Billionaire Beast

Sam Crescent

Billionaire Beast Sam Crescent

Richard “The Beast” Bruce can’t get his super-efficient PA off his mind, but he doesn’t believe in crossing the line with an employee.

Temperance is intrigued by her boss, by his business success and his life as a biker, trying to save victims of human trafficking. Working together late one night, the fire between them burns brighter than ever before, but once it is over, Temperance runs—straight to her best friend, Jay, who is love with her, too.

Neither Jay nor Richard will give up, so they decide to share Temperance, who has feelings for the pair of them. There’s no way sharing two men would ever be simple, but both Richard and Jay are determined to show her how good it can be.

But what will happen when of the MC’s enemies tries to destroy them, just as Richard, Temperance, and Jay start to work out? Can Richard save everyone, and have the two people he has come to care about? Or will he lose it all?

*Dee's Reading Time Matters says

This was book 2 in the Billionaire Biker series entitled "Billionaire Beast!"

I enjoyed this me'nage a trois relationship between best friends, Jay (accountant), Temperance aka Tempe(PA) and Tempe's boss, Richard aka Beast (billionaire).

The men in this story saw something different with spitfire, Tempe and were willing to share her to have both of their desires met. It was obvious that both heroes in the beginning did not like each other but for Temperance they would do anything to have her.

The backstory was that Lewis found Mandy, his longtime love who was kidnapped by sex trafficker ring when they were much younger. He never gave up looking for her and poor Mandy had endured a lot of unnameable things. Lewis was trying to get her to remember the people, etc. which was not to be done in her damaged mental state but the whole point of the backstory was to get human trafficking stopped in their community.

Mandy felt filthy and of no use to anyone so once she got her memory back she planned to go back in and help the thousands of women in this torturous position. However, Lewis wasn't letting that happen even if he had to blackmail her!

The story has a few twists and turns (which I enjoyed the suspense) and made for a really good read!

3.8 smexy and loveable stars

Nicole says

A good read.

Sarah says

Another really good book, but again all of Sam Crescent's books are brilliant.

poppy says

I really enjoyed this one it was so much better than the first one looking forward to the next one

Beth DiLoreto says**Amazing**

Each book gets better and better. This menage is a must read. Boss, employee and best friend. I couldn't get enough

Mandy hawkins says

Another great story to this series can't wait for more

KEESA says

This is the 2nd book in the series. I literally could not put it down. You can literally feel yourself going through the emotions with the characters involved. I would definitely recommend this book to everyone I know.

Rodgine says

Nah. DNF

Lauren says

Billionaire beast is book two in the billionaire bikers MC series.

I really enjoyed this short story, not only is it steamy, but includes action packed scenes.

Richard "Beast" Bruce has wanted his PA, Temperance for a long time, but he has a no sleeping with employees rule. But it isn't long before he is giving in to rule, and having his way with her on his desk – Holy Hotness! Richard is determined to make Temperance his, but what he doesn't count on is, Jay, Temperance's best friend being in love with her. Jay is also determined to fight for Temperance. Richard and Jay soon give in to their fantasies and suggest a ménage style relationship. But with the danger happening around the billionaire bikers, will Temperance, Jay and Richard be safe? Will they get their happily ever after?

Lydia says

I enjoyed this book. This is the second book of the BBC MC series. I recommend reading the first book so it makes more sense. I loved the character development between the two Alpha males. Since they didn't grow

up together and had the same love interest, of course there is friction between them. I loved how Sam Crescent brought out the possessive and ownership feelings between the two males while the heroine put them both in their places. It had humor in all the right spots and some very hot scenes that are, as always, steamy and so perfect. Of course, cannot have an MC series without the bad guys! But they are craftily written in and just don't jump out of the shadows leaving you baffled at the connection between the bad guys and the BBC MC. I loved this book and after I finished I had to go read it again!

Ava says

This one wasn't for me. And maybe it's from :

1. haven't read the 1st book
2. me for sure. billionaire bad boy and added it with another guy. it's not much but not my cup for this time. so it's me.

for me I'm going to summarize, and "beast" billionaire biker in a club. A biker club with club*girls*. He is in lust with his PA and not a one way thing added with a triangular relationship = MMF with ennemis, villains and long lost love (another characters).

Victoria says

3.5 stars

ARC Provided by author in exchange for an honest review

What an awesome story. I loved this series from the previous book. I mean they are bikers/Hot/Alpha/Sexy/billionaires/and they rescue women.

Richard has been watching his PA Temperance but he doesn't want to cross the line of messing around with his employees, but he can't deny it anymore.

Temperance has a thing for her boss but just like she doesn't want to cross the line, until one night when they just can't deny their attraction anymore and sleep together and the sex was off the charts hot.

Only there is a problem as Tempe's room mate Jay is also in love with her and has been waiting to make his move. And not that Richard is trying to stake his claim, he decided to do the same.

So what happens now they both want the same women and neither is willing to give in to the other. So then.... Why not just share her!!

This book was so good, I loved the fact that they are not just bikers looking to live the life, but also that they are doing something worthwhile. And its just going to get better with the next book I know

Sam, really can't wait for the next one.

Thanks for sharing it with me :-)

Jessica Gomez says

Who on earth doesn't want two hot sweet men to rock your world? I know that I would be waving all over the place screaming yes yes yes!!! But these two for supposedly being in love with her since the beginning the both of them were very chicken shit. They both go and screw other skinny women who are bitches. I mean come on grow a real pair and tell and show her how you really feel about her. Don't make her waste her valuable time on pieces of shit.

Heidi says

Two hotties for the price of one... this book is a great read its so different than the normal MC books its just brilliant.
