Holiday Fling Victoria H. Smith

Tarrah Reid is aware that she holds the name of a famous Hollywood actress... Not that she cares, since the association helps with her "Christmas floozy" persona. She has one goal every Christmas Eve: sleep with her roommate's cousin while the rest of the family is distracted by fruitcake. However, her annual conquest comes to a screeching halt when she winds up in the middle of a bank robbery and is miraculously saved by a handsome, redheaded stranger.

A few hours with medical student Chase Stewart has Tarrah's mind in a daze and her heart flutter. Suddenly, Tarrah no longer wants her fling—she wants Chase. But if there's one thing Tarrah has discovered this Christmas Eve, it's that the Christmas gods have it out for her. Her new favorite redhead and her fling have way more in common than just their towering heights. The anticipated announcement of fruitcake has never been more heightened. Before the fruited-pastry delight is served, Tarrah must decide what she really desires this Christmas Eve – a simple fling or something more.

A New Adult contemporary romance, *Holiday Fling* is a short Christmas tale with a spicy kick.

This book is considered a novelette at 12,000 words

A short read perfect to curl up in bed with and get ready for great dreams! I loved Tarrah and Chase (*cough* sweet, baby Jesus, Chase! *cough*). They both have heavy backgrounds that set up this sweet story and how they overcome their problems to be together. If you want a couple of hours of break between longer novels, this is the one! Fun, loving, and sexy!

I hope you all enjoy this short new adult holiday romance as much as I enjoyed writing it :)

I've heard good things about this. Can't wait to get my hands on it! :)

I was expecting a quick, funny, and possibly sexy Christmas romance from Holiday Fling, but what I got was mostly an annoying, melodramatic, kind of romance. Tarrah looks forward to Christmas Eve every year. Not because of presents, food, or family. Because she gets to see her roommate's cousin, whom she always has secret sex with. But this year, she meets Chase while they're trapped in a bank during a robbery. She doesn't expect to see him again, but of course, he's also related to roommate and is at the Christmas party.

Holiday Fling has a cute (if predictable) premise, but once Tarrah and Chase are reunited that night, it was seriously annoying. Tarrah had told him what she was going to be up to that night, and he didn't judge her for it. It's not a big deal. But then because he knows her Christmas fling, he suddenly turns into this epic jerk and basically condemning her as some dirty slut. Um, what?! It's not like he knows her any better since they last saw each other, and it's certainly not like he has any claim on her. Then he becomes a total hypocrite, and I just hated how he treated her. Not a very cheery read.

So I will say that this story requires some MAJOR suspension of disbelief, especially at the beginning...but if you can go along with the premise, it's also MAJORly fun! This was just the kind of sweet, spicy, feel-good holiday story I was looking for. There was even some surprising, satisfying depth near the end for such a short story!

Na ez nagyon gyors olvasmány volt. Aki szereti a Harlequin regényeket azoknak tetszeni fog.

Raquel Bernardes says

É um livro muito curto, mas que deu um enorme gosto em lê-lo. Ao ver os pensamentos de Tarrah entre o primo e o ruivo foi algo de comédia. Mas acaba por ser um romance do qual fala também do espírito de Natal. É um livro leve e divertido de ler e que quando damos por ela, já estamos no fim.

I don't know about the fruitcake, but I'm down. :)
