Supervision in Social Work, 5th Edition Alfred Kadushin , Daniel Harkness

First published in 1976, *Supervision in Social Work* has become an essential text for social work educators and students, detailing the state of the field and the place, function, and challenges of supervision in social work practice. This fifth edition takes into account the sizable number of articles and books published on supervision since 2002. Changes in public health and social welfare policy have intensified concern about the social work supervision of licensed practitioners. Tax and spending limitations at all levels of government, combined with the unfolding effects of welfare reform and managed health care, have increasingly emphasized the need for efficient and accountable administration of health and social services in the private and public sectors. This fifth edition confronts issues raised by these developments, including budgetary allocation and staff management, the problems of worker burnout and safety, the changing demographics and growing diversity of the supervising workforce, evidence-based and licensure supervision, and performance appraisal.

Praise for previous editions:

"The continuation of a classic! As always, this book is a joy to read, replete with numerous case examples to illustrate the major principles." -- Cynthia D. Bisman, Bryn Mawr College

"Excellent." -- "Social Work

""A thought-provoking and comprehensive resource for students, faculty, and human services staff." -- Peter J. Pecora, senior director, research services, Casey Family Programs

Deirdre says

An excellent book by Kadushin which will provide guidelines and suggestions in supervising social workers who have various learning styles. A great tool for beginning supervisors as well as more experienced staff.

Katie says

So, I found this book really interesting. It was appropriately intellectually stimulating to read without being over my head. I actually enjoyed it (weird, I know) for the most part despite the fact that I am neither a supervisor nor a social worker (read it for research).
