mate is book #8 in Elle Boon's Iron Wolves MC series. This author amazes me as each installment in this series gets better and better. I patiently anticipate (or maybe not so patiently) what comes next in that fertile, imaginitive brain of hers. This author never disappoints! You go, Elle Boon, give us your next treat soon!

---

### **Angela says**

I have loved every story in the Iron Wolves series, but I think that ARYNN'S CHOSEN MATE might just be edging out at my favorite in the whole series now!

Arynn thought he had found his mate years ago, but after one night he knew he was wrong. What he didn't expect was that a miracle would be created that night. One look at his daughter and he knew what love was, and he knew that he would do anything for her to have the life she deserved, even if meant that he was not in it. But things are not always what they seem, and now hot only does his daughter need him ... but so does his mate. It is time for the Omega to show everyone why it is stupid to cross him and come after those that he loves!

I really didn't think that I could find another character of Elle's that I would connect so much with as I did Kellen and Creed, but Arynn has created his own slot in my heart. His love knows no bounds and he totally shows his love to those that he cares about and shows by he is a Bad Alpha Dad!

And Sheila, WOW! This woman is so freaking strong. She came out of her past and showed that she could survive. But now she needs some help because things are coming out that have been hidden.

This book has it all. Danger, passion, lies, betrayal, and a never ending love that was beautiful to read. I got to meet some of my favorite characters from previous books and see more interactions with the Iron Wolves as a whole. And my woliires made an appearance with my HELLBOY!!! Love me some Creed!!!!

If you are a fan of paranormal and hot as hades alpha males, then take a chance with Arynn and you won't be disappointed!!

---

## **Sissy's Romance Book Review says**

Arynn's Chosen Mate by Elle Boon is book 8 in the Iron Wolves Series. This is the story of Arynn and Sheila. I felt this book is easily a standalone book.

Arynn had a one night stand with Sarah who is Shelia sister about 12 years ago. Sarah and Shelia came into a bar that Arynn was at. Arynn wolf thought that Sara might be his mate but the wolf had misread the signs. Now all this time later Sarah is dead and Shelia contacts Arynn to ask for his help with his daughter that he hasn't seen before. Shelia too has a daughter just 4 weeks age difference from Arynn daughter which Shelia raised them as sisters. When Arynn comes to meet his daughter he learns why Shelia needed him to help them...and it seems that Shelia is his mate.

Exciting read!

---

## **Tamara says**

Best book I've read in quite a while. Lulu absolutely cracked me up. "Lulu looked through the television thingy. Jenna was busy making babies with her mates, which totally befuddled Lulu since she already had two in the stomach oven. 'I just don't understand these people. That Zander Mother- ahm Carmichael is always practicing. He should ask Kellan how to make babies since he made four at once. Now, Jenna is still doing that making babies, all the time, and she has two already made in her tummy.' she muttered to herself. 'Also why would Xander's parents give him such an awful name?' She'd have to have a talk with them next time she was on Earth. Parents didn't understand the ramifications of their actions, especially naming a child such a deplorable name as Mother- F ing Carmichael."

Rebel was feisty as He..ck, and Romie was a cutie. Arynn and Sheila aren't too bad either. lol

A good story with lots of action and emotion- but the humor was really enchanted me in this one.

---

## **Michelle Hughes says**

Arynn has a daughter who was created from a one night stand, but never forgot about, because the help of the mothers twin sister. Luckily, he never knew she would be the surrogate mother to his daughter Rebel. Many years passed an an unexpected call to Arynn he cane a running to find a young preteen and the lady who raised his daughter.

Sheila was a twin who was treated poorly by her mother and sister. She was treated well by her father, but that was short lived. When her twin set eyes on Arynn at the MC just to get pregnant and to steal a man her sister was interested in was so humiliating. Nine months later Sheila would be mother to the child because her twin and husband died in an automobile accident. Luckily, her having a child already a month prior she would raise them as sisters.

Many years later Sheila mother who was Dark Fey wanted both granddaughters. Sheila would move, but she would find them. When Rebel started puberty Sheila knew she needed Arynn help. Luckily it was perfect timing. Little did she know she would find the man who would heal her heart.

Arynn knew in order to save his new family he would need the help of his fellow wolves, plus a Fey, and many others. Can Regrl and Ronnie be saved fir the darkness of the Dark Fey Queen- their grandmother?

Will Arynn protect what he holds dear or will he lose the ones closest to him. Can Sheila save her babies from harm?

Must read!

---

### **Crystal Watson says**

#### **Wolves, Fae and Dragons oh my chickens.**

I absolutely loved this book. Y'all this author has absolutely outdone herself on this book. The world she creates you can't help but want to jump in with both feet and get lost in these characters. Wolves can only have children with their true mates. So what happens when you get someone pregnant that isn't your mate? That's what happened to Arynn. Arynn is an omega and can usually he keeps tight control of his wolf but in this time he loses control and a baby is conceived. Sheila's got trouble coming her way she needs help the only person she can turn to is her nieces father Arynn. She's raised her sisters child as if it were her own always keeping Arynn out of the picture. Now it's time to call him the trouble coming for them is more than she can handle. The dark fae are coming for her children and she needs to keep them safe. But will calling Arynn be her biggest mistake or her best ideal ever? Arynn knows as soon as he sees Sheila that she's his mate. It's his daughters mother twin sister what was the universe thinking. Not only has she been raising his daughter all alone but hers as well. That'd about to change cause Arynn claims all three. When the dark fae track them to the Iron Wolves the whole pack and then some will have to stand together to save his mate and his children. Omg y'all this book was hang on to the edge of your seat good. You won't be able to put it down once you start. So grab a copy hang on with both hands as this book will take you for heck of a ride.

---

### **Rhonda says**

This is one of Elle's best books yet. I love her Iron Wolves MC series and this story is just out of this world freaking good. Arynn and Sheila have a hard battle ahead of them because of members of her family who have kept secrets from her and her daughters. When Arynn comes to her home at her request to find out about his daughter, he feels things that don't make any sense. He was "brainwashed" into leaving his daughter all those years ago but now nothing is going to stop him from getting to know her. Will the secrets they both are hiding destroy them? Will her family finally get what they want through the girls? Oh, this intrigued me so much. I really, really loved seeing all my Iron Wolves and their mates, from the previous books show up to help this newly formed family out. Creed and Coti? What can I say, I need Coti's story now. When you go to read this book, just make sure you are not going to be interrupted because it's going to be hard to put down. Best book so far Elle!!! Keep it up!!

---
