## Charade Cambria Hebert

Dying at the hands of a psycho was a shock. Having my life returned to me by an angel was incredible. Being named a Supernatural Treasure and being given Sam as my guard was pretty darn awesome. Acquiring a debt for it all - well, I should have seen it coming. Now here we are, fighting demons from hell, caring for a boy that I just don't trust and traveling to faraway places to return a treasure to its rightful place. Nothing is as it seems. Everyone wears a mask, everyone puts on a charade. It's up to us to separate the truth from the lies and reality from fiction. A hard task when my new reality involves fallen angels, witches and dragons...and did I mention hell? Anchoring me down through it all is Sam. Sam who must face tragedies of his own and is put to the test again and again. If we fail in our task, life as we know it - life as you know it - will end. Forever.

## From Reader Review Charade for online ebook

### Crissy says

This series just gets better and better. This series by far is the best series for me from author Cambria Hebert. Once I started reading this series it was definitely hard to put it down to do something else. I absolutely love all of the character in the story but of course Sam, Heven, Gran and Cole are my favorites but new comer Gemma has a way of making her way into your heart also. There are secrets that come out in this book that you won't see coming and Sam's reaction to it will definitely make you laugh. It is said to keep your friends close and your enemies closer but when it comes to Kimber and her feelings toward Heven, enemy and revenge is all that she seems to see. Things take an interesting turn and Sam does what he feels is right for both Heven and his brother but that leaves him in a place no one wants to be. Charade is definitely a page turner and worth reading so I recommend this series to all of my friends who are looking for a fantastic paranormal read.

Ok, guys, this book has a lot going on and like 80% of it is gonna grab you by the bolls and spin you so fast that you'll forget your own name. I say this in the best sense of the expression. This is something good, even though it sounds terrible, you know, with the bolls and all. But, trust me, it's a really good thing. I love when a book surprise me this way. But, unfortunately, I'll have to keep a lot of the things in secret, cose the fun about it is in find out for ourselves. But, I'll try say all I can about it, so you can understand how I feel about this book and all you can expect to find in it.

**The Plot** - Heven is something like a big shot in this book. Sam is like her body guard and has to keep her save from all the demons that are after what she is caring. They have to take it to where it belongs. Where is it? In freaking Italy!!! Heven and Sam are teenagers working for minimal wagers. I wander how that's gonna happen. LoL

**The Characters** - Lets start with Heven.

She is different now, more confidant and strong. Is like she can walk with her head upright and face what the future brings instead of hiding like she used to do in the first book. I like her better now.

**Sam.**

He is strong, hardworking and so, so, so dreamy. What more can I say? \*sigh\* I love him.

.

**The Writing** - Cambria writes in little details. What do I mean by that? Well, she likes to makes us see and feel every little detail of everything in the story. This can be a little slow moving and since, as you all know, I have the attention span of a 5yo, it can be a little distracting sometimes. But if you like lots of details and long talks, this book is for you.

1° peeps POV, always a pleasure, of course. From Sam and Heven. If you think about it, it's a win – win situation. I get to see trough Sam's eyes and when is Heven, I get to enjoy the better view of my one and truly. S2

**Consideration** - The fate of human kind is in jeopardy and all the hell is breaking lose. How would you feel if demons would pop up from everywhere to attack you? I would surely shit my pants seven ways till Sunday, that's for sure. The lizard guy? WTF was that? If that type of hell is what is in your mind, Cambria, I shudder to think about how your nightmares must be like.

Ok, so now is the part where I say to all : GO READ THIS BOOK! But Why? You may ask. Well, lets see if I can get this right.

This book is for you if:

- You like very descript writing
- You like romantic and adorable relationships
- You like angels
- You like hellhounds
- You like Italy
- You like seen a girl kicking a guy's ass
- You like creepy demons that can get inside your dreams \*double creepy\*
- You love the cover of this book
- You like surprises
- You are a good person
- You don't want me to kick you in the bolls
- That's IT, GO READ THE BOOK!!!!!!

*If you cannot breathe, I will breathe for you. If your heart will not beat, mine will beat harder. If you do not live, neither will I.*

Heven and Sam have been through so much in their struggles against evil, but they aren't done yet. Being tasked to return a treasure to its rightful spot in Italy, Heven and Sam struggle with family, friends, secrets, and deceptions on top of everything else. Change is coming everywhere they look and everyone's mask is cracking. Can Heven and Sam hold it together - themselves as well as their family and friends - and save the world in the process?

Charade continues to follow Heven and Sam, yet expands the cast of characters a bit and reworks a few of the old ones. While Heven grows into her powers, she also learns that she is stronger than she thinks - something she shows Sam time and again, as she is willing to literally go to hell to protect him. The characters continue to grow before the reader's eyes, sometimes with shining moments and sometimes with bitter ones, making them very believable. Cole plays a bigger part in this book, as does Kimber, and the new additions fall into place logically as well.

While some points slow and predictable, Charades is full of twists and turns that keep Heven's (and the reader's) head spinning. Fast-paced and engaging, Charade picks up right where Masquerade left off and runs full-tilt until the end, leaving Heven, Sam, and the reader asking - "What will happen next?"

I got a copy for review in exchange for an honest review.

I loved this book! I really enjoyed book 1, but this book is so much better. We already are introduced to the world in book 1 and it seems the real story starts in this book. And the story is great, I didn't want to put this book down.

What I really love about this series are the characters. They develop so much in this series, you see heven growing and geting stronger. But also the relationships between the characters are so nicely done. The characters act very believeable and change sometimes comes slowly, but it is there. And I love seeing the characters change. There are also a few new characters introduced in this book. And I really liked the unexpected twists. And I just love the relationship between Heven and Sam.

The story is another great parts of this book. Most introcudtion and explanation of the world was already done in book 1 and this book just builds on this. We get to see more of the monsters of Hell and learn a bit more about Heaven. Also where book 1 still was a bit predictable this book left me suprised by all the twist and turns. It was just great, the author made some twists in the story I really didn't see coming! Although there where also a few twists that I did expect.

I hardly know what to say about this book. It's a really good story and I really enjoyed it. It is so much better than book 1. The ending of this book left me shocked, it definitely wasn't what I expected and I can't wait to

see what is going to happen next. I am really looking forward to read the next book.

To conclude: I really loved this book. It is a great story, with many twists and turns. And I really love the characters and seeing them develop. I can't wait to read the next book!

#### **My Review:**

Holy cow, Batman! Hold on to your tights! This book is **CRAZY GOOD!!!** Okay, so I'm a dork. Now you know. Let's move on...

Cambria Hebert hits her full stride in book 2 of her bewilderingly creative Heven and Hell series and you do not want to miss out on the action, oh and the romance, oh and the suspense...

As much as I've loved everything up to this point, this book brings it all together and sets it afire. I'll admit I felt the beginning was a touch slow, but that's not all that unusual for a book so chopped full of suspense. And the suspense is overflowing, let me assure you.

Then there's the romance. **\*\*Chill bumps\*\*** Cambria Hebert knows how to write love. You know those deep feeling for which you can't seem to find words, yup, she's found those words. Here's some quotes:

Sam (pg 84): "If you cannot breathe, I will breathe for you. If your heart will not beat, mine will beat harder. If you do not live, neither will I."

Heven (pg 103): "I loved this boy. more than myself. More than life. More than anything. Tears leaked from beneath my lids because my feelings were so intense that they had nowhere else to go, there just wasn't room in a single body for how I felt for him."

I loved the balance of action and emotion in this book. Heven continues to grow and I love where she is by the end of book. I really liked this quote from her on pg 111:

Heven (pg 111): "Sam was my strength. Some days it felt like he was the only reason I could put one foot in front of the other. I reminded myself that those feelings were wonderful but I couldn't allow myself to lean on him so heavily. I was stronger than that. Even without Sam, I could get through this. But it was sure nice to have him around."

And speaking of the ending of this book... **W O W !!!** There's shocking betrayals and crazy plot twists galore. Sure, there's a moment or two of "Ah ha! I knew it!" but there were more "I so didn't see that coming." And then there is the cliff hanger. Of course I won't tell you anything about that. Well, let's just hope the author is furiously typing book 3 now. She needs to. We need her to. I don't know how I'm going to make it. Please type faster, Cambria!!!

Would you risk everything, even your life if need be—to save the one you love?

For Sam and Heven, the main characters in Cambria Hebert's thrilling Heven and Hell series, life means nothing if they can't spend it together. In "Masquerade," the stage is set for these two characters to plunge into danger and despair so they can eventually find happiness together, and then things escalate as good and evil vie for their souls in Hebert's latest release, "Charade." Sam's younger brother, Logan, adds quite a bit of drama to the "Charade" storyline, but Kimber, Cole, and Gemma certainly have their fair share of new developments as well.

Twists and turns, betrayals that have a most wicked bite, plus angels offering heavenly intervention and demons...naturally raising a little hell, all make this novel hard to resist and easy to enjoy. Although, "Charade" is not just about the battle between good and evil since it hits upon other facets of being human that, at times, affect us all. For instance, Heven matures in this follow-up to "Masquerade" as she comes to accept her unique abilities and use them to fight against what's been unleashed from Hell. I was pleased to see her growth and loved that Heven could take care of herself, but Hebert made sure to keep Heven a compassionate character, one who thinks about others. This book targets YA readers, so if they can relate to Heven (Sam and Cole) who are all young but trying to make a positive difference in the world, then all the better!

Another huge part of this book follows the heavy emotions Heven and Sam must deal with as they constantly become positioned between right and wrong, between letting truth shine or allowing lies to temporarily cover their tracks. The choices we make, good and bad, affect the people in our lives, and the way Hebert showcases this is fantastic. Her characters pay a price for the choices they make, and some of these consequences come handed to them with a supernatural fist, yet again...lessons are gained by the characters and readers.

You'll have to read "Charade" to meet my favorite new addition to Hebert's Heven and Hell series, and that would be the Supernal Beings. Believe me—they are as cool as they sound! I've known a few people like them, and they are mysterious and seem as though they've been sent from above. If fallen angels, young adults with supernatural abilities, the age-old battle between good and evil, plus a marvelous amount of mystery wrapped up in a fantasy novel, sounds good to you, then do check out this wonderful series. I can hardly wait for the next book!

## **Veronica Morfi says**

In the second book of the Heven and Hell series, Sam and Heven are faced with the aftermath of getting the scroll and are burdened by their mission to return it to Rome. Heven is getting attacked by demons after the scroll almost everyday and Sam is trying to figure out what's wrong with his brother, Logan, who just found him. A lot of new characters are introduced, fallen angels, witches, a dragon and quite a few more demons. From the catacombs of Rome to the darkest places of Hell, this book really has it all.

For me the story was a little bit slower than I expected at the beginning. But I was really looking forward to

their Rome trip, which didn't last as much as I wanted it too. But once they were in Rome and even after they came back the pace was so much faster. A lot of things when on in this book. Surprising revelations, new friends and enemies, and of course a lot of twists and turns, some of them expected and some of them not.

What I loved about this book, surprisingly enough, was Heven. Reading the first book I was a huge fan of Sam and simply liked Heven, but now... now I love Heven. She is becoming a great person. Strong, confident, selfless. She knows what's right and does it even if she doesn't really want to. She pushes herself to be the person she wants to be and it's working. I think there is so much more potential in her and we will probably see that in the next book.

I read the first book a while back. But when the opportunity came for me to read, I jumped on it. This was a solid continuation of the series. I almost feel like we've come full circle. The cliffhanger is a little dicey. I want to read the next now.

### **Dale Ibitz says**

As with the first book one, this 2nd book is still simply sweet. For folks who love stories with super-sweet romance, this book is for you. A lot of innocent kissing and hand-holding. You know those couples in high school that can't live for a moment without the other or they're just going "to die!"... ? That's Heven and Sam.

Again, straight-forward plot, no real surprises except for maybe one. Sam's brother, Logan, just plain creeps me out. And yes, that's a good thing! I like to have some kind of reaction when I'm reading. :) Oh, and mom's boyfriend? Not good, not good at all, though expected. He was written too creepy to be good news.

Some things didn't make sense for me, like why Cole wouldn't let Heven tell Kimber about him. If Kimber

was his girlfriend, that wouldn't be a secret you'd keep, especially when seeing how upset it made her. To me, this was an plot-ploy to move the chess pieces into place.

Loved the Hell parts, as usual! And not everyone is saved at the end... now \*that\* is a good thing! Of course, not for the characters... just for us dark readers who like edgy-unexpected.

(Source: Purchased from amazon for only £1.92!)

This is book 2 in the 'Heven and Hell' series. \*\*Warning\*\* unavoidable spoilers for book 1 'Masquerade'. So charade starts off where 'Masquerade' left off. Heven is now a supernatural treasure. She's guarding the treasure map (scroll) and trying to avoid demons, whilst working at the ice-cream parlor and trying to spend time with Sam. Sam is still working multiple jobs whilst trying to look after Heven and his brother Logan, and things are still strained between Heven and her Mom, best friend Kimber, and Kimber's boyfriend Cole. Unfortunately for poor Heven, she keeps being attacked by Demons, and she's still hasn't got permission to go on the trip to Italy that she desperately needs to go on to return the scroll to the catacombs in Rome.

As if she hasn't got enough to deal with with the demon attacks and the scroll, there are plenty of other surprises in store for Heven, with shocking revelations about Cole, Logan's increasingly strange behaviour toward her, and her mother's new boyfriend!

Add a fallen angel to the mix, a seriously hacked-off best friend, and a demon invading her head and Heven's life is a seriously bumpy ride! Can she get the scroll back to where it belongs though? Why are so many people behaving so strangely towards her? And what sacrifices will need to be made for the greater good?

Wow! There is just so much going on in this book it's difficult to know where to start!

Poor Heven is having a tough time of it, although she seems to be coping better with the removal of scars than she was. Sam is torn in two trying to look after both Heven and Logan, and Logan's strange behaviour is beginning to concern him.

I really felt for Heven in this book, as she was trying so hard to be nice to people who really weren't nice to her, and struggling to cope with some very strange behaviour from people. She was also strong enough to carry on no matter what the odds, whilst trying to help other people too.

I really didn't like Logan. I thought he was shifty, and didn't like the way he tried to come between Sam and Heven. I also disliked Heven's mom and the way she was being nice to Heven again just because the scars were gone. I really can't say how much Heven's mom's behaviour towards Heven annoys me. She should be supporting her daughter, not shipping her off to church camp!

I thought Sam's voice was lost a little at times cause when I was reading his point of view I kept thinking that I was reading Heven's point of view which confused me a little. Not sure why this was, but it just seemed like Heven's character was bleeding into his a little, although this is probably to be expected a bit anyway because of the mind-bond between them anyway.

I was really surprised at the revelations (don't want to give too much away) about Cole and Kimber, I really

didn't see them coming! Although I actually liked the one about Cole – I thought it really added to the story!

There were also some great lines in Charade, this being my favourite: "If you cannot breathe, I will breathe for you. If your heart will not beat, mine will beat harder. If you do not live, neither will I."  
(Sam to Heven) I just Loved this line!

I have to say that I loved Charade right from the beginning. As soon as I started reading, Cambria's wonderful writing style just put me right back into Heven and Sam's little world, and I was entranced! To be honest I made this book last as long as possible just cause I didn't want to finish it! I can't wait for the next book 'Tirade'!

Overall this was a book with an interesting storyline, plenty of twists and turns, shocking revelations, and sweet romance. Highly recommended to anyone who likes young-adult fiction.

9 out of 10.

Five stars! The sequel is even better! Full of surprises and secrets!

For Heven, having her life returned comes with a heavy price. She is the guardian of a secret treasure map that must be returned to the catacombs of Rome. If this scroll falls into the wrong hands, it would mean chaos, war and demons plaguing the Earth. Thankfully, she is not alone in her epic quest. At her side and always her guardian is Sam. Her boyfriend and protector, a boy she loves more than her own life. Together they intend to fight off the demons of Hell and make sure the document is securely placed in Rome. Unfortunately, the demons of Hell have other ideas. Daily it seems, Heven is attacked by demons. Luckily, Sam's abilities allow him to destroy the demons to dust. As the two prepare for Italy, the stakes are raised higher and higher. When the forces of Heaven and Hell collide, you know it is going to be an epic battle. The question is can Heven and Sam return the scroll and prevent the onslaught?

#### **What I Liked:**

\*Grab your catching mitt because Cambria Hebert is going to throw some curve balls at you. If you thought she yanked you around in Masquerade, she is back to shock and surprise you with all the twists and reveals in book two Charade. It seems that this time around everyone has some secrets, as if before everyone was a Charade and now the masks are starting to fall and true colors are bursting forth.

\*If you love all things paranormal, this book is full of supernatural beings. This time around there are demons, witches, angels, dragons, shapeshifters, dreamwalkers and more. This book is jammed packed with paranormal.

\*This book takes you from the calm confines of Grandma's quiet farm in Portland, Maine to Italy and its wondrous sights from the Coliseum to the Catacombs and then you are plunged into the depths of Hell. Quite the change in scenery.

\*Again I was soothed with Ms. Hebert's gentle, easy flowing writing style and then without warning she socks it to you! Be on your toes when you read a book by this author she knows how to surprise you.

\*I loved that this book has layers of depths and numerous storylines. You have Sam battling his dark side trying to maintain control and protect Heven. He is also trying to help Logan find his way and maintain a balance between his brother and his girl. Heven is evolving and growing as well. Last time around she was a bit meek, no more she is coming into her own and learning to fight and stand up to protect those dearest to

her heart. At the center is the strong relationship between Heven and Sam, it is lovely! In addition to Sam and Heven's storyline, there is the thread that follows Logan and his battle to gain control of the darkness within him. He also proves to be a bit of a thorn in Heven's and Sam's relationship, but is there more to it? Kimber and Cole return and add their two cents. At the end of *Masquerade*, there was just a flash of Kimber's true colors, this time her intentions are revealed. Cole plays a key role in Heven's life as well. Finally, Gran, rounds out the cast and I still get this niggling that she is hiding something. All of the characters and story lines combine to provide a thrilling, adventurous read.

\*I can tell Ms. Hebert has done her research to bring us this one. From the colors of auras and their meaning, to dreams and dreamwalking to the lore of angels, demons, Heaven and Hell.

#### And The Not So Much:

\*The story opens with a bang, a scary assault and then everything settles down a bit and you are lulled along. The plot moves a bit slow in the beginning, but don't be fooled, during this time, Ms. Hebert is laying down her threads and building the foundation for the upcoming trip to Italy and the exciting revelations that await at the end. Be patient and pay attention, everything little detail has its place.

\*This is a personal preference, I wanted a bit more time Italy. I was expecting the book to open and immediately take me to the Italian setting, but we don't get there until the midway point. Once there, it is a whirlwind and there wasn't much time to settle in and enjoy the scenery. Don't worry this is not a bad thing, there is plenty of action and excitement instead of a grand tour.

\*I was hoping for a bit more insight into Heven's mother and their relationship. I can't go into details here, but there is development but I want to see past the charade and get to the bottom of it. I am curious as to whether their relationship will be salvaged after the events of *Masquerade*. I am certain that more details are coming in the next book, I just need to be patient.

\*A new character, Gemma, is introduced. Gemma is a fallen angel but she is guarded and hides her secrets. I wanted desperately to know more about her. Why she fell from Heaven and what happened to her?

\*Finally, the end is a bit of a cliffhanger. You all know how I dread the cliffhanger. This wasn't too terrible, but it did its job. I am now eagerly waiting for the next installment, wondering what is in store for Heven and Sam. Thankfully, the wait won't be too terrible, as Book Three *Tirade* should hopefully be out early 2013.

*Charade* certainly does not disappoint. Ms. Hebert has proven that *Masquerade* was no fluke. This book has a rich, deep story line as well as fascinating characters who are playing a game of charade with the reader. Can you guess their secrets? In order to find out who is hiding what, you must enter into the pages of this book. Don't miss this fun and exciting series. You can snag a copy of the prequel, *Before* on Amazon for free. Both *Masquerade* and *Charade* ebooks can be purchased for \$2.99 on Amazon. An excellent price for these fun novels!

#### Favorite Quotations:

“It was oddly gray outside and the trees looked black against the sky, making everything appear as though it was a scene from an old black-and-white postcard that has yellowed slightly from age.”

“I was standing in front of him, accepting who I am and exactly what he fought to ignore.”

“You don't get it. It isn't part of me. It's a stranger.”

“He folded his arms around me and I sighed deeply. This is where I fit, where I belonged, everything else was just details.”

“If you cannot breathe, I will breathe for you. If your heart will not beat, mine will beat harder. If you do not live, neither will I.”

“I loved this boy. More than myself. More than life. More than anything.”

“I pretended not to, but pretending something wasn’t wrong didn’t make it go away.”

“Sam. His eyes were like warm sunshine and his mouth was cured up in a smile.”

“Note to self: it is good defense to knee demons in their ‘man parts’.”

“I was afraid that when day arrived and the sun came out, it would shine light into all the shadows from the night before, revealing all that the darkness had hidden.”

“I shook my head. The only thing that hurt was my chest, where my heart used to reside.”

Charade is one of those sequels that simply doesn’t make sense half of the time. Not because it’s confusing, or that we don’t learn anything new, but because the characters make stupid decisions for no reason other than to create more conflict. It’s a few weeks later, and Heven and Sam are being followed by demons. Obviously, they want the scroll, which Heven is not handing over. Meanwhile, Sam’s brother isn’t taking his change too well, and is acting weirdly toward Heven. The Italy trip can’t come soon enough so they can be rid of the scroll and get back to regular life.

The first half of Charade is actually really boring. It’s a lot of demons telling Heven to give them the scroll and haunting her dreams. But they can’t touch her because of Sam, so there’s really no threat at all. Then Heven is fighting with Kimber (again) because she thinks Cole is cheating with her. That is definitely not the case, but Heven refuses to tell her why Cole is over her grandma’s house a lot. There was no reason for her not to tell her, especially if she wanted to salvage their relationship. It felt like a forced fight, just to isolate Kimber, have her fall into the wrong hands, and screw everything up.

The second half of Charade does pick up a bit because they’re finally in Rome! And evil is lurking in unexpected places. Of course, things can’t be so easy as just dropping off the scroll and walking away. There are complications, and then I had a thought. Wouldn’t the scroll have been safer with Heven and Sam this entire time? They were doing a really good job of keeping it out of demon hands, even if they were constantly under attack. But, by them taking it somewhere, they can be seen! Someone can take it! And that’s exactly what they were trying to avoid! What is the point of that?!

Charade does end on a cliffhanger. Heven, Sam, and Cole are trying to fix things, but things go wrong again and someone gets left behind. Clearly, Tirade shall be the rescue mission book!

### **Actual rating - 4.25**

This was another great read.

I liked Heven and Sam again in this one, and i loved them together.

There were a couple of characters i didn't like - Hevens mum, Kimber and Logan. I really liked Kimber in the last one, but in this one she irritated me. It was revealed why she was acting like she was later in the book, but she drove me nuts before then! Hevens mum really, really annoys me, and i just found Logan shifty.

There was plenty of revelations in this one that i didn't see coming, and they defiantly kept things interesting!

Overall, Great sequel!

\*review to come along with Blog Tour on June 1st!\*

I just adore this series. I do. The characters, the drama, mystery, plot, suspense, the romance, the danger, gah, all of it!

I would like to just say that this is a serious that you have to try but I can't because, that just isn't enough. You need to know the greatest that is Cambria's writing.

Truly though, Cambria has created an amazing world with characters that feel real and are people that you grow to care about and love after the first few pages. Characters that you want to be friends with and know and just hang out with. Okay well, maybe not hang out with when say demons are attacking them or they have to make that unexpected trip through Hell but yeah, any other, non dangerous time, and I would be there.

Her writing just keeps getting better and better with each new book or novella in the series and it truly does blow me away how utterly addicting this series has become. I can't get enough of it and when I am finished with each new book, I am just left wanting more.

More of the action, more of the drama and much much more of the sweet romance between Heven and Sam.

I think I love Sam more and more with each new installment too. He is completely loyal and sweet and those that are lucky enough to be loved by him, are loved fiercely.

He is someone I would want in my corner in any situation. I might even have a little bit of a book crush on him.

I love that Heven is getting stronger and stronger as the series goes. She is really coming into her own and isn't one to sit back and let others do the fighting for her. She is becoming fierce and even a little kick butt and I am loving it!

Cole, ah Cole. I think I fell in love with him a little more in this one too. He too is loyal and loving and just a really good guy. I really liked where Cambria took his and Heven's relationship. It was a nice little fun twist to the story.

I am in suspense with the way Charade ended and am on the edge of my seat wondering what is going to happen next.

I can only hope that Cambria writes quickly because I want more!!

I give this one a very solid 5 Stars!
