But in all his thirty years, he has never met anyone quite like the fiery Italian Miss Florence Capria.

After a riot forces them to take shelter for the night in an intimate small room, can Lord George ignore the growing passion Miss Capria is igniting in his once cold heart? Will being lost with a lord change Florence's destiny forever?

## From Reader Review Lost with a Lord for online ebook

### Geneva Handleman says

Excellent short read. Starts off a bit strange but that just serves to entice you into wondering about the second novel! Characters are well written, and you feel like you know them by the end of the story even though it's so short. The interactions between the two before and after their interlude is realistic and believable, even for people who don't believe in love at first sight. Which I suppose it wasn't actually first sight, more like first night!

As an independent reviewer for Romance Authors that Rock, I give this book a full four hearts. As a short novel, it falls off the last heart since there simply wasn't enough time to get fully enough attached to the characters to be emotionally involved. Otherwise I thoroughly enjoyed it and recommend it highly!

### Lokdyer says

An accidental collision on the docks of London, a near drowning, a riot, and a mob lead Lord George Northmere and Florence Capria to find true love, but lose each other the next morning. Only through a lot of thought by both of them do they decide what is truly important for happiness. George and Florence are wonderful characters and this is a story others can enjoy. I look forward to the next book in this series. I received an advance reader copy of this book, which I have voluntarily reviewed and given my honest opinion.

### Zena says

This is a good story which reads easily and kept me glued to the pages throughout. Though it is relatively short it packs a lot into it.

I found this book quite different from Emily Murdoch's other stories and it is definitely more frisky than her others.

I loved that Florence Capria was such a strong character and ensured that she got what she wanted from George. I guess some guys need a gentle shove in the right direction from time to time (LOL!)

I am quite happy to recommend this as a very good read that will keep your attention and entertain you too and I for one am eagerly awaiting the other stories in this series.

I received a free copy from the author and this is my voluntary and unbiased review.

### Viper Spaulding says

Two inexperienced people find that hearts are the only teachers they need.

This was a sweet insta-love set on the docks of London. George and Florence take shelter together for safety, and use that time to get to know each other ... very well, indeed. George is carrying around some heartbreak issues from his youth, while Florence is trying to do better for her life than the example set for

her. The test of their newfound relationship comes in the morning, when Florence is set to leave on the next ship heading to Italy, and George must decide if he can ask her to stay.

The story was more emotionally complex than just a summary would imply. Both George and Florence connect with the other on such a basic human level, sharing the highs and lows of their lives as only two intimately connected people can. It was very well done, and I enjoyed every page. I voluntarily reviewed an ARC of this book.

A Lord, Lord George Northmere, wandering the London docklands looking for a certain courtesan, and a female, Miss Florence Capria, searching for a ship to take her home to Italy. But can they find each other before being totally lost.

An enjoyable romantic story, a short entertaining read.

### **Margaret Watkins says**

A fairly short read, Lost with a Lord is about mistaken identities and potentially lost opportunities. When Lord George's brother arranges an alliance with a lady of the night for his brother, Lord George finds himself in a very awkward situation indeed. Firstly he is in one of the worst areas of the London docks and secondly there is no young lady..... until there is. Only the young lady is not whom he thought she was and she gives him a strong scolding for thinking otherwise. There is humour and same danger in this story, but it is ultimately Miss Florence Capria who takes the reins in her hands and takes up the challenge. I enjoyed this sweet story and it filled an enjoyable gap. I received a copy of this book for free as a gift and this is my honest and voluntary review.

### **The Mysterious Reader says**

Emily Murdoch is an easy “go to” author for me when it comes to Regency Romance stories. That’s certainly the case with Lost with a Lord, the first of her new Ravishing Regencies novels. This book is, quite simply, beautifully romantic and well written. It had just what I wanted including a great plot. I frankly adore both wonderfully fiery Florence Capria, the tale’s Italian heroine, and her lonely English lord, George Northmere. It was a pleasure following along as their passion grew and romance developed. The rest of the cast of characters is pretty amazing as well. But for the fact that I’m literally dictating this review to my husband from my hospital bed I could go on and on with praises - the book definitely deserves it. Since I can’t do that I will simply note that the book is most definitely one to read, it is easy to highly recommend. I’m definitely looking forward to the next Ravishing Regencies book.

**Sweet, endearing love story.**

After first encountering the prequel in an anthology and never having read Murdoch's stories before I was pleasantly surprised just how much I enjoyed this quick read. I have come to love her spirited and strongly independent female characters and handsome and passionate (if emotionally tormented) male leads as a very welcome signature of hers.

Lost with a Lord is a heart warming love story with great leads, enjoyable banter and an emotional connection that kept me engaged and invested until the last page. Loved it!!

#### **IT'S GETTING HOT IN HERE!!!**

Hey guys, right here is where you want to be. Nope, no joke all kidding aside. This remarkable spin of a regency romance is refeshing and a slendid way to pass a few hours. If you're looking for excitement, suspense, action, steady paced with a strong plot to keep you captivated until the last word. Congrats my friends you've just stepped off in it. You have it all, all the heart pounding, pulse racing, adrenaline pumping and a chemistry so hot between the two main characters its explosive. The characters were intriguing and complex with a undeniable connection between the two main characters. Their bond is white hot, off the charts, it burns brighter than the sun and is hotter than an erupting volcano. The scenes were so realistic and believable with such vivid detailed descriptions that brought you back to ground zero in the regency era. Twists, turns and a multitude of unexpected surprises that will keep your attention on this page turning bombshell. Murdoch did a phenomenal job bringing this read together beautifully. Remarkable job Emily, thanks for sharing this little jewel with us.

What. Did. I. Just. Read????

I'm so confused on what I just read and I don't know how to feel about it.

Is there supposed to be a romance? If so, then I missed it. These characters are confusing and their bond doesn't make sense. Maybe if this was a longer book, with more or actually something happening, it might've been a good book.

What really confuses me, and sorry if this spoils the book but I'm sure you'll forgive me, was why is she going on and on about how much she didn't love her mother's "job" and she despises people who do it, then turn around to the guy that is with her and basically starts taking her clothes off.

You don't know the man!! I eye rolled when she kept going on and on about how it was like she has known him for longer than 5 minutes.

For me, when authors do things like this, it's like giving an excuse for a character to do something stupid. Just because she said it was like she has known him her whole life, doesn't mean you actually know him! If she doesn't like courtesans, then don't make her sleep with a guy she literally has just met!!

Lord George Northmere and Miss Florence Capria are stuck in hovel waiting for the dockside riots to stop.

they end up staying the night. I thought it was an interesting story. Two people in search of what they think they need, and end up getting their own HEA. I definitely recommend this story.

### **Cindy says**

The is a very entertaining read of two lonely souls. Lord George find himself in the docks of London at night searching for a female company his older brother told him about.

Florence is trying to find a ship to return to Italy, when George runs into her and almost deposits her into the Thames.

George is intrigued by the first beauty and when they are almost overtaken by a riot they take cover. While waiting on things to settle down they find themselves reveling things to each other that they would not have done with another soul.

They both must overcome insecurities to get what they want.

This is a very good read and Ms. Murdoch will not disappoint. I received this book for an honest review.

Eloquently written story about 'two lost souls finding refuge together'. A very unlikely pair, coming together in a very unlikely place; the London docks. But when they find their way again, do they loose each other? I received a copy and chose to review it.

### **Lori D says**

A Chance meeting that turns into so much more! Lord George Northmere wants companionship because he is just tired of being alone. He decides to take a stand and seek out comfort. But what he finds is Miss Florence Capria looking for a ship to get home! Caught together trying to avoid a riot they spend the night together and sparks fly! But now that the new day starts, is there anything left for them? The journey to forever love is full of surprises and surrounded by some danger and even humor. Although a novella, I was

delighted as I turned the pages of this story. With a very strong minded heroin, Italian born Florence, she pushes for her love of George and anything can happen!!! This is the start of a new series and I look forward to the next stories to come!!
