I did not read it yet.

I liked how Perseus left Athena, Hephaestus, Hades, and Zeus with a hint about the thirteenth Olympian but didn't tell the his name because Perseus didn't get his name.

As an adult reader, I am over this repetitive series; however, I understand the importance that this series still plays for young readers. The consistency and repetition allow young readers to gain confidence as they are also introduced to Greek mythology.

The young Olympians have been sent to search for hairy snakes. Zeus is not very excited about it, he doesn't like snakes. They meet a mortal named Perseus who gives mislead them. Luckily they have each other and quite a few magical objects. When they find the 'hairy snakes' will they be able to defeat this terrifying nemesis?

As a read-alone, this book #14 is impossible to understand, there are a ton of characters and references to past adventures. I have a couple of fourth graders who love this series. This is a fun read for Greek mythology fans, but everyone else would just be confused.
