I honestly can't believe this is a debut novel! I was hooked from the very beginning and I could not put my kindle down. I loved every single word that was written. Rose has a gift for storytelling as I was honestly mesmerized from the first word to the last. This was written so beautifully and the emotions that she portrays in each character was so honest and real that you feel like you are a part of this family.

We meet Erin who is a single mother raising a twelve year old daughter on her own. The relationship between Erin and her daughter Ruth is one of the sweetest and heartwarming mother/daughter relationships that I have read about. Erin is moving to relocate for her new career opportunity and both of them are excited and hopeful that this new transition will be a positive in their lives.

Patrick is a single guy who owns his own boat repair shop. Patrick hasn't had any long term relationship as he has a secret that he isn't willing to divulge to anyone. This kept me on the edge of my seat trying my hardest to figure out this secret.

Patrick and Erin first meet at a local karaoke bar and when they make eye contact each of them can feel a connection to the other. I honestly really loved Patrick and Erin together. Even though they were both afraid to feel vulnerable to the other, they couldn't deny the attraction to the other. They have both been hurt in the past and trust on either side was a huge step for them.

"If there's an answered prayer in this room, it's you."

I would definitely recommend for anyone that likes a beautiful romance with a touch of mystery to one click this one! I have to say that this does end in a cliffhanger and I am anxiously awaiting to read the continuation of Erin and Patrick's story.

"He's the savior I've been waiting on to pull me out of the depths of my darkness."

Omg this book gave me so many feels!! I didn't want it to end and of course it did on a cliffy so now im patiently waiting for book 2!!!Told in dual POV which I love this book will have you gripped till the end then want to chuck your kindle at the nearest wall!!

Erin and Patrick....i fell in love with both characters from the start,shes a mother to Ruth,has a successful job and a circle of good friends but after all the years of being a wife mother and friend she feels shes missing out on life...love maybe?? Patrick owns a boat repair shop with his friend, hes a man of mystery, living with demons of his past,he doesn't believe in love he has one night stands and moves on.He believes this is all hes capable of and all he deserves.Until Erin...a chance meeting at his local bar knocks his world upside down, hes intrigued by Erin,Erin feels the same she cant get him out of her head,hes drop dead gorgeous ,sexy and rugged.The attraction is instant.Both are scared,both are fighting the feelings they have will they open up to each other and admit what they are feeling?

While they have given in to their desires their budding relationship is fraught with problems until a well meaning friend steps up and tells it like it is.While the future is looking like a new start for all of them a face

from Patricks past is determined to put an end to any happiness he might of found.What lengths will this person go to to get revenge and is Erin at risk?

Rose Hudsons debut novel is beautifully written,I instantly connected with the main characters and the secondary characters too.Its a beautiful love story full of passion and love but has a mystery/suspense element to it that will keep you invested from the first to last page.

Id give this book ten stars if i could.Loved it and it will stay with me for a long time.

This is an awesome debut by this author. What an intriguing story.

The characters, especially Patrick, are haunted by their pasts. Patrick's background is especially painful. I really felt heartbroken for him and everything he has endured. At such a young age his life is shattered. This doesn't allow him to experience any long term, intimate relationships with anyone, until he meets Erin. They meet by chance in a karaoke bar and sparks fly between them.

Erin is a single mom going through life doing the best she can for her daughter. She has been estranged from her parents and since her husband's death has not had an intimate relationship with anyone either. Something about Patrick makes her want to take the chance. Patrick is hesitant but eventually they get together and everything is working out better than he expected until his past comes bursting back into his life, endangering his present and potential future with Erin.

I found the story enjoyable although at times it did drag a little for me but that ending was just so unexpected, it left me speechless. I can't wait to see what happens next. I would definitely recommend this book.

I was given an ARC for an honest review.

Received ARC for an honest review

Rose Hudson is a new author for me, I found her through K Webster, entered a competition to win an ARC and boom won one! Thank god I did, as I've just finished a belter of a book (excuse my English slang) and it's a debut book I believe!

Erin and Patrick are our main characters, who both have suffered in the past. I loved Erin which is quite rare as most of the time, female leads really get on my nerves, but Erin is strong, feisty, funny and a great single mum to Ruth. Then we have Patrick and oh boy, this guy has some demons bless him but him and Erin meet at the right time in their lives and when they do "get together" it's hot, realistic and bloody beautiful!

This book is the first of a series, so you are left with a mighty cliffhanger, (I was not expecting that) but we don't have to wait too long for the next installment in September (thank god).

I'm so chuffed I won this arc as I have a new author to follow!

Well done Rose!

I feel in love with this book written by Rose Hudson. Divine Conspiracy melts hearts with Patrick who is a man who doesn't quite feel he is capable of really falling in love with a woman. Patrick has had a rough life and maybe his past is keeping him from admitting that he may in fact have an issue with loving someone for who they are. Patrick is afraid of trying to connect with anyone even really by having a close friend that he tells everything. Then you have Erin who is a single mom to one almost 13 year old little girl who has the beginning of a great fashion career. So as any parent would do she follows the job so that she can provide for her child. But one night she literally bumps into Patrick and something just ignites inside her. But both of them are scared and they can neither one admit what they feel so they both leave and continue with their lives. But can they really just move on? Is there a chance either of them can open up their hearts to someone else? Can they even share their life with someone else around them before their pasts tears them both up inside? This book is exciting and there are surprises at the turn of every page. And when you least expect BAM!BAM! something happens that may change both their lives forever. This book is a must read its full of everything people love in a book. Romance, suspense, plot twists, and more.

Christine says

Rose Hudson's debut novel Divine Conspiracy is a feisty, sexy tale of two people overcoming traumatic pasts to find love. Erin's goal day in and day out is caring for her young daughter who is now becoming a young lady. Every choice Erin has made is to better the life she can give her daughter so when she's given the chance to move to the coast to assist in opening a new store for her boss she jumps at the chance to give a better life for her daughter. On a night off with her co-workers celebrating her 30th birthday Erin can't break free from a tall, dark and very handsome stranger. Patrick doesn't dip his wick in the local pool so when he can't take his eyes off a feisty redhead who gaze holds his own he's hooked and it goes against everything he's held himself up to for the past 16 years. Erin and Patrick both hold the same point of view - they don't do relationships but both for very different reasons. Will they put past issues behind them? Or will the past come back to haunt them?

I've had amazing luck this year with new writers and Rose is a find for sure! I loved this story, hook line and sinker she had me till the end! Beware this will have a sequel but don't let that hold you back from enjoying it now. These characters are written with such care that you want to know more and when you get it you will not be disappointed. I do have to say I didn't see the ending coming at all and for that Rose I tip my hat to you. It's hard to put one past me and you did it successfully. So now I sit and wait for book 2 #WaitingRose - 5 Stars for Divine Conspiracy by Rose Hudson

Wow, just wow. This story will pull you in and tug your heart right from the start. Erin in this story is such my hero as a single mom just trying to make something of herself and always doing right by her daughter Ruth. The daughter of a rock star, and the estranged relationship she has with her family has motivated this military widow to raise her right and keep her life as normal as possible. Moving around has been part of their life. With a new opportunity, she hopes this is the place they can finally plant some roots. She has a good feeling about this one.

Patrick has a past he would rather forget but is hard to escape. Meeting Erin by chance one night just may have changed his life. Can their lives blend, will his past and hers shatter the chance they have? Love will pull you out of the deepest depths, and give you strength you didn't know you possessed when faced with situations.

I need more of this story and see where it ends. Enjoyed reading this new author and can't wait for more from her.

Both characters are scarred by their pasts, especially Patrick. This book is told in dual POV. I absolutely loved both characters.

Patrick is a man who keeps to himself, never letting anyone get close. He had a rough upbringing and has lived a life of pain.

Erin is a single mom trying to give her daughter a better life. She had a rough upbringing and wants to do what is best for her daughter.

When the two meet their is immediate chemistry. Neither is looking for a relationship but that is usually when they happen, when you least expect it.

This book is sweet and sexy and ends on quite the cliffhanger.

This is a great debut novel for Rose Hudson and I am looking forward to reading about the future of Patrick and Erin.

Stacey says

Divine Conspiracy is an amazing love story that had me begging for more. Patrick Lawson has been living in Daphne for quite a few years years and has made a life for himself there. He pretty much sticks to himself and doesn't get involved with any of the local women, so as not to complicate his life. Until one night when he encounters Erin Abrams, she's recently moved to town because of her job. Erin is out celebrating her birthday, when fate intervenes and she bumps into Patrick.

From the moment the met, sparks were flying. There was a connection between them that was undeniable. Patrick eventually gives Erin a ride home, as fate would have it Erin ends up falling out of his truck and Patrick has to help her inside. Being the southern gentleman he is, he takes care of her. While there, he discovers a piece of Erin's puzzle that spooks him off, but not in the way you imagine. At this point he's decided that for her sake he has to keep his distance, believing that she doesn't need a guy like him in her life. So he leaves without a word.

After a few weeks, they are thrust together again by fate. Neither one of them being able to let go of the

thought of one another. Of course, this is where it gets good!

The chemistry between Patrick and Erin is electrifying. They are both dealing with their pasts and are trying to protect themselves and each other at the same time.

I love that Erin makes Patrick lose himself around her. He can only deny his feelings for her for so long. He seems to be a kind and gentle man, which is exactly what Erin needs. I love how attentive he is to her every need and he really just makes me melt.

Erin is amazing! She's a strong woman and I love everything about her. I hate that life has dealt her a very unlucky hand, but with Patrick around, I believe that is about to change!?

There is just so much going on with Patrick and Erin, both individually and together that it kept me turning the pages to find out more. There are moments that left me breathless and my heart pounding. Patrick's past has finally caught up to him and Erin, I can hardly wait to find out what happens in Divine Redemption

Raychel Faulkner says

Ugh! I hate how this book ended, I'm not big on having to wait for the next books in a series. I was shocked when it ended and kept trying to turn the page, the last page just snuck up on me and the book was over leaving me needing more! Besides the ending, I really enjoyed reading Divine Conspiracy. It's a sweet romance between not just Patrick and Erin but also with Erin's daughter. Both Patrick and Erin are at a point where they don't want a relationship but it's exactly what they need. This is a book of hope to find what is next in life after tragedy. The characters are relatable and pretty developed along with the storyline. Rose wrote a story with a lot of emotions and I was hooked from the beginning. We get pieces of the past from both Erin and Patrick and it makes their relationship stronger and sweeter. Patrick is very sweet and loving although at first he comes off detached. Overall, I enjoyed reading Divine Conspiracy and look forward to what happens next with Erin and Patrick.

Marie says

I was excited to get Divine Conspiracy by Rose Hudson since the setting for the book was in my own backyard of Lower Alabama. But once I started reading, I got caught up in the story so much that it really didn't matter where they were. Patrick and Erin both came from difficult backgrounds and had overcome them. When their paths cross, the chemistry is undeniable and the beginning of their relationship looks promising, but the reality of life holds Patrick back from what he really wants and what Erin needs.

“Pain only dwells where it’s allowed to stay”

Thanks to an opinionated BFF (we all need one of those), they were able to get back on track, build on their connection and look to a future together as a family, only to be torn apart by Patrick's past.

Rose Hudson has written an amazing story that will have you hoping for a HEA from the start and turning the pages anticipating that Patrick, Erin and Ruth will get there. The book ends with a cliffhanger, which I did not see coming and I look forward to reading more of their story.

Carla says

Rose Hudson's debut novel blew me away! The dual POV story follows Patrick and Erin who become star-crossed lovers.

The story is intriguing, and the language has depth rarely seen in romance novels. As a lover of literature, I was hooked as soon as I read the description of Erin's reaction to seeing her new home for the first time: "Even the driveway itself was impressive to me. The large stones seem to nestle into the ground beneath them as though, they too, feel at home here." Words and descriptions such as that enrich the entire novel making it much more than your typical bedside love story.

Erin has sacrificed her own happiness in order to build a successful career and raise her daughter with love. Rose goes on to develop Erin's character so that any woman, no matter if they are a single parent or not, can relate intimately.

Patrick and his past remain a bit of a mystery through the majority of the book. He hints of a tortured past that has shaped the man he is. He knows he has many shortcomings, but he's so very likable because he is fallible.

I won't go into Erin & Patrick's relationship, but it is powerful. The book does end in a cliff hanger, and I'm anxiously awaiting book 2.

ARC received from the author in exchange for an honest review

"If her writing is good as her voice, she's going to create a great book" this is what I thought when Rose Hudson first announced the release of her debut novel. And she hasn't disappointed me. She's made a really good work.

The storyline is sweet, romantic and with a little bit of mystery. The characters are so honest and real that I connected with them since the first page.

Erin is a strong woman, a widow and now a single mother. She has two goals in her life: have a good job, and raise Ruth, her daughter, giving her everything she needed and see her happy. Nothing else matter to her. She has given up her desires, her needs, she simply stopped to be herself and a woman. Her past and her relationship with her parents, had been hard, and a man in her life is not part of her plan.

Patrick is hiding from his past. To be alone is a choice. His only friend is Dawson who works with him at the boat shop. He's handsome, sweet, but he's not looking for a woman and a relationship. His past could ruin everyone around him.

But when Erin and Patrick's eyes met through the mirror in a bar, the connection between them is powerful, intense. Despite their life plans, they're not able to deny the attraction and the growing feelings.

Their past has shaped them in the woman and the man they are now. They can run, they can hide from it, but there is always a point in life when its coming back to claim its toll.

I knew this was a romantic suspense, but along the way I had some doubt about it. The mystery, that should be the basic ingredient for this genre seemed poor, with only some glimpse here and there. More than once I was tempted to write to the author telling her she's made a mistake choosing the genre. Glad to have not done that. Wait the last chapter... cliffhanging!!

And this is the point where I didn't know if I wanted to "kill" the author or to hug her for such a beautiful book.

Well written, the storytelling is original and captivating. I loved the emotions running through this book, so real that sometimes hurt for their honesty. I have the feeling Rose Hudson has put all her heart in this book.

Rose Hudson has created this book like a perfect alchemist, putting together the right elements: dreams, love, friendship, parenting, desire, fear, pain, forgivness.

Stay tuned for the sequel, to meet Erin and Patrick again.
