## **The Essene Gospel of Peace, Book 1** Edmond Bordeaux Szekely (Editor)

A most interesting and delightful little book is entitled The Essene Gospel Of Peace - Book 1. It was discovered in the Vatican library and appears to be a genuine manuscript written at the time of Christ or shortly thereafter. It was translated into English by Edmond Bordeaux Szekely.

The theme of this book. This book is about the healing miracles and general healing work of Jesus of Nazareth and other Essenes, who were a holy order of which Jesus was a part, at least for a while in his lifetime. He studied their methods and learned how to heal people using food, water, air, sunshine and other simple means that were available to the people of the day.

I wish this book had been included in the major books of the bible, but it was not. It was found in Palestine and copies elsewhere and is part of what are called the Dead Sea Scrolls. Scientists and theologians disagree on whether it is really just about Jesus, or was about the techniques used by others as well, but the book is a delightful read and the reader will definitely recognize similarities with nutritional balancing science.

#### **Amazing Gospel of Jesus**

It's incredible to me that I am nearly 60 years old, yet only discovered this Essene gospel last week. The wisdom contained in the word's of Jesus are priceless and I know I will read and re- read them for rest of my life.

Truly thought provoking--on many levels. It caused me to reevaluate my psychological, spiritual and physiological state and practices. It helped me to improve on many levels. It was loaned to me by a friend.

As far as apocryphal scripture go, it doesn't get much more entertaining than this. This new age Jesus not only has something to say about the angels of air and water, but also our Earthly Mother. Pretty cool. About half the content is tough to triangulate with Jesus' other teachings, which would indicate that this account is apocryphal for good reason. However, there is some unique insight not given in other scriptural accounts (like instruction to chew food until it becomes liquid).

## **Nawid Adelyar says**

An eloquent text written very concisely with some very good quotes such as those mentioned below. I would like to read all four parts of this text since I was impressed by the first part.

“Happy are you that you hunger for the truth, for I will satisfy you with the bread of wisdom. Happy are you, that you knock, for I will open to you the door of life. Happy are you, that you would cast off the power of Satan, for I will lead you into the kingdom of our Mother's angels, where the power of Satan cannot enter.”

“Kill neither men, nor beasts, nor yet the food which goes into your mouth. For if you eat living food, the same will quicken you, but if you kill your food, the dead food will kill you also. For life comes only from life, and from death comes always death. For everything which kills your foods, kills your bodies also. And everything which kills your bodies kills your souls also. And your bodies become what your foods are, even as your spirits, likewise, become what your thoughts are.”

I am not sure how I feel about the "lost" books of the bible, not because I doubt their authenticity, but instead because I do not think they need to be considered as something that should have been in the bible and instead should be looked at as alternative mystical perspectives written at the same time. Whether or not Jesus ever said any of these things or help awaken the Essene brotherhood does not matter, instead I feel like one should just view this as a beautiful perspective on how to be more in touch with the feminine and mother Earth and how to cleanse ones body of the awful, processed diet we "nourish" ourselves on these days. I know my raw foodist friends would enjoy it.

### **Sam says**

While this book has some good ideas for living a healthy life, I wish they didn't try to use Jesus as their mascot. The Jesus in this book has a very different and opposing message to the one in the New Testament.

### **Amanda Thompson says**

This is a life changing novel. Barely a pamphlet in size, and only about \$1 to purchase...it is worth its weight in solid gold. An absolute must read, share with friends, and keep a copy on hand as a reminder, inspiration, hope.

### **Layla says**

Incredible that this book lay hidden in the secret archives of the vatican, when it could have been an inspiration and spiritual tool for so many. Nevertheless, over million readership since then is still something!

The Gospel of Peace is one of the many works recording the teachings of Jesus that have been hidden from humanity because it didn't fit the paradigm of social engineering being designed by those in control.

It is such an amazing book! No sooner do you start exploring this book that you discover the background to where so much of the modern move towards conscious holistic living draws its understanding from, but has been obscured over time.

Towards the end you'll also come to a prayer that has been deeply hidden and is as important as the Our Father prayer.

A beautiful spiritual book that offers many valuable teachings!

## **Joseph Voelbel says**

This book is a jewel of insight. In particular it includes The Earths Prayer, an Essene counterpart to The Lords Prayer.

"Our Mother which art upon earth, hallowed be thy name. Thy Kingdom come, and thy will be done in us, as it is in thee. As thou sendest every day Thy angels, send them to us also. Forgive us our sins, as we atone all our sins against thee. And lead us not into sickness, but deliver us from all evil, for thine is the earth, the body, and the health. Amen."

[Bodhi Tree (Buddhist) - Tree of Life (Essene) - Wheel of Life (Tibet)]

Tree Prayer:

"Go towards the high growing Trees, And before one of them Which is beautiful, high growing and mighty, Say thou these words: Hail be unto Thee! O good living tree, Made by the Creator."

“The Essene Gospel”

2014

By Edmond Bordeaux Szekely

I found this copy on a free cart at the local library. The Essene movement has been subtle but continues on with nook and cranny ways of providing its books on free carts of small town libraries, thrift shops, and flea markets; a perfect venue that the Lord himself would use. It is a fascinating book with such profound effect that I was pretty much ashamed and embarrassed from its convicting content.

Translated from the third century Aramaic manuscript “The Essene Gospel” is not only mind boggling but practically applicable for devoted disciples of the gospel of Jesus Christ and the truth that is revealed therein.

The book discusses fasting and cleansing of the body in such simplistic terms that one would want to forsake all and follow. I believe this is the point and the point should be taken into account.

A must read and follow up with sequels for any human being that is seriously interested in following and abiding by the truth of Jesus Christ, the Son of the living God.

## **Christy says**

This text, dug out of a cave only in the last century, reveals a formerly unknown side of Jesus. Jesus the hippy health nut! Jesus teaches the sick Essene people about fasting, sprouting grains, and even how to perform an enema! Jesus forbids eating ANY animals and promotes eating food raw rather than cooked. He speaks not only of "The Father", but of "The Mother"...the earth. He talks about the Mother a lot, actually, preaching a

comfortingly less patriarchal world-view. He even speaks AGAINST the reading of "scriptures", saying that it is useless to look for GOD in the words of MEN. People should seek God in God's own creations: in nature itself. Jesus's beliefs seemed somewhat of a fusion of Native American, Buddhist, and modern-day hippy. Interesting huh? It blew me away!!!! It's a short read too, only about 100 pages.
