for pbpl5- reading this book was like pulling teeth. i'm sure for someone who really cares about scholarly works, it's, you know, a nice collection of dry articles. for me, a student who just wants to be done with this term, i feel as though i wasted so many hours trying to get up the courage to crack this book open again. i took 50 pages of notes and i understand none of them. rip my sanity, 1999-2018
