Baymac Susan A. Bliler

****Book 13 in the Skin Walker series. This book can be read as a standalone.**

Grace Rowland is on the run from an abusive ex-boyfriend. Her decision to move on couldn't have come at a worse time because the blizzard blasting the state has made it impossible for her friend to retrieve her from the small town she's holed up in. Assured that someone is coming for her, Grace is leery as all hell when a sexy behemoth arrives and claims to be her transportation.

Baymac Southon, Skin Walker Sentry, is pissed at his most recent assignment. Retrieve a human and escort her to the wolf shifters in Glacier? Puh-lease! He's too damn skilled to be wasting his talents on such a pathetic mission.

Between picking up Grace and getting her through the storm, Baymac's protective instincts quickly grow to something much stronger. Familiar with Dominant Walker, Monroe StoneCrow's games, Baymac tries to fight his attraction to the human woman, but when he finds out that she's going to the wolves so they can find her a mate, feral possessiveness clouds his judgment.

Wolf shifter battles have been scheduled and Grace is the prize. Baymac needs to decide if he's going to deliver Grace to her awaited fate or keep her for himself.

No cliffhangers

she was running away from s abusive man and while going to a friend the friend sent a big man to take but the fell in love and he was to stubborn but fate has a way loved all her books

sharon e hochstetler says

Great.

i can easily say the skin walkers is my favorite series. Grace is a very sweet person. she loves the simple things in life. im not sure when the affliction started delaying causing the walkers to doubt their Angels and almost loosing them. Recker is a great name. Monroe is still a sneaky worm but at least it is usually for the good of his people. cant wait for the next one!!!!

Samantha says

Another winner

Well. Don't we all want a Skin Walker now? Lol. I've been following the Skin Walker series from the start. Love the alphas all these men are. I love when they find their Angels and get afflicted. I think we all want that. Lol. Anyways, this was a good read. Keep them coming, Miss Bliler.

Abigail says

Ellena deLeon says

This book was artfully crafted and uniquely designed to pull you into the pages where secrets and fairytales live and dreams come true for those who believe!

This book was enchanting, enthralling and endlessly entertaining where stubbornness and determination to rise above conflict with a core of steel to get to where love and happiness lives! Batmac and Grace's story is one of commitment, unity, loyalty and the gift of a love so pure that it will take your breath away and catch

you off guard by how riveting and intensely personal where that love triumphs and transcends all boundaries between two people who are meant for each other!!!

[At first he went on about wanting to mate a strong skinwalker woman, then I think he didn't want to get close to someone who wasn't his angel (hide spoiler)]

Great book

I just discovered this author and I am scarfing up her books as fast as I can. The skinwalker world comes across as believable and the characters are engaging. The story moves forward with action and excitement. I highly recommend this book

Swray03 says

I wanted to not like this little Christmas romance novel.....totally not my style.....but damn it.....it won me over.

BookPauper says

I read three of these in one go so, for the most part, the stories are a bit blended together. That's not a bad thing. These type of books scratch a particular itch I get. Big alpha man meets his "one" and becomes completely focused on her happiness and wellbeing. It's a quick read and a little formulaic but still sweet and there's a HEA. Not bad.

Aureliana Marina says

5 stars for this gorgeous story. Susan did a great job, like she always does with her books. My opinion about Baymac is that he is much naive than Grace and a bit stupid. He fell in love with her in the first seconds but he didn't want to accept it. And that affliction thing it gets on my nerves but in the same time it increases the drama of the story. The author combined very well drama, romance with a bit of comedy and I liked how she mentioned characters from her other series.

Dear Susan when you will have giveaways tell me. I love your books and I will fight like a wolf for them. I will be happy to have a shelf only with your books.

Wendy says

story was fun to read. I really like the series, however, I wish they were written longer.

Barbara says

5 stars!!

I've loved this series over the years, but had stepped away for a while. This book took me back to all the reasons I fell in love with Ms. Bliler's Skin Walkers series... Skin Walker alpha, shy, yet feisty heroine, laugh-out-loud wit, and scorching hot chemistry!

I thoroughly enjoyed Baymac and Grace's HEA and look forward to the next adventure in the series!

Recommended!

Great Book

Baymac is a tough skin walker sentry, sent on a mission he feels is beneath his skill level. He is to pick up someone and deliver them to the local wolf pack. Baymac just never realized that someone is a beautiful

woman on the run from an abusive boyfriend. Baymac just wants to get the mission done ASAP and get back home. But a massive snowstorm is going to throw them together for a while, and Baymac is going to learn much more about himself than he ever wanted to know. I loved the characters in this book. This book did not have a lot of action, but the characters and revelations made it a great read. I especially loved the older couple who gave them shelter from the storm. They seemed special somehow. But I cannot put my finger on it exactly. It was almost like Christmas magic.
