I received this book as a winner of a giveaway.

I had high hopes for this book. What I was not expecting was for it to speak so much life into my spirit when I needed it most. Antoine's testimony is simply and beautifully written. I found his relationship with the Lord to be a true inspiration as he described the struggles he has faced along his journey.

A Letter to God bares great witness to how things will probably not go as you had planned or hoped, but everything has it's own season. God's timing is perfect, and He has your best interest at heart. All you need to do is have faith, be strong, and take heart.

When I just started reading this book, it undoubtedly seemed to be a very interesting story. But as I read further, I realized there was more to it than just a story of this young man's life experience. This book has so much encouraged and challenged me. My level of trust and reliance on God has gone higher after knowing through this book, what God has done to this man's life. This is a very good piece of example that truly, nothing is impossible with God. I encourage everyone to read this book, even more than once.

I received this book via a First Reads giveaway.

I wanted to like this book, and I know that the author had the best intentions writing it. But honestly, it ticked me off.

I agree, God is a great provider and often provides a miraculous way of out terrible situations, and I know He has worked in that way in my life. However, I believe that this book is dangerous in that it teaches we can get whatever we want if we ask it - the whole prospect of the letter, along with the misinterpretation of Hebrews 11:1, made me question the author. This borders on the prosperity 'gospel.' God is ultimately for God - He does not exist to answer our requests and bring us to greatness like some divine genie. Yes, it is amazing how God works through our struggles, but we should not expect our requests to be answered.

Unfortunately, I don't recommend this book.

A Letter to God by Antoine D. Ongolo

I have really enjoyed reading this book. It kept me interested and when I had to put it down, I couldn't stop thinking about it. This book begins telling the story of a child, who at 10 years old begins to face trials in his life most of us could not imagine, he lost his father. After 10 years of living a comfortable life, Antoine faces a life of uncertainty. During the struggles of living an unfamiliar life Antoine finds a savior, Jesus Christ! This book is unlike any other that I have read. While reading this book you will come to find that once Antoine has come to know GOD, he has to rely on him for everything, as we all should. When I say everything, I literally mean everything! I have found emotion in this book, a sense of wanting to know this person because he has gone through so much adversity, and his faith is what brought him through. God does not always say yes when we pray, as was the case in this book, the No's were hard to read, but the Yes's were so wonderful. I am so glad I got to read this book, I have truly been touched by this story. The inspiration I have gained from reading this book is great. I am a christian, I needed this story, nothing happens by chance, GOD knew I needed this and I was a winner of this giveaway. I have received a blessing. You will enjoy this book. It is uplifting and wonderfully written.

I received this book as a winner of a giveaway. I am committing to buy one to give to a friend.
