## **Obsidian Curse** Barbra Annino

Reporter Stacy Justice has finally stopped resisting who she really is—a powerfully gifted witch. And now that the Council has appointed her Seeker of Justice, she feels stronger and more attuned to her magic than ever before.

But Samhain—the night when the veil between the worlds thins—is approaching and something strange is brewing. First, a fairy with a sweet tooth appears in town unexpectedly. Then, a mysterious stranger shows up at Stacy’s newspaper, seeking info for a true crime exposé he claims to be writing. But most disturbing of all, a bloodthirsty, sexy demon has escaped the Otherworld, determined to invoke a curse that has plagued Stacy’s family for generations. Fulfilling her role as Seeker and finding out how all these pieces fit together may tear her relationship with her boyfriend apart. But if she doesn’t find answers soon, her love life won’t be the only thing in danger.

This fifth book in the Stacy Justice series offers more of the dazzling magic and heart-stopping thrills that have left readers spellbound.

## From Reader Review Obsidian Curse for online ebook

### **Paula Harris says**

#### **Another great addition to the series.**

I loved that you are guessing who's on the side everyone is on until the end. I can't wait for the next Stacy Justice book.

---

### **Diane ~Firefly~ says**

[I was really glad Stacy told Chance everything at the end. Secrets are never good. (hide spoiler)]

---

### **Becca says**

I was so excited to win Barbra Annino's new book as part of the first reads program. I've been a huge fan of the Stacy Justice Mystery series and the 5th book doesn't disappoint!

Obsidian Curse was a pleasure to read. I loved spending a few hours with my favorite characters. They feel like old friends. This book has the same suspense, twists, and magical touch that I enjoyed in the previous books. The town, characters, and family ties that Annino has created are genuine, lovable, and often outright hilarious. Her dialogue (particularly between Stacy and her Great Dane familiar, Thor) always makes me laugh out loud! I'm fond of the whole Geraghty family, especially the aunts, and have really enjoyed how the story unravels more with each book. If you haven't checked out the series yet, I definitely recommend beginning with the first book. A few of them pick up right where the last one left off in a cliffhanger. After that little end note in this book, I'm looking forward to the next one revealing more of the family secrets!

If you enjoyed my review, please check out my blog: [www.beccaswainfromauburn.wordpress.com](http://www.beccaswainfromauburn.wordpress.com). I review one nonfiction and one fiction book each week, generally on Wednesday.

### **Mlpmom (Book Reviewer) says**

Not that I had forgotten, but it didn't take me long to remember how fun this series is and how much I enjoy reading it after picking up Obsidian Curse. I was quickly immersed right back into Stacy and the Geraghty Girls's world and I couldn't have been happier about it.

With just the right amount of mystery, danger, romance, humor, and magic, this is one series any lover of either, or all, is sure to love and devour quickly.

With familiar characters I have grown to love and new ones that are every bit as enchanting, I was reminded all over again why this series deserves to be read, loved, and talked about.

Annino is an amazing writer. With her witty one liners, a super sleuth that is every bit as good getting into trouble as she is getting out of it, and amazing side characters that are sure to warm your heart every bit as much as make you laugh, she truly has created both something that is entertaining and much as it is magical.

I'm glad this series is till going strong and that this fifth installment was just as great as its predecessors.

---

### **Mariko Tsubaki says**

Another great book in the Stacy Justice series. I really enjoyed catching up with Cinnamon, Leo, Chance, and of course Birdie and the Great Aunts. Although this book really centered around Stacy and her transformation into a more powerful witch, I still found some laugh out loud moments. But I really wished there would have been more antics from the Geraghty girls. I am looking forward to the next book because I have a feeling the fun is just beginning for Stacy and the gang.

### **Julie Shankle says**

#### **#4 was smoother but #5 kept stride nonetheless**

Book 4 had fewer irk-points than any of the books to present progress here with book 5 but I did enjoy this book despite my frequent disgust over how lacking in ULTRA-basic tech savvy that Annino and her beta readers and apparently editor and everyone in between are STILL, so no fluke there. I also wasn't fond of how Alzheimer's disease was flippantly played with in this book. What I loved was Stacy getting back into her damned Jeep groove!

---

### **Sandy Duncan says**

#### **Can't get enough of Stacy Justice**

Another great story about Stacy. I love this series and can't wait for the net story. this one had it all, witchcraft,action, a bit of romance and of course mystery. highly recommend it

---

### **Jessica says**

Always enjoyable and never a let down this book is no exception. Funny with characters you can truly say you'd be friends with and fun monster-of-the-week style story telling, win win!

---

### **Daniell says**

This has got to be one of my favorite series of books! I savor each one and they never disappoint. The secret to a fabulous series is to make a great character and have fabulous and quirky people around them then continue to build and create interesting and unique stories and situations. This book does all of that and then adds humor and romance. I can not ask for more. I loved this one and would recommend the entire series....make sure you start at the beginning (Opal Fire) so you don't miss a single book. You won't be disappointed.

---

### **Rob Edwards says**

#### **Love this series!**

I always look forward to another Stacy Justice adventure. Always feel a little sad when I finish the book. Want to keep reading.

---

### **Amy says**

I continue to greatly enjoy this series. The characters are well formed and interesting. The author must either be a witch, have done a lot of research, or have an amazing imagination to make the witchiness of the series seem so real!

I look forward to the next book!

---

### **Denise Keef says**

I absolutely love this series and the fifth book is so good! I couldn't put it down and read it in a day and a half! There are a lot of twists and turns...ups and downs...Oh no moments and laugh out loud scenes(my husband asked quite a few times what I was laughing at)! Stacy along with all of her aunts, cousin Cinnamon, Leo, Chance and Thor are all here along with some new characters that I hope make appearances in future books. So looking forward to the next adventure with Stacy Justice who definitely gets into some "sticky" situations to see where she will end up next! Kudos to Barbra Annino on another great story in this series whose writing is so captivating and detailed that you can feel the magic in the air!

---

### **Denise Zendel says**

Stacy Justice, reporter by day and powerful witch by night, is finally coming into her own. Once reluctant, she's now embracing her skills and assuming responsibility as the Seeker of Justice, in the witch world and the human world as well. She is unable to tell her beloved of her true nature, however, and this causes complications in the relationship. He falls under the influence of a succubus and things get even more complicated.

Stacy is struggling at the newspaper too. Her partner has hired a blonde bimbo sex columnist Stacy hates but can't do anything about because the bimbo's work is popular. Stacy is charged with keeping

an eye on the bimbo because she's either a bloodthirsty demon in slut clothing come to torment Stacy and her family, or needs protecting from the bloodthirsty demon. Stacy does enjoy tranquilizing the bimbo on a regular basis.

Samhain, the night when the veil between "them" and "us," is approaching and stranger-than-normal things are happening. A fairy with a sweet-tooth is stalking Stacy and a mysterious stranger shows up at the newspaper, knowing way more about Stacy than he ought to. Fulfilling her role as Seeker, and finding out how everything fits together may be harmful to Stacy's love life. Not figuring it all out may be harmful to Stacy's very existence, as well as that of the family she loves.

I started this on the elliptical at the gym the other day and that was the fastest 30 minutes I'd ever spent. I was so entranced with the story, I rushed through the rest of my workout so I could get home and keep reading.

All the recurring characters are back – Thor, Stacy's Great Dane "familiar"; Cinnamon, Stacy's cousin, pregnant and developing an uncharacteristic fondness for kitchen items with a fairytale theme; her wacky aunts; her beloved, Chance; and her ex-boyfriend the sheriff. The plot was captivating and the ending – wow, what a complete surprise.

While you could read these out of order, I recommend reading them in order for maximum enjoyment.

---

### **April Rogers-Krick says**

Barbra Annino once again takes us on a supernatural adventure into the world of Stacy Justice. As with the other four books Obsidians Curse is well thought out with characters that are not only believable but truly make you wish you could meet them. The plot is not complicated but it is also far from simple. There are enough twists and turns to keep you on your toes. Not only a great summer read but a wonderful anytime you want to curl up with a good book read. Grab your copy today. Fix your favorite beverage and snuggle up in your favorite spot to read.

I also have the narration with my Kindle copy of this book and found that it is extremely enjoyable to listen to. Thought it would be great to listen to at bedtime and found myself not wanting to sleep. Even though I had already read the book I had to know what was going to happen next.

---

### **Krystyna says**

#### **Skulls, Sidhe and Scribe**

Awesome. A reunion is planned for former high school students bringing an author into town. He has another reason for coming - the unsolved murder of his parents. Add in a vampiric Sidhe who has a grudge against her family, a lost black obsidian skull, killers and a fae army for a terrific plot. Where even if you spot one "baddie" you will still be surprised at the ending. Is she strong enough to trust her beau with all her secrets? Why is Thor so protective of the unborn baby? Why is her mother being so secretive? The characters just get better and better. Next please!
