Blood and Secrets 2 Rose Harper

I once was lost, but now I'm found.

The name's Carina Ricci and Mateo belongs to me.
He thinks he's the leader, but he's blind to what I see.
He's just a pawn in this sick and twisted game.
As of right now, things are still tame.

I was promised to him since birth,
But what he doesn't know is this ...
I'm crazy.
The level of crazy everyone fears and my sights are set on him.

The secrets, lies, and blood I've shed,
Make the psychopath buzz in my head.
He's my king, and I'm his queen.
He'll shiver when he sees the things I've seen.

Yet, what I didn't expect is to be caught in this, too.
The game we are playing is starting anew.
The enemy is now becoming a friend.
I think we're all going to die when it finally ends.

Blood & Secrets 2 is the 2nd installment in the series. This is not a standalone, reading Blood & Secrets 1 is a must before proceeding.

HOLY FREAKING SHITE that cliffhanger at the end!! Damn I didn't see that coming.

I have soooo many questions now that need to be answered, and I'm sure they will be in the next book.

So this book picks up right where we left off in the first book. Carina in this book is kickass and fearless, she doesn't cower down for anyone or anything, and that includes Mateo.

The intense chemistry between them both is scorching hot!!!

This book is fast paced and leaves you wanting, no needing more.

Another great read by Rose.

I can't wait for the next book!

My Readultery Life Review

When I first started reading this series, I was kinda expecting me be taken on a rollercoaster, but nothing has prepared me for the twist and turns that this author is sending our way. Just the cliff-hangers alone are leaving me breathless and wanting more from each book.

To get the full story, you must start at the beginning of this series, Blood & Secrets 1. Just be prepared for a ride that you won't forget. Each book is a novella, so it shouldn't take you too long to catch up.

Blood & Secrets 2 is just as exciting, dark and sexy. Beginning where book one ends, Carina's secret has been revealed with some OMG moments. Mateo is still on a mission to get as much information out of his tight-lipped father.

While this book, is lacking in action (kinda wanted to see Carina kick some arse) we are given plenty of character development and you begin to see the two personas of Carina emerge, leaving us with plenty of questions and thoughts about where this character is going to go. I can't wait to see this character blossom as this series continues.

Mateo is a man I love to hate, while cold and egocentric, you do get to see a somewhat softer side to this character. I certainly have plenty of questions surrounding this character and once again find myself hoping that this character grows throughout the series.

We are still given the explosive and intense passion that Mateo and Carina relationship offers. They have a natural feel to their relationship and you can relate to elements of their relationship and characters.

The cliff-hanger at the end of this book left me breathless. I certainly did not see that coming and has left me tons of questions that hopefully will be answered within due course.

I highly recommend this series if you're looking for a short, intense and action packed series that will leave you hooked from one book to the next.

***** 5 Stars

Omg ahhhh

I can't believe you left me hanging on the ending like that!!!! Lucky I'm so in love with the books hahaha I read in a hour because i could not put it down. I don't like how short they are but it makes the wait worth it when you start on the next book. Keep this series going as long as possible please.

Ontem eu linda e bela baixei esse

livro, sabia que tinha lido o primeiro, mas não lembrava se tinha gostado. Até aí beleza. Aí a noite falta luz e eu decido ler esse bendito, pq, pra que fiz essa cagada.

Li minha resenha anterior e lembro que não tinha gostado e continuo não gostando.

O cara continua sendo um babaca, machista, que vive humilhando a mocinha e se achar no direito de fazer o que quiser. Pensa no ranço que tô dele.

A mocinha nesse livro mudou, ficou meio fodona, mas só era assim longe pq qdo o mocinho chegava perto ela mudava.

E pra completar ainda tem continuação, ok o final venho com uma bomba, mas esses dois livros se fossem melhor abordado poderia resolver todas as bombas, além de personagem que simplesmente nem apareceu nesse livro e que no primeiro era importantes.

Sério tô revoltada por ter lido esse livro.

I. Am. Gobsmacked! GAH! I want to simultaneously kill and kiss this author for giving us another cliff-hanger to end all cliff-hangers!

This book is exciting, gritty and dangerously sexy. It is the second book in a series that must be read in order. It is told in dual POV and is extremely fast paced. So fast in fact that the words flew by and now I'm looking at my kindle wondering WTH just happened.

We begin where the first instalment left off. Carina's secret is out of the bag and Mateo is still trying to pry the secrets his father keeps.

In my last review, I stated that I couldn't wait to see Carina explode. Although she did not explode, she did

not disappoint. She is badass and fearless. There is still so much of her character that is unknown. I, for one, am excited, thrilled even, to delve deeper into Carina's character.

Mateo although still egocentric and an a-hole shows somewhat of a softer side in this instalment. He is definitely a man I love to hate.

The passion between Mateo and Carina is simmering and so hot.

This series is an epic and sexy battle of the sexes. Who will come up on top is anyone's guess.

Blood & Secrets 2 is an action filled, heart-pumping helluva read and I am completely aching for the next instalment. (Dyiiiing!!)

I received an ARC of this book. All thoughts and opinions are my own.

OMG Could this series keep getting any better or what. HOLY COW. The Twist, the Turns, the Suspense, the Romance and the down right Thrill of it all is amazing. If you haven't started this series, I recommend you do so ASAP. The author will take you on a ride you won't soon forget. The words will fly off the page as you turn them one after another to see what's going to happen next.

Blood and Secrets is about the children of two families. Mateo is the eldest and in line to run the Calvetti Crime Family. Carina was raised from a small child to be "Reap", a Stone Cold Killer with no remorse, and one Main Mark. Both are cold and calculating in their own ways and they have been pledged to each other in an arranged marriage to merge the families. However there are plots underfoot Mateo and Carina are not aware of? Who's is out to destroy who and why?

These two have their own agendas but when they come together explosive things happen. They can fight for control and dominance in the outside world but can they fight the pull to one another? Can Mateo keep Carina and his family safe from the storm that's coming? Can Carina, REAP, keep true to her training and kill the mark and keep the Mateo and his family safe at the same time? So Many questions. The author has written a thrilling storyline that this reader can't get enough of. Highly Recommend and looking forward to Blood & Secrets #3.

ARC

If you have not read the first Blood & Secrets book then stop reading this review and read that book first because you will be lost if you don't. These are fairly quick novellas so you can quickly read the first book then jump into Blood & Secrets 2. I am keeping this review fairly short because holy spoilers batman I don't

want to give anything away.

Let me just say if you think that Carina and Mateo were intense before then things just got more so. This one will have you on the edge of your seat once again with the push and pull between Carina and Mateo and let's not forgetting the bitch Camille. If you think the cliffhanger from the first book was something well get ready for another ride with the ending of this one, because I did not see that one coming AT ALL.

I hope we get the next book soon because I HAVE to know WHAT is going to happen next. I can't wait to read more of Carina, Mateo and the rest of the guys because I have a feeling things are about to get even more interesting.

Brittany Alexander says

I have mixed feelings about this book. While I really enjoy the story, I feel like the writing leaves a lot to be desired.

There were many points where I became confused as to what was going on and who was speaking. It might also have something to do that I hardly remembered anything that happened in book one. It would have been helpful if she maybe had put in a few small things that would jog the memory regarding events that happened in book one.

I also feel like the writing is kind of stagnant. It could be more descriptive, broader, and more dynamic. It was a very good story with a very good plot, but I was unable to get lost in the story due to the writing.

I will say, however, that the relationship between Mateo and Carina is one that has me fanning myself. They are HOT together and they just need to fuck and get it over with. It's that kind of relationship, the one where they bounce around each other, where they know that they're eventually going to have really hot sex, but neither of them want to give in.

Zafi Reads says

As much as i'm a big fan of dark romance, this book completely disappointed me. The hero was a complete jerk to the heroine and treated like her a doormat in both books. The side character Dom was a far better choice for the heroine instead of the hero. There are also some cringing scenes which was a BIG turn off for me. Just NO.

Reckless Readers says

First off you notice this book is way to short. Seriously I've been waiting for months to know what happens to these characters. However this is something that can be over looked. The ridiculous storyline is not. The first novel of the series leaves you gasping so I assume this one would be top notch too. It's far from it. It lacked depth characters and was missing holes in the plot. It was kinda of hard to read. The most disappointing part though is the cliffhanger at the end. It made absolute no sense.

I have mixed feelings about this series now. I'm not sure I plan to read the next book.

After that revelation at the end of book 1, I just couldn't wait for this one! I was so excited when it was delivered at my kindle and I dived into it immediately!

At the start of the book we get to see some of Carina's childhood, who was her first kill and how that affected her. That moment was the catalyst for the person she became. Mateo is in the middle of too much open affairs while trying to tame Carina. What he doesn't understand is that they are both fighting for dominance. Mateo and Carina are both sinfully dark and although they are incapable of emotions they wake a sexual hunger to each other. All the scenes between them is hot, crazy and oh so dark! It is good that we get to see a different side of Carina and not just her crazy one.

The second book didn't disappoint and I'm once again left wanting more! Without argument Rose Harper is the Queen of Cliffhangers; she's seriously killing me every time! August 21st can't come fast enough :-/

Julia Red Hatter Book Blog says

I wasn't sure what to expect after the first ended, I just knew I had to get my hands on book two and find out! We see more of Carina's childhood in this one, and it isn't so shocking after what was revealed the first time, but still brace yourself. The real Carina meets Mateo this time and she isn't happy with the way she was treated. I expected a bit more bloodshed than I got with her, but she seems to be in the process of melding together real Carina with emotional Carina. Mateo is his same asshole self, but he realizes what an asset Carina is and that he may have feelings deeper for her than he realizes.

I loved the heart pounding second in this serial, I definitely need more right away! That twist at the end? So didn't see it coming and I can't wait to see how it all plays out!

Che Flaviano says

Just WOW

I got a bit confused at first, this is supposed to be the second book and the continuation of the 1st. I stopped and read the 1st book before continuing and giving my review, otherwise I might have given a wrong rating. I have to say this is another cliffhanger like the first, so I would really wait for the next one in order to enjoy the story fully.

The first one got me on edge, and this one as well. The twist and turns in the story got my attention, not just this book but from the very first book too, though I had some reservations on that one, but since I read this, it got clearer for me. I cannot say much, but get the 1st and this book and REEEEEAAAD. Sorry, no spoilers here. It's a recommended read. The whole series for that matter.

I received a free copy of this book via Booksprout and am voluntarily leaving a review.

Michelle Brace (Wicked Babes Blog Reviews) says

Rose Harper earned herself a new fan with the first Blood and Secrets and I am definitely a loyal reader even more after getting the second book in this series. If you haven't read the first don't even attempt to read this book. You really need to read them in order to fully enjoy the story and to know what is going on. I can assure you it will be worth it. I am absolutely in love with this series and I am dying to get the third in this series.

Rose did such a great job giving us an intense read where the chemistry between the characters is hot as hell but its twisted at the same time. Neither of these characters grew up to be sweet and loving people. They are the perfect match for each other but getting there will not be easy. Add in all the other outside issues and you are in for one hell of a ride that will holding onto your seats.

Not going to give too much away but I highly recommend this series and can't wait for the next. I have to know how this is all going to play out!!

Lynn Reynolds says

This book carries on from where book one left off. It's a good reason to read this series/serial in order.

Mateo "Teo" Calvetti is very upset about how he was manipulated. He's still self-assured and runs things with an iron fist. Carina Ricci starts us off with some disturbing memories. But she was strong enough to let someone into her life that she could learn to love. I certainly can't even begin to imagine what she's been through but our author shows us some in graphic detail. But I loved her attitude.

This is a series where you will need to keep an open mind. Our couple would not be considered normal. It 's a story that will showcase our author's talent. She has a great imagination and creativity - that's what sucked me in. And just like in the first book I don't believe that there is a defined hero or heroine. This is a dark tale and may have triggers for some. There is no ending but a tense moment that left me on the edge of my seat looking forward to book three – I want to know how things are going to end for our main characters.

I was not compensated nor was I required to write a positive review. The opinions I have expressed are my own.
