## Kcastro says

Just the right amount of "christian" comments.

## Shauna says

Couldn't get into this one. Boring. Cliche. It is written by a husband-wife team whose pen name is Hannah Alexander. The writing never flows. It is like they each took turns writning a chapeter and didn't check to see what the other had done.

## Crissy says

This book started off strong with the death of her grandfather and a then a family friend. It started not holding my interest when the bus trip to return to her grandfather's home and escape the killers ends up turning into a slumber party with the bus group stranded at the house with an ice storm. Then as things started coming together and pieces started falling into place it picked up and became a page turner again.

## Inrisrini says

Not that much thrilled, stoy lies and revolves on the same concepts...group of people, who is hurting whom, in between reading the same letter from grandpa, praying god, so on and so forth....at the end, the expected two comes out safely....to give back bone, the cave house, attic, old things !

## Leport says

Actually, I didn't finish this book. I got about half way through and decicded I didn't care for the story. I may pick it up again, later, and give it another try.

## Karen says

I don't read a lot of mystery and hadn't read any Christian mysteries so this was a first for me. It was okay but didn't hook me in quite as much as I'd like. I finished it mainly just to see if I was right (I was). So overall it was okay, but it won't have me running out for more...

**Kdesoto says**

It held my attention the whole way through. Every time I thought I had figured out 'whodunit', I had to change my mind again!

---

**Nike Chillemi says**

This roamnce, medical thriller has action, suspense, romance, plot twists and turns, and quite a few red herrings.

---

**Ginny says**

The Crystal Cavern takes the reader on a thrilling ride right from the first page, with heart stopping twists and turns that keep you guessing right to the end. Running for their lives, Sable Chamberlin and Paul Murphy are determined to discover the truth behind the death of Sable's grandfather and the mystery he left behind. But stranded in an ice storm in a creepy house atop an intimidating cavern, with a bunch of strangers to keep them company, makes their task a lot more tricky... and much more deadly. An engrossing read that would appeal to lovers of mystery and suspense.

**Bonnie says**

Someone killed Sable Chamberlain's grandfather, Josiah, and she was determined not only to clear his name of fraud but to find his killer unless he killed her first.

Sable and her trusted friend Paul Murphy, found themselves traveling with a bus load of strangers trying to survive the Ozark roads covered with ice from the storm. Not really knowing if one or more could be after them, they still offer them a place to stay at Sables' family home in the middle of the back woods. Cave adventures, accidents, solving mysteries, and deaths all make up Hidden Motive. It had me quessing to the end, was a great read!!

### **Christian Romantic Suspense**

Sable and Murph, together with a group of people trapped in an ice storm raced to solve a mystery.

I loved the storyline, the twists, turns and the intriguing.

This book is recommended for those who love Christian romantic suspense..

## **Debbie says**

"Hidden Motive" is a Christian suspense novel with some romance. It's a very fast, suspenseful read. It's a case of "everything that can go wrong will go wrong" with no pauses in between. The suspense was created by physical danger to the two main characters and by trying to discover the truth about what Sable's grandpa had done and had discovered. There were a few, minor things that were never fully explained by the end of the book. However, surviving and stopping the bad guys seemed to be the main focus, and that was tied up by the end.

The setting was vividly described and brought back my own memories of caves and of a bad ice storm here in the Ozark mountains. The characters were engaging and realistic, and they acted in realistic ways. The Christian element flowed as a natural part of the story and seemed to primarily be remembering to trust God rather than their own strength, and recognizing how God had protected them even though they did get hurt.

There was no sex and no bad language. Overall, I'd recommend this heat-pounding suspense novel.

### **Short Review:**

This is one of the best LIS books I have read lately, and even over all one of my favorites! The mystery was enough to keep me wondering until the end. Exciting, yet swoon worthy at times, a perfect combination! My little sister (age 8) started reading it over my shoulder at about half way through, and I finally had to let her finish, so I could enjoy it at my own pace! (She's a speed reader!) Sadly she spoiled it, but I still enjoyed the surprise of how they were about to get out of some tight spots at the end!

**Melanie says**

I love caverns and caves and the mystery of them and this book is set in that area. It didn't get a 5 from me because of some of the confusion with the different ore's and minerals in the mining process.. just didn't keep my interest with that. But the suspense was great!
