Judy says

Picture it: I'm sitting on the sofa reading through a years worth of recipes that were published in Southern Living magazine and my husband tells me that he's hungry. I rolled my eyes, marked my place in the book, and told him to call for takeout. I love my life. On the plus side, I did find several recipes that I'm going to unleash on my tea/book discussion group in the next few months.

Pam says

You just can't go wrong with Southern Living, very attractive cookbook filled with good tasting recipes, everyone I tried has been very good.

Rebecca says

Pictures of recipes? Yes, but in black and white with a color insert in the middle.

Commentary on recipes? Some.

Nutrition facts? No.

Recipe Style? Southern.

Any keepers? No.

I am really over the year in review cookbooks that are organized by month, not dish type. Plus the black and white food photography is just unappetizing. I find this inexcusable in 21st century cookbooks.

Sylvia says

Some nice recipes, however, I still don't like the fact that the pictures with the recipes aren't in color. The color insets are attractive, but it's a pain, albeit a minor one, to view the picture and then turn to the recipe page. At the price of \$35, I think the pages should be in color especially since all of these recipes have already appeared in the magazines.

Jeff says

The color pictures are wonderful and can easily tempt you into making the recipes depicted. The monthly menus look good too. So far we've made 3 recipes from the book and they have all turned out great. I wish there were more color pictures as something is lost in the black & white ones.

Kelsey says

Mouth watering recipes with simple ingredients that are easy to follow. This book will make you want to try something new. With recipes for all year long you'll never run out of ideas.
