**Coming Home** Brenda Cothern

This book is now FREE!

Chase Murphy returns to his backwater home in North Carolina after eight years in the Marine Corps only to be confronted by his high school tormentor, Brad Wilson. Only Brad isn't interested in tormenting Chase; he is interested in something else entirely. But will Chase be interested in the same thing?

## From Reader Review Coming Home for online ebook

### **blub says**

Chase and Brad are okay characters, neither had personalities I had hated. My only issue was that their attraction to each other felt superficial. It just felt like if Chase or Brad had a bigger selection of individuals to choose from for bed partners they wouldn't have really chosen each other or they'll be together but sleeping around on each other.

---

### **Don Bradshaw says**

A very disappointing story that was just sex really. Half the book was a sneak preview of another book.

---

### **Pam says**

It's a nicely written short story and for the length the characters are pretty well developed. I do wish that the author had picked names that were less similar. I mean please. Chase and Chad. What was she thinking?

The bad memories Chase had of Chad...the bullying during his growing up years is handled well. And there is just enough references to the changes in his physical appearance and attitude since leaving town to join the Marines to be effective. What I found inconsistent was his sudden change back to being a cowboy. What about his current life is that of a cowboy? I just didn't see it?

Getting Chase and Chad together is fast, hard, filled with passion and lots of uncertainty and fear on Chad's part. The scene is sizzling but leaves their so-called 'relationship' in the closet. That's okay but when Chad's friend finds them in a compromising situation at the river, the story ends abruptly. You have no idea what happens after it's spread all over the small town. I find this particularly annoying since that leaves 50% of the supposed page count in excepts for other releases. Just be aware.

---

### **Keith says**

Really liked the idea of the book, but too confusing with the names so similar. Story felt too rushed.

---

### **Tailtiu says**

2,5\* upgrade because it was free.

---

### **Heller says**

Chase comes home from the Marines and hooks up with the guy that used to bully him all through school.

While I understand that Chase hated Brad for a long time because of his bullying ways, his inner thoughts on how much he hated him while trying to screw him just made me uncomfortable and really sorry for Brad.

---

### **Cindi says**

Enemies to lovers story. Nice story but I felt that it ended (at 50% on my Kindle) as soon as the real story began. I would have liked to have seen where Chase and Chad went from there.

---

### **Dee says**

I don't understand the so-so reviews. This book was hot. What a concept to build a story and relationship upon. Great little read. Thanks.

---

### **SheReadsALot says**

M/M HFN with a 'gay-for-you' theme. An ex-marine comes home to his small hometown and screws his bully. Not bad for a free read. Very short. The characters' names confusing as reading - Chad & Chase. Author, please consider using names that are not so similar.

---

### **Wicked says**

It was...ok. The main characters were both likable. The fact that their names were so similar (Chase and Chad) made reading hard to deal with but the story itself was alright. Very short. I could have really liked this if the characters (and the story) were fleshed out more. It's not something I would read again but I'm not sorry I read it.

\*\*\*Please note that I would like to apologize to the author for my previously unedited review which indicated that her characters were hard to deal with. I actually meant that their names were and my inattention to that particular detail conveyed something I truly did not mean.\*\*\*

---

### **Paws says**

Good story from a physical stand point, but emotions were left out of this book completely.

---

**Tonileg says**

What happens when you see people from your past, people from high school or college? I get hit with memories from the past and the bad souvenirs hit harder than the good.

Chase Murphy returns to his backwater home in North Carolina. He has been a marine for the last eight years and has checked out and is going home. His parents are dead and he has the family home to fix up whilst thinking about his future. Chase used to be tormented by Chad Wilson and his gang in high school.

Of course the first night out at the only bar in town he sees Chad and his crew so he gets lost quick. But in a small town you can't hide for long... and the two eventually have a face to face confrontation.

There are quick a few sexy scenes and they do get romantic in this gay-for-you romance. Chad has never been with a man and Chase has had some lovers in his past.

There is quite a bit of name confusion Chad and Chase is perhaps unfortunately close and the author would have made it easier for the reader by having different names like Sam or Arthur...

Free for kindle and less than a hundred pages.

2 stars

**Maygirl7 says**

I had low expectations for this free read, but it surprised me.

---

**Pati says**

I was really enjoying this story, right up until it's very surprising ending at 50%.

---

**Evan Xavier says**

One hot soldier + One sexy cowboy = One-handed reading. =)
